KIWANIS
HEAR ABOUT
RED CROSS

Mrs. Roberts of Medford Office of the County Red Cross...
Mrs. Sam McNeil, Local Leader on Splendid Service Which is Being Done Here.

The American Red Cross and its work, particularly in Jackson county, was the subject of an interesting talk before the Kiwanis club today at noon by Mrs. Roberts, of the Medford office of the Jackson County Red Cross organization.

She emphasized that it was no longer the policy of the county to merely get rid of transients, dependents and criticized some nearby counties who have practiced this, dumping dependents into Oregon without investigation or reason.

Instead of this treatment, the cases are investigated by Jackson county and the Red Cross and handled properly. This is one of the greatest problems confronting the Red Cross today, she stated.

Mrs. Roberts complimented Mrs. Sam McNeil, who handles the Red Cross cases and work in this city, for the splendid service she has given and also the Kiwanis club, which has agreed to sponsor the annual Red Cross Roll Call. She spoke of all of the phases of the Red Cross work.

The club was fortunate in the splendid musical program today. Franz Auer, Mrs. Mitchell and Sumner Parker gave several selections which were greatly enjoyed. Mrs. Mitchell also gave two piano solos and Mr. Auer several cello/violin solos.

Next Week's Kiwanis meeting will be Farmers' Day and every Kiwanian will have as his guest a farmer from this section. W. P. Walter's name was drawn to contribute to the child welfare fund.

CONSPIRACY RETRIAL SET JANUARY 12

Strong Criticism of Jury System Follows Jury Tampering Charge

WASHINGTON, Nov. 4. (AP)—Expressing regret that an even earlier date could not be fixed Justice Suddens set Monday, January 12, as the date starting the re-trial of the Fall-Sinclair conspiracy case.

While the government dug deeper into its charges that Harry F. Sinclair tried to fix the jury in the Teapot Dome case, strong criticism of the jury system began to develop with such force that a general movement to overhaul it may soon be seen.

Legislation is almost certain to be sought in congress to correct some of the handicaps which the government labored under in the late trial.

"I never have seen such a flagrant case as this purports to be," said Caleb H. Baumes, chairman of the New York State Crime commission and author of the famous Raumes law. In an interview with the United Press, Chief Justice Taft of the United States supreme court, addressing the national crime commission conference here, declared the jury system must be reformed. He urged fewer technicalities and more common sense.

LOS ANGELES, Nov. 4. (AP)—Dick Donald, boxing promoter, Joe Dundee, welterweight champion of the world and Max Waxman, manager of Dundee, will be arrested today upon demand of the Los Angeles Better Business Bureau, the city prosecutor's office announced today. Complaint against Donalds was sought on ground that the championship fight between Ace Hudkins and Dundee was not carried out as advertised and because he violated ticket contracts with 20,000 fans.

Dundee and his manager are included in the investigation because the champion failed to appear at the arena last night. The Joe Dundee-Ace Hudkins fight was officially called off at 11:30 last night, as Dundee did not receive his guarantee and refused to appear.

Was Medford Man Dick was a former Medford resident, and is still well known here, although he left 10 years ago for California to realize his ambition of getting into the big fight money.

Donald promoted a battle between Joe Dundee, champion, and Ace Hudkins, challenger, for the welterweight championship of the world in Los Angeles. The match was to have been last night. But Dundee failed to appear in the ring. It was said Donald, disappointed in his plans for a \$150,000 house, was unable to pay the champion his \$50,000 guarantee.

MOVIE PLAN HAS SUPPORT

Chamber Directors Pass on Merits of Proposed Movie Colony

"We have investigated the local citizens who have become interested in the establishment of a motion picture company in this community and are convinced that they are responsible and will honestly and truthfully represent it in all literature, letters, press notices and solicitations. That the motion picture company will widely advertise the community and if successful add to the material prosperity of this district is our belief."

The foregoing is the report of directors of the Chamber of Commerce who last evening considered the report of the new industries committee which conducted a thorough investigation of the proposed project.

That Carl A. Theobald "has a good recommendation as to his integrity and ability, having had considerable experience in different branches of the moving picture industry," was the report of this committee.

Success of the enterprise depends largely upon the ability and energy of those in charge of the management of its affairs, and those investigating should realize this and that they will assume a business risk, the merits of which they should be satisfied with when making the investment. In the belief of the new industries committee.

Members of the club have already received many suggestions from local people who are enthusiastic regarding the project. The first picture which will be made will be a very short time.
