AMERICANIZATION OF FOREIGNERS.

We have lost Theodore Roosevelt, the greatest thinker and the greatest American of his time. We retain, however, his memory, his ideals and his love of country.

We have permitted the immigration of millions of men and women from the less literate countries; Southern Russia, the Balkan States, Austria and Southern Italy; we have opened to them the opportunities of our own people.

Consider the editor. He weareth purple and fine linen. His abode is amongst the mansions of the rich. His wife hath her limousine and her first-born sporteth a racing car that can hit her up in 40 flat.

Behold, the young one groweth up and gradueth. And the editor putteth into his paper a swell notice. Yes, a peach of a notice. He telleth of the wisdom of the young woman and of her exceeding comeliness.

Behold, she returneth and the youth of the city fall down and worship. She picketh one and lo, she picketh a lemon. But the editor calleth him one of our most promising young men and getteth away with it.

into one basement room of the state-house.

By the legislative understanding through which this momentous consolidation was triumphantly brought about, one executive was to perform the work for both bureaus.

Last legislature, the consolidation was reviewed and the previous understanding was continued in force—that with the smaller appropriations the two bureaus could be operated with one executive by each bureau paying a part of the salary.

The last legislature also did something else—it re-created the child welfare commission—yet another body—and gave it an appropriation which included a specification that it should employ a secretary at not less than \$2,000 a year.

Briefly, Mrs. Trumbull has filled three jobs—one of them without pay, thus saving \$2,000; two others with part pay from each; her total compensation being the trifling sum of \$1,800.

WORLD FINDING OUT THE VALUE OF OREGON FRUIT ROSEBURG—Oregon products are finding their way into the favor of large manufacturing concerns and are beginning to be sold as Oregon goods and not under the California label.

ON THE AERIAL MAP. ROSEBURG—S. C. Bantrum has made out application papers which will be forwarded to the war department of the U. S. government designating the local aviation field on the Hannan tract as a field for the first class, and therefore qualified to be listed as such on the map of aerial routes which the government is now drawing up.

COLLEGE IN BIG CONTEST The Agricultural college poultry department shipped two pens of pullets to be entered in the International Egg Laying contest which started at Storrs, Conn., November 1 and will continue for a year.

SPLIT ONE JOB IN THREE After years of agitation for the consolidation of state commissions and bureaus, the legislature labored and brought forth a mouse.

Both bureaus, before the consolidation, had appropriations aggregating over \$10,000. By consolidation of their executive and working forces, the appropriations were reduced about \$2,000.

The largest shipment of Scotch marine boilers ever made from a Pacific coast city to the Orient will leave Portland this week when the Grace Dollar, a 10,000 ton British ship, calls for 13 boilers built by the Willamette Iron and Steel Works for the Emergency Fleet Corporation.

Monmouth votes \$60,000 for water supply from Teal creek, ten miles away in the foothills of the coast range.

(By Barbara Crayton.) Dancing seems destined to play a conspicuous part in our every-day affairs.

Upon the basis of rhythm and coordination of mind and body are constructed all the arts. Plato says that the whole life of man is governed by rhythm.

An interesting experiment is being carried on near New York to interest large numbers of young girls, including many of those engaged in hard work in the classic dances.

Mrs. Towne has planned the movement along practical lines. "I am trying to give these girls an equal opportunity with their more fortunate sisters," she explained the other day.

"I chanced to pass a fashionable dancing school one stormy winter's day when a beautifully appointed limousine with liveried chauffeur and footman drove up.

"Further down the street I chanced upon a group of working girls gazing rapturously in a window at some dancing frocks.

"There is a very general misapprehension as to dancing. It has been happily described by Jacques Indecore as rhythmic gymnastics. It is not merely a refinement of dancing such as we see in society, a principle affecting every part of life.

"The question is always before educators and physicians, 'What is the best kind of exercise to recommend to the great unexercised class?'

"I want to emphasize a most important element of exercise, namely, the slow movements which develop balance and lead to absolutely still positions, which are to be held for from 5 to 15 minutes with the body in relaxed conditions.

The circle is completed when the mind and body are brought into a complete co-ordination so that they work together, the muscles giving instantaneous obedience to the brain.

tack. It was his men who did the bulk of the terrific fighting that drove the Huns out of Audendarde. And Major Lester W. Humphreys was right at the front with the doughboys.

While the division was being de-loused in the La Mans area, the major received permission to attend the law school at the Sorbonne. He took the course offered, all the lectures being in French.

Major Humphreys was a visitor at his parents' home in Ashland last summer, shortly after returning from France.
