LEARNS ENGLISH LAWF OF EIGHT LANGUAGES

KANSAS CITY—(UP)—Miss Sarah Gordon, now of Kansas City, formerly of Grodno, Poland, could go to virtually any part of the world and soon would be able to carry on conversation with the natives. For Miss Gordon, 25, can speak fluently eight languages and can translate 26 others.

When she came to Kansas City five years ago she could speak seven languages, but not a word of English. She had graduated from a high school in Poland, and in three years here went through ward school, high school, junior college and had finished a course in a business college. She then got a job with a retail company here where a part of her work was to handle the foreign correspondence.

Portland Man Fined \$10 for Reckless and Impudent Driving

An Essex coach driven by Wm. C. Kemp of Portland, a Red truck driven by M. Russell of Medford and a wagon loaded with wood driven by W. H. Wallis, 304 S. Springs, figured in a traffic mishap which occurred on the Pacific highway, near the Klamath Junction early today.

One of the horses hitched to the wagon slipped on the wet pavement and the wagon loaded with wood skidded into the ditch. Mr. Russell stopped to assist in pulling the wagon from the ditch, stopping the truck on the opposite side of the road. As he was examining the wrecked wagon, Kemp northbound, and according to witnesses driving at a rapid rate, approached the truck, and applied the brakes on his car. The Essex, according to Sergeant C. P. Talent, who investigated the wreck, skidded 100 feet, struck the truck and knocked it into the ditch, skidded 100 feet further and went over the side of the road, only by striking a large rock being prevented from plunging over a 30 foot embankment.

Great Naval Disaster Occurs Near South American Coast

BUENOS AIRES, Oct. 26.—(UP)—The Italian steamship Principessa Mafalda sank last night off Bahia, Brazil. There were 1600 passengers aboard, of whom only 700 are known to have been rescued.

It is one of the greatest naval disasters in history, early reports indicate, with 900 believed to be drowned.

RIO DE JANEIRO, Oct. 26.—(UP)—Steamship company officials at Bahia, Brazil, and Buenos Aires, declared that there were between 1100 and 1150 passengers with a crew of 1250 aboard the Principessa Mafalda, which sank off the Brazil coast last night. There appeared to be little doubt but that most of the passengers were saved.

WASHINGTON LETTER (Continued from Page Four)

was entitled to a portion of the debtor's crop, a crowd of the boys went out to the debtor's farm, threshed his crop and hauled it away and sold it before the court could enforce the decree. An ex-sheriff, sent by a court with papers containing bad things to a straitened farmer, was seized and threatened with a noose. After a promise not to return, a pint of castor oil was poured down his throat as a "lesson." He has since been known as "Castor Oil Collins."

"They raise hell with bankers who try to foreclose on farmers," says a man who knows Sheridan county and admires its people.

The county sheriff has a splendid reputation for catching border rum-runners, but he is hard on would-be farm-hands, who don't carry the red card of the I. W. W. Incidentally, some of the big farmers in Montana prefer I. W. W. workers, insisting that although they demand reasonable hours and wages they aren't as shiftless as the ordinary non-union hand.

FAMOUS CALIFORNIA SURGEON LABORS TO BENEFIT FELLOW-MAN AT SACRIFICE OF PRINCELY PRACTICE.

Former Stanford House Surgeon, San Francisco Hospital, Clinical Instructor, Stanford University, Assistant Gynecologist, San Francisco Hospital, Evolves Simple, Inexpensive Gland Treatment

After becoming one of the best known and widely discussed gland surgeons in the United States, Dr. Clayton E. Wheeler, former Stanford University clinical instructor and assistant gynecologist, San Francisco Hospital, carried on his remarkable research work and laboratory experiments whereby the thousands who could not afford the expense and time to visit him, might have the privilege and benefit of his skill and knowledge within their homes at little cost.

There is now available to the distant sick, the chronically ill, those of failing health and disappointed health-seekers an opportunity for health recovery many have already proclaimed as marvelous.

In the vast knowledge gained, dating back to his research work in gland therapy at San Quentin (California) Prison, and after having performed more than 12,000 gland operations, Dr. Wheeler brought into his HOME TREATMENT course of gland therapy, founded on proven results of his work as far as it is humanly possible.

These inexpensive home treatments are now being sent to the remotest parts of the land, and letters of almost unbelievable praise from grateful men and women attest the good that is being done for the sick and ailing everywhere.

The ordering of a Home Treatment is but the first step with Dr. Wheeler in aiding the sick to health recovery—every patient has the benefit of his advice and guidance until the coveted goal is reached.

For 12c Dr. Wheeler's remarkable booklet, "The Prolongation of Human Efficiency," may be had.
