POLITICAL PROPAGANDISTS

Just lately we are exceedingly impressed with the interest all political parties, and all candidates of political parties, and candidates for nomination by political parties, are evincing in the newspapers.

Nor do we expect to use any of it. Our past observations are against the expediency of it. This applies to politicians and parties of every kind and kind.

Thousands upon thousands of dollars are expended in every political campaign. The men who send out the free press notices to the publishers draw fat salaries for doing so.

This has been our experience. Politicians will use the newspapers just as long as they are useful and always when they can be used for nothing.

Just at present all the candidates are in the attitude of bowing and scraping to newspaper publishers wherever situated.

SPRING FEVER

Following Colds, Grip or Flu, Thin, Watery or Poisoned Blood

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try this refreshing tonic.

Local fishermen are getting their tackle ready today and looking forward longingly for the morrow when waters in the fishing season.

UNDESIRABLE CITIZENS

If all the men of Ashland were as active in constructive community movement as some of them are in obstructive movement in five years "old timers" would need to hire a guide to conduct them through the old town, it would have grown and changed so.

There are two kinds of obstructionists. The first is a man who has never had any part in large undertakings and quakes at the thought of development that costs a large sum of money.

The second is a buser kind and needs no sympathy or tolerance. What he does he does because he is short visioned not only but stingy.
