## TALENT NOTES

Ed Osterdoff of Klamath Falls who has been attending the Dodge Bros. convention in Seattle stopped off on his way home for a visit Monday with his friend J. J. Tryon of the Talent Merc. Co.

Tom Lamb and Henry Sheets left Monday for the Siskiyou's where they will start working with Wm. Bruins road crew.

John Briner and R. Strange began road work Monday on the Dead Indian road.

Mr. W. W. Robison was elected as director on the school board Friday at the school election and Mrs. J. Terrill as clerk.

Johnie Rivers has been laid up the past week with rheumatism.

Mr. and Mrs. John Landon of Central Point have been visiting at the L. O. Penland home for a few days.

E. Wallace of Harbor, Oregon, spent the week end with Mr. and Mrs. R. R. Foster. Mr. Wallace has accepted a job at Medford with the Owens Lumber Co. as sawer.

Jeff Bell began the work of removing the tank house last week that stands on the back of his lots, he will use the lumber as building material.

Mr. and Mrs. S. Smith of Bremerton, Wash., called on Mr. and Mrs. S. Ballin last Thursday.

What came near being a serious accident occurred Saturday evening when the cars of L. O. Penland and Mr. Young of Fern Valley collided, both cars were badly damaged but fortunately no one was hurt seriously, the accident occurred when Mr. Young swerved his car into Mr. Penland's in looking for the new cut off to the Fern Valley bridge.

night June 20 at the school house.

Mr. Oscar Martin was re-elected for director and Mrs. Martin was re-elected clerk. It is worthwhile to find in a district those who are willing to serve. Though the Martin's have held office for a number of years, they are working again.

The old time dance orchestra, are closing their dances for the summer which have been held at the Armory the past weeks. It is hoped there will be a large crowd at the Klamath Junction in the Thomas packing falls, since this will not as a rule come out to more than one dance a week, and so as the Saturday night one is closed, these every other Friday night benefit dances should do well.

W. G. Tucker of this district and his brother M. M. Tucker of Ashland, are leaving next week for Klamath Falls, where they will build a house for Roy Hosley, who used to be a R. R. employee in Ashland. The Tucker brothers will drive home each week end.

Mr. and Mrs. F. C. Homes were guests of Mr. and Mrs. J. H. McGee at their cabin at the Lake of the Woods, over last week end.

Miss Katherine Harkins who is a graduate of Lane Hospital in San Francisco, and who has been nursing in Medford for the past year, is visiting her mother in Bellview since Mr. Harkins' death. Her stay will be indefinite.

Mr. and Mrs. Henry Frock and two little daughters, Hazel and Edna of Yreka, spent Sunday with Mrs. Frock's parents. Mr. and Mrs. L. B. Tucker. Grants Pass and vicinity cannot have all the honors when it comes to fine strawberry crops. Homer Moore who set his place to orchard last year, has a wonderful crop of berries between his trees, the Hines place on the Pacific Highway South has a considerable acreage in strawberries, as has Jeff Howard of Nell Creek. J. C. Barnes of Bellview has also produced a big bearing patch this year. So it is not chickens alone on which Bellview is coming to the front, and it is really a fact that residents of this community do not know themselves, what is being produced here. Each one is so busy, he has no time to look over the other one's stock.

### FORUM CONTINUED

(Continued From Page Two)  
 before I became normal I thought I heard some one talking. At first I thought it was Fred Peterson, but on listening again I discovered it was the voice of Patrick Henry speaking in the House of Burgesses, and I heard him say, "I have but one lamp by which my feet are guided, and that is the lamp of Experience. I know of no way of judging of the future but by the past." And judging by the past I wish to know what there has been in the conduct of our schools for the last fifty years to justify this radical change in our dearly beloved school system? Is it for economy, efficiency, equalization? No; it is for power, for influence, for dictation, for one man power. "Bending the pregnant hinges of the knee that might follow fawning." As Shakespeare says, will be the order of the day, "Woe is me, woe

is me," will be the lamentations issuing from school boards of the past.

The modern tendency of today is to limit suffrage. The stand is to put into the hands of the few the power to buy and sell, to hire and fire, and this Unit Plan would be ideal in this respect. No! democracy is not dead, it is just asleep for the time being. Let us on June 28 grab old democracy by the shoulders, stand him on his feet, rush him to the booth, and there assist himself by relegating this Unit Plan down into the shadows of the everlasting canyon.

**RECLAMATION IS DISCUSSED**  
 (Continued from Page One)  
 Various phases of irrigation were discussed by the honored visitors, all of them pledging their support to the irrigation projects of Oregon, but reminding the Ashland folks that the scattered population and small representation from this state made it difficult for legislation to be carried through.  
 James Steward, prominent in Oregon politics and in the irrigation projects in the state was also introduced and spoke briefly on the work.  
 Muse was furnished by the Woods brothers, Marcus, Chester and Harvey.  
 The congressional visitors in company with J. H. Fuller, sec-

retary of the local Chamber of Commerce today continued their inspection of irrigation projects in this district, including a visit to the Hyatt dam.

**SPECIMENS OF FINE QUALITY**  
**Sample Tests Made At Baudisch Brick And Tile Plant Satisfactory**  
 C. E. Baudisch, who came here recently from California to establish a tile plant in this city, brought to the Tidings office three splendid specimens of brick burned from Ashland clay.  
 These sample tests of local clay were made in three separate kilns and all developed perfectly and were very satisfactory to Mr. Baudisch and his associates.  
 He was accompanied by D. E. Crossley and T. A. Thompson, wealthy residents of Atascadero, California, who stated that, after making a complete examination of the local situation and possibilities for brick, tile and pottery manufacturing from Ashland clay, were going to return to their home, dispose of their property and come to Ashland to live and become associated with Mr. Baudisch in his brick and tile venture here.  
 At the plant site, a small kiln is now being constructed where tests will be made to show what can be made from the local clay. Machinery has been ordered, but operations have been slightly delayed, although they expect to start operations just as quickly as possible. All are enthusiastic about the possibilities in the business.  
 Charles Riddiford, chief postal inspector for the northwest district, thanked the newspapers for the assistance and co-operation they had given at all times.

## MEASURE NO. 302

On the ballot for the special election to be held June 28 is a constitutional amendment which provides that the 6 per cent limitation provision of the Oregon Constitution may apply to the Portland School District as it now applies to all other school districts throughout the state.

This measure effects no other district in Oregon than the Portland School District and Portland residents will appreciate your support.

### The Telephone Directory

Good telephone service depends largely upon care in calling telephone numbers. A wrong number called causes loss of time and inconvenience to you, to the operator and to the party called.

You will get better service if you—

- Consult the current issue of the directory for telephone numbers instead of trusting to memory.
- Call information if the party you want is not listed.
- Give the number, clearly and accurately.

These suggestions are intended to aid every telephone user. We earnestly solicit your co-operation.
