

LOCAL AND PERSONAL

TUESDAY'S NEWS

Rev. Hoyt, Rev. Koehler and J. M. Ross leave today to attend the spring meeting of the Southern Oregon Presbytery which convenes at Grants Pass this evening.

W. H. McNair has received an appointment from Governor Olcott to serve as a member of the state board of pharmacy. This appointment will be made to succeed J. Lee Brown of Marshfield, whose term expires May 20.

Gospel services started last evening in the Talent Christian church under direction of Rev. W. E. Bean of the local church. "The Gospel in Art" will be given in connection with these meetings, which start out under most auspicious circumstances.

Fifteen prize fowls were stolen from the farm of C. B. Butler two miles east of Ashland. The theft was evidently made this morning, as tracks were seen leading from the chicken house in the light snow that fell in the night. The chickens were marked and can be easily traced.

Mrs. R. R. Greer and sister, Mrs. Viola Hall, went to Medford today and were guests of Mrs. S. S. Smith.

Five more individuals who didn't want to wait to have solicitors call upon them, dropped in at the Commercial Club yesterday and signed up one day in advance of the drive. That is the spirit. Secretary Mowat says he has lots of application cards left even although the teams have taken out several hundred.

Mr. and Mrs. C. F. Bates have returned home from wintering in California the most of which time was spent with their two sons who live in that state. From indications they certainly fared well while in the south, as C. F. presents a robust appearance unusual to him. Rest from business worries have evidently greatly agreed with him, and he claims to be feeling fine.

W. R. C. Meeting

The regular meeting of the Women's Relief Corps, held Saturday afternoon was a particularly fine affair. An invitation was extended to Medford Post and Corps and about 40 members came up. Five new members were initiated, and were Mrs. Pauline Tinker, Miss Dorothy Tinker, Mrs. Ella Rudd, Mrs. A. W. Herbert and Mrs. Luella Applegate. Two more, Mrs. Freta Peters and Jennie Bevier, came in by transfer of membership. A splendid chicken dinner was served, at which upwards of 175 sat down to the tables. Rev. C. A. Edwards gave an address on Lincoln and musical numbers were features.

MAKING PLANS FOR PERMANENT CAMP MEETING

Dr. S. A. Dunford who is superintendent of Methodist churches in Southern Oregon, has been looking over the field with a view to establishing a permanent annual camp meeting such as they have in most of the states in the east and middle west. Dr. Dunford has promoted camp meetings in Ohio, Michigan, Nebraska, Kansas and N. Dakota that are permanent and profitable features in the summer season in the regions where located. The North Dakota camp meeting now in its sixteenth year, has from fifteen hundred to two thousand campers for two weeks every summer. In connection with the camp they conduct a young people's Bible conference and have some of the leading speakers of the country. One of the bishops is usually in attendance and the pastors and their families make it their annual outing.

Ashland has one of the finest camp grounds in America and an auditorium unsurpassed. Camp meeting associations have to go to big expense for what we have already made.

Dr. Dunford has already talked the matter over with members of the commercial club and is ready to launch it and put on a program if there is enough local interest to make a "setting" that will make it worth while. We feel sure it is a great thing and besides the religious benefits it will be of great financial and advertising benefits to Ashland and all Southern Oregon. Dr. Dunford is a camp meeting expert and will be glad to talk it over with individuals who may be interested or with the Commercial Club as a body.

Let's put Ashland on the map in every way possible and "see her grow."

FISH PACT NOT VALID ---BROWN

SALEM, Ore., April 20.—The Oregon statutes plainly provide for open and closed seasons for commercial fishing on the Rogue river and any attempt of the state fish and game commission to abrogate or suspend these laws in compliance with an agreement entered into between the Macleay Estate company, the Rogue River Fish and Game Protective association of Medford, the Ashland Fish and Game Protective association and other kindred organizations of southern Oregon would be invalid, according to a written opinion given by Attorney General Brown.

By the attorney-general's opinion, the agreement recently entered into between the sportsmen of southern Oregon and the Macleay interests, whereby it was hoped that the commercial and sportsmen's factions would be brought together and their longstanding differences settled, is held void and cannot be put into operation through any rule or order of the state fish and game commission.

FORMER RESIDENT BURIED HERE

The funeral of the late Reuben Horton, whose death occurred in Bridgeport, Neb., last week, will take place from the Methodist church, Wednesday afternoon at 2 o'clock, Rev. C. A. Edwards officiating. The body of the deceased was brought here yesterday, accompanied by two daughters, Mrs. Alta Reed and Mrs. Nettie Cummings. Mr. Horton died quite suddenly from an attack of heart failure. He had been a former resident of Ashland, and had been making his home at Hills, Calif., until last July, when he went to Nebraska. He is survived by six daughters and one son. Interment will be made in Mountain View cemetery.

BOYCOTT ON SPUDS NEXT

PORTLAND, April 20.—Should the Hotelmen's association be of the same opinion as the Portland caterers a boycott on potatoes in public eating places may be declared within the next five days. Sentiment at a meeting of the latter advocated action such as taken in Seattle and Denver. It was explained that so far as the caterers are concerned, their motives are purely patriotic, many having supplies stored to last many months. A committee has been appointed to go before the hotel men and ask their co-operation in carrying out such a protest against potato speculators.

Last Tuesday the housewives' council voted to initiate a potato boycott. At a luncheon to be held by the chairmen of committees of the Portland Women's club this noon boycott recommendations will probably be made. Mrs. Harry Shipman, chairman of program arrangements, has already expressed herself highly in favor of decisive action.

ASHLAND HIGH HAS GOOD SPELLERS

Thomas H. Briggs of Teachers' College, New York City, has been engaged in establishing a standardized spelling test for high school pupils corresponding to the Arey test for grade pupils. About 10,000 high school pupils in all parts of the United States were examined. Among the different schools taking the test, was Ashland high school. Recently Mr. Briggs made a report upon the score established as a standard for pupils in each of the four years work in the high school; also, the standing of each school participating was reported. The standard scores as given by Mr. Briggs are as follows: Low 9, 73 per cent correct; low 10, 79 per cent; low 11, 83 per cent; low 12, 86 per cent. The attainment of the Ashland high school pupils is as follows: Low 9, 76 per cent; low 10, 77 per cent; low 11, 87 per cent; low 12, 88 per cent.

Signal to Be Sent To Mars April 23

OMAHA.—A. Leo Stevens, balloon expert at Fort Omaha, has announced that the effort of Professor David Todd of Amherst college to signal Mars from Stevens' balloon will be made April 23.

Professor Todd, in a telegram received by Lieutenant-Colonel Jacob Wuest, commander of Fort Omaha today, suggested next week for the proposed flight because the planet Mars will then be nearest the earth. Professor Todd made brief reference to the apparatus which he will use to ascertain whether sound waves or other disturbances are coming from the planet and if they are electrical or otherwise. The tests, Professor Todd stated, will be made with a Corona record, upon which he has been working for several years. It is a device carrying records which are sensitive to all atmospheric waves and will hold the impressions made in such form that they may be studied when the balloon has returned to earth.

To ascertain the chemical composition of the air at each altitude small vacuum containers will be carried. These will be opened at various altitudes and the air collected. It will be subjected to an analysis after the balloon returns to earth.

Dust particles in the atmosphere will be investigated by means of apparatus furnished by Professor R. W. Wood of Johns Hopkins university. Meteorological tests will be made by means of a special wind testing apparatus which is an innovation as no device has formerly been invented which will tell the velocity of air currents from a free balloon. Moisture pressure and temperature gauges will also be used. It is hoped by so studying the upper air strata to get new facts bearing on the origin of hot and cold waves, typhoons, cyclones and tornadoes. Pilot Stevens expects to reach a height of 50,000 feet.

THE RICHEST MAN

There is a man living in Nebraska who claims to be the richest man in the world. He knows about Rockefeller, too, but says the great oil magnate only has money, while this brawny blacksmith, for that is his trade, has a stomach that all Rockefeller's millions can't buy. But it is not his stomach which constitutes his wealth. It is only an element, an important one to be sure, of the good health which enables him to enjoy life and possess the incalculable riches of happiness. He has a wife and children who delight in his society and in whose society he delights, and there are no riches of this world greater than that. He has what he calls a cozy home and a cozy chair in which he smokes his pipe and reads, or "families" with the others in the evenings, and a bed which he seeks early and in which he slumbers the whole night through. He has also the capacities to enjoy the beauties of nature, an old shotgun that is still able to get a cotton tail or bring down a teal or a mallard, and an old dog faithful to him for a dozen years. All the use he can see for dollars is that he requires a few to assure the protection of these riches which constitute his great store.

And there is another element of his wealth of which he speaks, and that is his joy in his work and his satisfaction that he gives full value for every dollar that is paid him for it. Many a worker who has a wealth of perfect health and even the riches of a loving family does not possess this wealth of joy in service. Lack of this joy is the foundation of much of our industrial discontent. We work too much of the spirit of getting by, of doing the least we can for the most money. In all transactions in which we exchange goods or labor for money we think too much of what we are getting out of it, too little of what we are giving of value to the other party in exchange. We take too little pride in giving value received for what we get.

Perhaps in our complex industrial life that is not as possible as it was in more simple social times, such conditions as seem still to exist in some sections like that where the Nebraska blacksmith has his happy home, where the personality of the one who does the work counts for more than it does in the extremely impersonal relations of employer and employed in large industries. But, whatever the cause, there is no real joy in work that does not have in it the element of pride in the work for the work's sake, and no real joy in a dollar that does not represent actual service for its acquisition. With service goes good will, and good will makes a light heart. Wealth cannot purchase joy, peace, contentment, love and the joy of service. Who has these is rich.

TROOPS FAIL TO PENETRATE PULPIT PASS

(By United Press) AGUA PRIETA, April 20.—The Carranzistas have failed in their effort to penetrate Sonora through Pulpit Pass, according to messengers arriving here today. With concrete breastworks and machine guns clamped to the sides of the pass, it proved a death trap to the federal troops. No casualties are reported among the Sonora defenders. No information is available today on the losses of the Carranzistas, messengers stated.

The Carranzistas, in this skirmish line, felt out the defense's strength last night. A stronger effort to force through the pass is expected shortly, but officers of the Sonora army declare the narrow passage and defenses make it possible for fifty men to hold the pass against the army.

Anticipating that the Carranza government will launch their strongest attack upon Sonora, the Sinaloa rebels from the more vulnerable Durango border and the secessionists' forces are being hurried there. Detachments of Yaqui and Mayo Indians, friendly to the anti-Carranza cause have been sent south into Sinaloa to guard the wide passes in the Durango mountains.

Sonora army chiefs are counting upon the Villistas to protect the line from the approach of the southern Chihuahua-Sonora line from the approach of the Carranzistas. General Calles ordered a hundred rounds of machine gun ammunition sent to the Villistas.

ANOTHER WIFE ADDED TO LIST OF "BLUEBEARD"

(By United Press) SPOKANE, April 20.—Another supposed victim was added to the roll against "Bluebeard" Hurl here today when relatives of Mrs. Beatrice Andrewartha of Rossland, B. C., notified the police they thought she married Hurl, and later dropped out of sight. She is supposed to have married Hurl under the name of Harry M. Lewis at Tacoma February 5, 1919. She disappeared in Sacramento the following month.

TORNADO KILLS MANY

(By United Press) ABERDEEN, Miss., April 20.—A tornado swept Aberdeen and vicinity today resulting in enormous damage. Several are reported dead.

COLBY MAY BE PARTY LEADER

(By United Press) CHICAGO, April 20.—Bainbridge Colby, the new secretary of state and former progressive party leader, is being mentioned in connection with the temporary chairmanship at the democratic national convention. Scores of democratic leaders are here today attending meetings of the executive and arrangement committees. Others mentioned include Martin Glavin, Homer Cummings, Carter Glass and Arthur F. Mullen.

SHIPS IDLE AT YARDS

(By United Press) WASHINGTON, April 20.—The navy is only a "battered hulk" of what it was when the armistice was signed, Captain Pratt told the senate naval investigation committee today. He was assistant chief of the operations. "Men are leaving the service in droves, and ships are lying idle at the navy yards," he declared.

Marshfield—New veneer plant to be erected soon.

Reports from the railroad state that the embargo on perishable freight was raised this forenoon.

NOTICE TO CREDITORS

In the County Court of the State of Oregon for Jackson County. In the Matter of the Estate of Sadie J. Irwin, Deceased.

Irwin, deceased, to present them with proper vouchers within six months from date of first publication hereof, to Clara Augusta Engle at No. 169, North Main street, Ashland, Oregon. Date of first publication, April 21, 1920. CLARA AUGUSTA ENGLE, Executrix. 93-5 Wed.

Main street, Ashland, Oregon. Date of first publication, April 21, 1920. CLARA AUGUSTA ENGLE, Executrix. 93-5 Wed.

NOTICE OF SETTLEMENT

Notice is hereby given, that the undersigned has filed the final account of her administration of the estate of Humphrey E. Stone, deceased, in the county court of Jackson county, Oregon, and that the judge of said court has designated Saturday, May 29, 1920, at the hour of 11 o'clock a. m., at the courthouse in Jacksonville, said county, as the time and place for hearing objections to and the settlement of said account.

NOTICE OF HEARING ON FINAL ACCOUNT

NOTICE IS HEREBY GIVEN, that the undersigned has filed in the office of the Clerk of Court of Jackson County, Oregon, her final report as administratrix of the estate of Joseph Garland Hurl and the Hon. G. A. Gardner, judge of the said Court, has designated April 24th, 1920, at 10 o'clock a. m., at the court house in Jacksonville, said county, as the time and place for hearing any objections thereto. Any person objecting thereto must file an objection on or prior to said date.

NOTICE OF APPOINTMENT OF EXECUTOR AND TO PRESENT CLAIMS

TO WHOM IT MAY CONCERN, TAKE NOTICE: That the undersigned has been appointed in the County Court in and for the county of Jackson, State of Oregon, as the Executor of the Estate of Wm. M. Abbott, deceased. All persons having claims against said estate are required to present the same duly verified at the office of Briggs and Briggs, in the Pioneer Block, in the City of Ashland, Oregon, within six months from the date of the first publication of this notice.

NOTICE OF HEARING ON FINAL ACCOUNT

Notice is hereby given that Anna E. Grubb, the administratrix of the estate of Wayne N. Grubb, deceased, has filed in the office of the Clerk of Court of Jackson County, Oregon, her Final Account as such administratrix, and the Honorable G. A. Gardner, County Judge of Jackson County, Oregon, has designated May 8th, 1920, at 10 o'clock A. M., at the Court house

The State University Agricultural College and the State Normal

have for many years spent less money per student per year in training Oregon boys and girls than is spent at any other state institution. The present cost at the State University is \$205 a year; at the college, it is \$180. But even before the war, when money would buy twice as much as it buys now, the average cost at all other state institutions was \$325 a year. In addition,

Their Building Investment is Also Very Low

At the State University it is at present \$322 per student; at the College, \$200. But in state institutions elsewhere, statistics show the average to be \$995. These are convincing proofs of economical administration, but the three institutions can no longer give satisfactory training to the vast numbers of Oregon boys and girls (54,000 in full-time courses alone), unless they receive more support. On May 21 the Higher Educational relief measure will appear on the ballot. You are urged to preserve the quality of higher education by voting for it. Paid advertisement inserted by the College Trustees in behalf of the Joint Alumni Relief Committee for Higher Education in Oregon, 514 Pittock Building, Portland.

80 Years Old--Attributes Health to Internal Baths

Mr. D. C. Newcomb, 704 N. 4th Ave., Atchison, Kan., writes Tyrell's Hygienic Institute of New York as follows: "My next birthday is July 13th—80 years old. Have used Tyrell's 'J. B. L. Cascade' for more than 20 years. Best and only remedy that brings relief without the use of drugs. My experience proved that it always relieves. No danger from it. My ailments were principally Tric Acid, Biliousness, Constipation, etc." This is by no means an exceptional letter for Tyrell's Hygienic Institute to receive, as there are now over half a million Americans using Dr. Tyrell's "J. B. L. Cascade" with like results. By the scientific use of Nature's "cleanser"—warm water—it eliminates all poisonous waste from the lower intestine and gives Nature a chance to work unhampered. You will be astonished at the difference in your feelings the morning after an internal bath. Tyrell's "J. B. L. Cascade" will be shown and explained to you by Poley's Drug Store, Ashland, who will also give you free, on request, an interesting booklet by Dr. Chas. A. Tyrell, "Why Man is 'Too-Tidy'—Is Only 50 Per Cent Efficient." Get this booklet and know just why Internal Bathing is so effective in the promotion of better health.

In Jacksonville, Jackson County, Oregon, as the time and place for hearing thereon. Any person having an objection to such an account is required to present such objection on or before the time set for such hearing. ANNA E. GRUBB, Administratrix. 91-4

FORDSON

HITS HIGHEST PRODUCTION RECORD. HENRY FORD STARTED ON TRACTOR 15 YEARS AGO.

On February 19th at 9 a. m., Fordson Tractor Number 100,000 left the assembly line in the Fordson Plant at Dearborn, Michigan, slightly less than two and one-half years after number one was completed. And here again has Henry Ford set a new high record in the manufacture of farm tractors via the Quantity production route.

Although the Ford interests are very recent entrants in the ranks of the tractor manufacturers, yet Henry Ford really built a tractor--of the steam type before he started work on his first gas car. And incidentally, that tractor and the first car, still in very good running condition, and Mr. Ford occasionally demonstrates both to visitors at his farm in Dearborn.

Some fifteen years ago Mr. Ford began work on what has come to be the Fordson. This tractor was really a Ford Car equipped with special wheels and included of course some mechanical changes. By 1908 he had a workable tractor; it plowed, harrowed, and did much other work on the farm. Then ensued nine more years of experimental work before the first tractor was put on the market.

Fordson tractors are now being assembled at a rate of 350 daily at Dearborn, 100 at the St. Louis Assembling Plant, and it is estimated that within a short time the Des Moines Branch will be in operation. There is also an assembling plant in Cork, Ireland.
