ASHLAND DAILY TIDINGS OUT OUR WAY

By Williams

The English Language

English speaking people are about the greatest drawback to the foreigner who would learn English. We laugh at the boob that gets twisted but give formal dinners for the stuck up faker who pretends to be educated and speaks six languages and who in reality makes as many blunders as his less fortunate fellow countryman.

Educated men tell us there is no such a thing as the man who can fluently speak six languages. Any man who may have a smattering of two or three can claim to be fluent in any number and be sure that no one will check up on him. An Italian, German or Swede can never disguise his nationality by learning English.

But the foreigner who comes here, often without much background of grammar, and tries to learn English by listening to the jargon which is heard on the street every day is up against a puzzle. We grant once for a question and twice with one inflection for yes and twice with another inflection for no. We mix up slang, provincialism, similes, figures of speech and a thousand other things into an incoherent jumble and then laugh at the man who can't understand it.

As a contrast with this we come in contact with the man who has crust enough to make us feel inferior. He can't talk any better than the other fellow, but he impresses us with his supposed intelligence and we pretend to understand his speech. Half baked ideas are often made attractive simply because they are presented in broken English.

All this simply shows some of the problems confronting the foreigners who come here to make America their home. That many of them are able to learn the language and become useful citizens is evident of almost marvelous ability and patience.

Concerning Weight

Although the fat man may be the subject for many practical jokes, there is much to be said for avoirdupois.

Not very long ago a lecturer pointed out that weight was a tremendous asset for a preacher. "The big man," he said, "can tell the congregation what he thinks of them and get away with it while a little fellow would be thrown out of the pulpit."

If a little dog runs after a man and growls and shows his teeth he will be received with a vigorous kick which will send him spinning down the street. But the dog that stands waist high need only show his teeth and any man will break into a run.

There probably never was a woman who was the right weight and would admit it. All we have ever seen insisted they were too fat or too thin. But some of those who should know are telling us that a big woman always makes a more lasting impression than a small one.

Did You Ever Think?

That everybody in Ashland is "in business" of some kind or another. Not only the man who runs the store or bank or newspaper, but also the man or woman who teaches, preaches, doctors, or otherwise labors in human or industrial service. All who earn a living may be considered "in business" to the extent that they depend on the other fellow. Therefore it is a mistake to think that the merchants alone are the authors of the "trade at home" idea, or that they are the sole beneficiaries of the idea when put into practice.

Another trouble about abandoning the Ford is that so many joke books will have to be rewritten.

Members of the Washington state funeral directors' association held a jazz dance at their state convention surrounded by caskets, hearses, shrouds, embalming fluid and other funeral equipment. After all these things usually follow on the heels of wild parties so why not have them handy?

You can find ladies' ready-to-wear garments in the stores, and you can always find ladies ready to wear them going into the stores.

About the time a fellow gets to going pretty good somebody comes along and curses him if he doesn't vote enough and taxes him if he doesn't cuss enough.

Try This One

Presidents of the U. S.

1. Name a father and son who were both presidents.
2. Who was the first president who was not born a British citizen?
3. What president was famous as a hunter and explorer?
4. What president died a month after his inauguration?
5. Who was the only president to serve two non-consecutive terms?
6. Who was the only president who did not claim membership in any religious denomination?
7. What is the one ancestral nationality, aside from one of the divisions in the British Isles, from which any president has sprung?
8. What president was born in the same state and in the same year as Jefferson Davis?
9. What three presidents were assassinated?
10. What president later became chief justice of the Supreme Court?

ANSWERS

1. Denmark, Holland, Belgium, Luxemburg, France, Switzerland, Austria, Czecho-Slovakia, Poland and Lithuania.
2. Germany.
3. Germany, Austria, Czecho-Slovakia, Hungary, Jugo-Slavia, Bulgaria and Rumania.
4. Luxemburg.

8. Latvia.
9. Mediterranean Sea.
10. So Silver.

THIS AND THAT

Now that "Lucky" Lindbergh has secured us he really likes it, but doesn't know any, there's many a maiden whose hopes have risen.

Strawberry and cream season is well established here with home grown berries in evidence.

The weatherman was mighty decent about Memorial Day weather.

Maybe when a suitable fruit marketing plan is worked out there will be a lot of silver tongue orators out of a job.

Henry Ford has determined to "repeal" the 45 year. Just another case of evolution.

We see that the new Mikado of Japan is a daring rider. And still the Prince of Wales has no rival.

"Diddy pass" will replace all other forms of greeting among school kiddies Friday.

July Fourth comes next.

Too cool for good fishing over the week-end. Lot of fishing parties were out though.

SOCIETY NOTES

MISS DOROTHY REID, Editor

Tuesday, May 31.—Rehearsals and their families will hold a covered dish supper at 6:30 p. m. in the I. O. O. F. hall. Each member is requested to bring a covered dish.

Wednesday, June 1.—W. B. A. will hold their regular meeting in the I. O. O. F. hall.

Monday, June 15.—The Music Teacher's association of southern Oregon will meet in Ashland.

While cotton manufacturers are striving to make this a cotton summer, it is certain that women will prefer to wear light-weight silks in preference to linens, cottons, organizes, etc. With numerous gown houses selling silk frocks of all types as low as \$10 and \$15, it seems unlikely that women will again adopt the wearing of cotton materials.

FACE OF PAN
One glimpse was all I ever saw
A pale face with blue eyes—
Seen in a crowd, and gone—
And now the harmony of blue
and white
Haunts me as a divine melody—
A blonde child chasing a pipe
butterfly,
A white mountain kissing the
blue sky
A cherry tree in blossom with a
blue bird hovering near—
All these, and more, and yet a
tear.

Arms and Legs
NEW YORK, May 28.—During the past few seasons it seemed that a woman could show as much of her leg as she pleased but now she is up to the female who showed an arm above the wrist-
watch. Arms were considered decidedly vulgar for street purposes evening during the warmest summer weather.

Now, however, one may display a dimple elbow if one wishes. The censors have turned thumbs up when it comes to sleeves this year. Many of the better class sports frocks are sleeveless. But, even now, one must sneak up on the sleeveless rogue for though the frock is sleeveless the accompanying jacket is certain to be long-sleeved. It is thought that when warm days approach, jackets will be treated as kid gloves are. They'll be carried to prove that at least one has a long sleeve about the person.

Belts are among the important accessories this year as no frock or three-piece costume seems complete without a belt of some sort. With the sports suit they are decidedly popular and some of the newer sports belts are extremely wide. The two-piece frock is not to be worn without a belt this year it appears.

Masterpiece beach coats of bathing suit length made of grey crepe, or of tulle or of velvet are among the new beach accessories. Both belted and unbelted models are shown in the shops. Wide vertical striped coats of flannel are also new.

TURNING THE PAGES BACK

ASHLAND 10 Years Ago

Miss Voda Brewer, a last year's high school graduate and disciple of the Ashland teachers training course, has gone to Oakland, in Douglas county, where she will teach in the public schools.

Alfred Kockfellow left Tuesday evening after several days' visit in the city. His immediate destination is San Diego.

Miss Hazel Smith and Miss Florence Erickson visited Medford Tuesday afternoon.

Fred B. Tracy, his wife and Mr. and Mrs. Irving Finley have returned from a vacation trip through the northern part of the state.

ASHLAND 20 Years Ago

Geo. W. Burk, who comes from Minan, N. D., is among the recent arrivals in Ashland. He has decided to locate among us and invest in property here.

Walter Lynn, an old-time resident of this region, now of Goldfield, Nevada, is paying a visit to his home here.

Rev. F. N. Baker returned home the last of the week from a trip to California. He visited at his old home at Orland and brought back some lemons 9 by 12 1-3 inches in size as a sample of the products of that region.

ASHLAND 30 Years Ago

Jack True was awarded the contract for supplying wood to the Ashland Creamery at \$1.10 per tier for 30 tiers of dry fir wood a month.

Last evening a crowd of sweet voiced normal girls formed a serenading party, that awoke the echoes of the city and made the people feel like they were in a better land, at least that is the opinion of one of the professors.

Geo. Fendall and his cousin Abe Rogers, who recently came out here from Yamhill county, left yesterday for the Grouse creek mines to do placer mining on the former's claim there.
