Acid In Stomach Sours the Food

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states the stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation; then one needs sour like garbage in a can, forming acid fluids and gases, which inflame the stomach like a toy balloon. When get that heavy, lumpy feeling in the chest, we cravate sour food, belch gas or have heartburn, flatulence, water wash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take tablespoonful in a glass of water before breakfast, while it is effervescing and furthermore, to continue this for one week. While relief often follows the first dose, it is important to neutralize the acidity, remove the gas-making mucus, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice combined with lithia and sodium phosphate. This harmless salts is used by thousands of stomach sufferers with excellent results.

COLORADO TO ALLOW SCHOOL BIBLE CLASS

Law Provides That Children Shall Not be Made to Take Work

DENVER, Mar. 30.—(UN)—Bible reading may be included in the curricula of Colorado public schools, but no pupil shall be forced to attend a Bible reading class, according to a ruling by the state supreme court.

The decision was handed down in the case of Charles L. Volmar, a Roman Catholic, against the board of education of the Platteville consolidated schools.

Volmar carried his case to the high court after a lower court upheld the school board's decision last fall to make attendance compulsory at Bible reading classes.

The opinion of the high court read in part: "The Bible may be read without comment in public schools, but children whose parents or guardians so desire may be absent themselves during a such reading."
