

The Social Realm

Congregational Meeting

The annual congregational meeting of the Presbyterian church of this city will take place in the local church parlors tomorrow, at which all the members of the church, and congregation are expected to be present. These dinners have become an noted, that, like the traditional Sunday school picnic, all who can claim to be Presbyterians at this time are glad to do so. An invitation is especially extended to all newcomers who are affiliated with this denomination, and who wish to become acquainted with the regular congregation, the members of which are glad to bring well-filled baskets so that all will have plenty to eat. This annual dinner is simply a social affair and is strictly confined to the members of the congregation. The various reports of the church for the year will be given at this time and all business coming up at this time will be transacted at the congregational meeting following the dinner.

NOTICE TO EXTERMINATE GROUND SQUIRRELS

Every person, firm, co-partnership, company or corporation residing on, owning, leasing, occupying, possessing or having charge of or dominion over any land, building, wharf or dock infested with digger ground squirrels in Jackson County, Oregon, is hereby notified to begin at once to effectively exterminate and destroy all such DIGGER GROUND SQUIRRELS.

The following poison for mixing and instructions for use thereon is the method most expeditious and effective to be used for the extermination and destruction of such ground squirrels and is hereby recommended, to-wit, alkaloid strychnine used on either barley or wheat, barley poisoned, mixed according to the following formula and manner, to-wit:

Barley, clean straw, 14 quarts.
Strychnine (powdered alkaloid) 1 ounce.
Bicarbonate of soda (baking soda) 1 ounce.
Thin starch paste 3/4 pint.
Heavy corn syrup 1/2 pint.
Glycerine 1 tablespoon.
Sacharine 1-2.

This material should be mixed as follows: Mix thoroughly 1

ounce of powdered strychnine (alkaloid) and 1 ounce of common baking soda. Sift this into 1/4 pint of hot water and stir to a smooth creamy mass. (The strychnine is made by dissolving 1 heaping tablespoonful of dry glass starch in a little cold water, which is then added to 1 pint of boiling water. Boil and stir constantly until a clear thin paste is formed.) Add 1/4 pint heavy corn syrup and 1 tablespoonful of glycerine and stir thoroughly. Add 1-2 ounces of sacharine and stir thoroughly. Pour this mixture over 14 quarts of clean barley and mix well so that each grain is coated.

One quart of the poisoned straw mixed as aforesaid is sufficient for 40 or 50 baits and this quantity scattered along scattered trails or on clean hard places on the surface about the holes will not endanger stock. Strychnine in any form other than the powdered strychnine (alkaloid) is not effective in the above formula.

From the date hereof until May 1st is the most effective time to poison and destroy the digger squirrels, as they are just emerging from their hibernation. They are hungry and food is scarce.

The County Court of Jackson County, Oregon, has secured a large amount of strychnine and the other ingredients necessary for the mixture, and a quantity thereof has been mixed and is now on sale to the farmers or persons interested at actual cost and may be had by sending to the undersigned at his office in the Liberty building or at the following places:

Ashland Fruit and Produce association, Talent Mercantile Co., Phoenix Mercantile Co., Rogue River Fruit & Produce association, Medford, Pick Store, Jacksonville, Pettit Store, Appleton, Paxson Drug Store, Contry Point, Brown Bros., Earle Point, Kiefer & Son, Brownboro, Table Rock Store, Table Rock, Downers Drug Store, Gold Hill, Don Wilson's, Rogue River, C. E. Thompson, Lake Creek, C. E. Whitte, Sams Valley.

If any person herein designated shall within thirty days from the first publication of this notice, fail to begin in good faith to exterminate, eradicate and destroy, according to the method aforesaid, or by any other effective means said ground squirrels herein designated, the County Court of Jackson County, Oregon, will appoint a person or persons to proceed with the extermination and eradication of such ground squirrels, and the cost thereof incurred will be assessed to such land, building, wharf or dock, and unless paid will become a lien against the same, for the extermination of said ground squirrels.

This notice is published pursuant to the statute in such case made and provided, and for two consecutive weeks or three times, and all persons described therein are required to take notice thereof.

Dated and first published this 31st day of March 1920.

Stops Medicine--

Health Recovered

by Internal Baths

Mr. A. Carneel, 657 Montemery St., San Francisco, Cal., writes: "Tyrrell's Hygienic Institute of New York City has cured me."

"I must admit that the use of the 'J. B. L. Cascade' has cured chronic constipation from which I suffered. Since May 12, 1913, I have never even tasted any kind of patent medicine or purgative. My health is excellent in every respect."

Over half a million bright, keen, intelligent Americans have found that Internal Bathing is more essential than external baths.

Have found that used occasionally at night they feel like different people the next morning. No more of that hollow, tired, nervous feeling, but having by nature's own cleanser—antiseptic warm water—removed all the poisonous waste from the lower intestine, they awake thoroughly refreshed by normal sleep, with all their functions acting properly, clear headed, happy and confident, eager and capable for the duties of the day.

Why not learn more about this rapidly growing and natural practice? The 'J. B. L. Cascade' is the invention of Chas. A. Tyrrell, M. D., of New York, a specialist on internal baths for 25 years, and is now being shown and explained by Pole's Drug Store in Ashland, who will give you—free on request—an interesting booklet on the subject called "Why Man of Today is Only 50 per cent Efficient."
