Home Makers

Home making is the chief ambition of 90 per cent of the girls today according to a statement by Helen Hatthewson Laughlin, dean of women at the University of California.

And is it not true that popularity of home economics courses, all courses in home making, art, and other studies which will enable them to make home life more desirable, is indicative of the fact that the modern girl is thinking of her home.

But education teaches them that they must have something to fall back on in case of tragedy or crisis in their home lives. A career is of course desirable, but in spite of what the modernists say, the girl of today is thinking primarily of home making. That is the duty they will accept first.

A woman of 40 or 45 is not old today—and her family may be gone by then, and a career or outside occupation may claim her attention. But her homemaking will have come first.

Chauncey Depew recently observed his ninety-third birthday anniversary and he observed in an original manner that the girls of today are not one bit different than they were 70 years ago.

Vacation Days

Vacation time is near and already the call of the great outdoors is heard. The mountains, the rivers, the seashore are casting their magic spell and calling to their slaves. And the man or woman who does not fall victim to their magic spell of enchantment has indeed lost the power of the greatest enjoyment which nature has provided.

The magic lure of lavish nature has in it the promise of mental as well as a physical reawakening. Cares and worries of office and home—of every day life—should be left behind as vacationists abandon themselves to the enchantment of Mother Nature.

To he who least heeds the demands of civilization while vacationing, comes the greatest benefit.

Honor Authority

Ninety of the representative men and women of the Ashland community met recently to do honor to the governor of the State of Oregon.

Regardless of political creed or conviction they were glad to do honor to Governor Patterson. Not only because it was Governor Patterson whom they were privileged to respect through their presence, but because it was the governor of the great Commonwealth of Oregon.

We do not bow to royalty in this country. We are a democracy. But we do reverence authority.

And we cannot reverence authority unless we honor those who represent authority.

The tribute paid Governor Patterson was indeed a fitting one.

The Lumber Industry

In the last few years lumber manufacturers have awakened to the fact that they cannot maintain their sales without advertising in the face of strong competition. That realization has brought about the organization of a campaign which will extend over at least a five-year period, and will call for the expenditure of a minimum of \$1,000,000 a year for advertising. While the synthetic and competing building material companies have been advertising for years, lumbermen considered their product an essential which would stand the test of competition without aid. They have found by experience that such is not the case and are now ready to make an active campaign for increased sales.

The use of lumber has actually decreased in recent years in spite of the growth of population in the United States. Apartment houses dealt a blow to lumber sellers and competition by brick, stone, tile, cement and other products cut in additional part from lumber volume. Even steel companies have begun to manufacture structural shapes and recently several houses have been set up as models which are almost entirely of steel construction.—Eugene Guard.

Necessity is not only the mother of invention, it is the mother of organization.

To budget your time and center activity on a few things is a good rule for efficiency.

One of the surest causes of happiness is to get a kinder in your eye.

Now we have been told long haired "King Ben" has a clean past, will some one tell us the present and the future.

The covered-dish supper, which was given last evening, Wednesday, May 18, in the civic club—

IF "ALWAYS TIRED" TRY THIS

A healthy person never feels constantly tired. Being "too tired" continually is a sign of something wrong. Watch your kidneys. If elimination is faulty, take Foley pills, diuretic, a perfect regulator of irregular kidney action. Miss Giddens, of Hayneville, Ala., says: "Foley Pills, diuretic, have been a wonderful help to me, relieving me entirely of weakness, that always 'too tired' feeling, headaches and nervousness." Men and women everywhere use and recommend Foley Pills, diuretic. Ask for them. Sold everywhere.—No. 2.

house on Winburn Way by the members of the Women's Civic Improvement club, was a splendid success both socially and financially, and the ladies are very much pleased with the returns from this affair.

After a delicious supper served at tables most beautifully decorated with Scotch Bloom and Bridal Wreath, eighty guests enjoyed a delightful evening of Bridge, Five Hundred and dancing.

Mrs. P. S. Provost was chairman of the committee in charge, graciously assisted by Mrs. W. L. Macey and the Executive Board.

CRIMINALS AND LAWS

There they go—out of California. The thugs, the three-time losers, all the professional criminal class, and in some cases, let us hope, their friends, the shyster lawyers: A big exodus of criminals occurred from New York state after the passage of the Baumes law; and we may quite reasonably expect the same result in California now that the State legislature has passed more than fifty pieces of legislation,

each and all tending in the one direction of straighter, quicker, more efficient trials for criminal cases. California now has the best, most modern criminal-trial system in the country. Now let other states follow suit. — San Francisco Examiner.

**Julia Claussen,
Metropolitan Opera Star,
who protects her voice,
writes:**

"When I decided to smoke cigarettes, I looked about to see which brand was in favor with most men. The answer was easy to find. I noticed that practically all the men at the opera were smoking Lucky Strikes. I learned from them that this cigarette, delightful in flavor, left their voices in splendid shape for their singing. So I tried Lucky Strikes and knew that the men were correct in their judgment. I am enthusiastic about their flavor and the fact that they do not affect my voice."

Julia Claussen

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.
