Had The Proof

BILL LOOMIS was FISHING at DIAMOND Lake last week. AS a lot of you KNOW, and you ALSO know how fast fish CAN grow after they HAVE been CAUGHT and the FISHER gets back to TELL about them. WELL Naturally everybody JUST divides your stories BY two the first week YOU are back and by FOUR the second WEEK and by the THIRD week they don't EVEN believe you EVER went fishing at ALL. But Bill had the PROOF this time for he TOOK along an EASTMAN Kodak from our STORE and he BROUGHT back a FINE bunch of PICTURES of EVERYTHING except the one THAT got away, and at LAST reports THAT one was still GROWING.

P. S.—A one-armed man can fish but he can't tell about it with any satisfaction.
