LITHIANS GET NEW MEMBERS

Initiatory Ceremonies Are to be Staged This Evening

With five candidates scheduled to become full fledged Lithians tonight and the initiation committee slyly smiling and victims of initiations of the past and all of the enjoyment they have inspired for those other than the candidates—there promises to be something doing in town this evening.

In the past there has been no limit to the fun which the candidates have provided for the remainder of the aggregation and the committee—with Major Malons and Guy Good very much in evidence—promises there will be lacking in the way of entertainment this evening.

Low Hansen, who directs the affairs of the Ashland hotel; Chief of Police George McNabb is nothing if not a thoroughly efficient law enforcement officer; Emmett Gillings, who, like a certain news reel "sees all and knows all" in his position as linotype operator at the Tidings office and R. Schuerman who "knows his groceries" and Elwood Hedberg, who handles "shining shiekles" at the First National Bank, are the candidates for whom the initiating ceremonies of the wild and wooly Lithians will be staged.

IRRIGATION IS SUBJECT OF KIWANIS

Splendid Talks Given by A. C. Joy and Olin Arnsperger Who Are Interested in Reclamation Work Over the State—Land Settlement Need Stressed.

Irrigation, the Talent Irrigation district and the problems facing the districts throughout the state were the interesting subjects at the Kiwanis Club luncheon today when Olin Arnsperger, secretary and manager of the district, and A. C. Joy, one of the most successful farmers in the district, spoke. Homer Billings was in charge of the program.

Despite the fact that some of the districts have apparently proved absolute financial failures, they still have an intrinsic value to the state, Mr. Arnsperger stated. It is therefore no unreasonable or impractical for the state to consider the possible refunding of these irrigation districts as many held should, he contended.

Land settlement is necessary to the development of the state and this cannot be accomplished until the problems of the irrigation units are settled. The governor, state treasurer and secretary of state, form an irrigation commission, which is now studying the question and they have apparently accomplished considerable toward bringing the bond holders and land owners together so that a settlement can be accomplished. Some of the districts will not be able to refund 100 per cent, as the value is not in the land; but some form of settlement should be made, as the state chamber of commerce is unable now to recommend settlers on some of the projects due to the financial mud-dle.

He emphasized the development which irrigation has brought to California, Washington and Idaho, which states have forced ahead of Oregon in colonization. Only about 10 per cent of the land in Oregon can be efficiently cultivated without irrigation, which emphasizes the importance of this question.

A. C. Joy said that, when he returned to the Rogue River valley, he realized the contrast between this and other districts. While he had considered an marketing a serious handicap, the said eastern Oregon had a more difficult market problem than we have in this valley.

MRS. DODGE WAS STRONG CONTESTANT

Local Woman is Defeated After Hard-Fought Political Battle—Southern Oregon Delegations, Solidly Behind Mrs. Dodge Were Depleted by Epidemic.

Mrs. Louis Dodge of this city was defeated by Mrs. W. W. Gabriel of Portland by only 17 votes as president of the State Parent-Teacher Association Thursday afternoon, in a hot contest which marked the closing sessions of the state convention held in La Grande this week.

One hundred and ninety-two votes were cast, 85 for Mrs. Dodge and 107 for the Portland, who was re-elected, having been the incumbent in office for the last year.

Southern Oregon delegates, headed by Ashland women, who made the trip to La Grande in a large passenger bus chartered for the trip put up a determined fight battling against odds all the time, in an effort to have Mrs. Dodge elected to the presidency. With the exception of one year, the state presidency has never been outside of Portland, and this precedent was one of the stone wall oppositions which the local women met.

Other officers elected were: First vice president, Mrs. R. M. Schanep, Pendleton; second vice president, Mrs. C. W. Stanley, Klamath Falls; third vice president, Mrs. Richard Williams, Roseburg; fourth vice-president, Mrs. Lenore Mooney, Portland; fifth vice president, Mrs. J. B. Smith, Nyssa; sixth vice president, Mrs. Lamoine Clark, Salem; recording secretary, Miss Jesse McGregor, Portland; treasurer, Mrs. H. M. Shaw, Milwaukie.
