The present cold snap with snow in the mountains has compelled cattlemen and ranchers to bring their stock in earlier than usual this year. All this week the outlying roads are filled with droves of cattle coming in from the ranges to the winter quarters in the valley. Practically every farmer near Ashland has had some cattle out on the ranges in the government reserves through the summer, and as the most of this land lies high in the mountains where snow and cold weather prevails during the winter months, this stock has to be brought down to lower range, where it is fed and looked after until grass time in the spring.

UNIVERSITY OF OREGON, Eugene—"Home to Win Again, Oregon" is the slogan which will be used in reminding all alumni and former students of the University of Oregon of Homecoming week-end, November 15th, and which is intended to carry with it the old fight which has sent Oregon's teams to victory so repeatedly. The slogan was chosen after a lively contest in which University students and alumni took part. The author chooses to remain unknown and the \$6.00 prize offered has been given to the women's building fund of the University.

Alumni and former students are already beginning to take a keen interest in the event and are writing to their old friends to tell what time they will arrive on the big day. The alumni are organizing too, so that not one member of their association will be uninformed of the pleasures to await those who return to the campus for the week-end.

The festivities will center around the game with Oregon Agricultural College on Saturday, November 15, which will be the first game played on Oregon's new turf field. The grandstand and bleacher will seat 6,500 and envelopes in which to return remittances for reservations for seats at the game are now being sent to all Oregon alumni.

Stickers will be sold on the campus in all organizations. They are in the college colors, lemon yellow and green, in the shape of a small pennant on which will be placed the dates of the week-end, Homecoming, and the names of the contesting colleges in the football game.

Committees of student council are making all arrangements for the week-end, including not only advertising, but the rally, parade and the stunts of Friday evening, campus luncheon Saturday and the big dance Saturday evening in the armory.

The guests will be greeted at the trains by a reception committee and registration booths will be placed in both of the railroad stations. A committee of students will also take the guests about the campus Saturday morning.

A small paper of probably four pages will be used in advertising the week-end. The paper is being written and edited by the seven members of the editing class with DeWitt Gilbert of Astoria as editor-in-chief.

Dame Rumor has been extremely busy during the present week spreading a report to the effect that the co-operative buying association, formed at a meeting last week, had arranged to purchase the stock, good will and business of the White House Grocery, and that the transfer was to be made today.

Wherever this report may have started, it is entirely without foundation of fact—it is fiction pure and simple—as such a deal has not even been considered, according to the proprietors of the establishment supposed to be sold.

The report has been spread over the entire city and even to Medford, and has caused considerable annoyance to the owners of the business in question, therefore The Tidings has been asked to officially deny that the co-operative association or any other concern or person has purchased the White House, or that any transfer of the business is contemplated.

WASHINGTON—A bill providing for a bonus of six months' pay for the widows and dependents of men killed in the war has been favorably voted upon by the house military affairs committee.
