### Will Rogers And The "Joiners"

Will Rogers, the traveling diplomat, in a recent address, characterizes the American men and women as "joiners" and says that the American man will join a luncheon club, a lodge or anything else but his own family, or anything that will take him away from home.

The women, he says, are no better and seek to belong to about everything that they can gain admittance to.

He states that we have so many luncheon clubs that every other man carries a gavel and meeting a friend on the street immediately proceeds to call the meeting to order.

America is criticised for "butting in" on other people's affairs by the great humorist, who with his homely wit and keen satire, which while not very diplomatic in its utterance, is filled with wholesome truths.

In discussing the farm relief bill, in his discussion of politics, he stated that he could find no fault with the president for having vetoed the farm relief bill, as the farmer had been relieved of about everything that he has now, all of which may not be true, but illustrates his point, as when he tells the farmers that if they would pass more filling stations and fewer resolutions they would not need so much legislation.

It is refreshing to listen to and read Will Rogers. He is no respector of persons, and does not permit the dignity of the one he is discussing to disturb him in the least, and regardless of who the person is, king or peasant, he is always welcome, as illustrated by his recent visit to Europe.

If he talked to the kings and queens of the European nations as he does to our president and the American prime minister, Wm. E. Borah, of Idaho, he must have been regarded with some good deal of respect and awe.

While no respector of persons, Rogers is clean, witty and never unkind or cruel in his comments or criticisms which while barbed with sharp wit leave neither sting or wound.

The rare good humor with which they are told, plus the homely truth, is very palatable to the American taste and ear and we are all rather proud of the gum-chewing, rope-twisting cowboy and philosopher and short sleeved diplomat.

No Substitute for Civic Duty

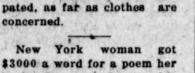

We wonder how a woman in

concerned.

days consist more of what they do not wear than what they wear. The boys will have one advantage this summer, though. There's still something left for them to take off-Women these days spend most of their time dressing on their faces.

this rougeful day really looks .--- A married man used to have to wait for his wife to dress when they were going out. Now it's she who does the swearing-Women certainly have been emanci-

\$3000 a word for a poem her husband wrote. It was his will, done in verse-Like so many poets, his work was valueless until he was dead. Which is a good thought for spring poets-Garret garblers and basement bards are writing lots of odes-"Owed to the Groceryman" and "Owe favor

The big noise comes little end of the horn.

No one can be very wise and be very popular at the same time.

It doesn't matter much when a man loses his job if he doesn't lose his nerve.

Nature cares nothing for extennating circumstances; what's coming to you, you get.

In good society everybody has the same opinion, and so anybody who argues is considered ulgar.

Generally speaking, public dance halls cannot be said to improve the morals of a community.

Hez Heck says "Give me the feller who uses an alarm clock, and you kin hey the feller that wears a wrist watch."

The Literary Digest says that "picking on the parson is a favorite indoor sport," and the Baltimore Sun remarks that if the minister takes a narrow view, he is accused of bigotry, and if he takes a broad view he is suspected of heresy. If he asks for money, he is accused of worldliness, and if he doesn't his church falls to pieces, etc. where they will spend two weeks.

Ministers, like newspaper men, have a position of peculiar conspicuousness. If a business man or a factory worker makes an error, no one usually knows about it except the people immediately affected. But if the newspaper man makes a bad mistake, every one who reads his wrong article points the finger at him, and if the minister does or savs something wrong, he is convicted at hundreds of dinner tables.

But in spite of the business man's errors, the people keep on buying the sheet just the same. They will do well, in spite of any errors the minister makes, to turn up at church as usual Sunday morning.

## The Minister's Errors

There is agitation in many states against the primary system of making nominations, and many favor returning to the convention plan. Also there are many who claim that the evils of the old convention nominations were worse than anything seen in the primaries. But however one feels about it, people of all points of view should allow one truth to sink into their minds.

And that is that there will never be any kind of substitute for eivic duty on the part of the people. Almost any plan will work badly if the people fail to take part in making these nominations, and almost any plan will work well if you can get the people interested to do their duty as citizens.

The politicians may pass the buck, but the people can't. If they want good government, they have got to take hold and get it for themselves.

The radio commission is asking for suggestions from listeners for the betterment of the situation. We wish they'd do something about that tire shop on West 15th street that gives prizes after every item on the program.
