EXPERTS DECLARE FLOOR EXCELLENT That the Armory dancing floor is among the finest in the state of Oregon, is the verdict passed upon it by dancing experts during the past few days.

For some days the boys of the

First Company have been working steadily on re-scraping and waxing the floor by hand, with the result that the floor is now as smooth and shining as any hall-room floor on the coast.

The Auxiliary Girl's Ball held tonight, will be the first social occasion since the re-finishing of the floor, and people of Ashland will have the first opportunity to make use of and pass upon the excellence of its finish.

The Armory will now be one of the most popular dancing places in southern Oregon, not only on account of the excellence of the floor, but on account of the beauty of the interior of the building itself. New wall lights have been installed, a dressing room for ladies has been fitted up, and it now remains for the people of Ashland and vicinity to re-joy with patronage the efforts of the boys of the local company in fitting up the building, so that it can be more useful.

Much credit is due Sergeants Elmore, Morrison and McNair, Privates Barber and Robertson for their tireless work in this regard.

The local company is steadily

ELECTION, MAY 21 STATE ROADS Vote 302 X Yes For 4% State Road Bond Limit BALLOT TITLE IS AS FOLLOWS: CONSTITUTIONAL AMENDMENT—Submit to the people by the Legislative Assembly LIMITATION OF FOUR PER CENT STATE INDEBTEDNESS FOR PERMANENT ROADS. Purpose: To amend Section 7 of Article XI of the Constitution of Oregon so as to permit the expenditure of bonded indebtedness for the purpose of building and maintaining permanent roads for the benefit of the people of the state. Let's get the roads built now. NO PROPERTY TAX—NO DIRECT TAX NO INCREASE IN AUTO LICENSE FEES NO INCREASE OF GASOLINE TAX Keep these three facts in mind. The present auto license fees and gasoline tax will pay both the principal and interest on all the bonds under this amendment, and will yield an annual surplus besides for other state highway work. No additional taxation of any kind. FEDERAL FUNDS MUST BE MATCHED Oregon must have sufficient Highway Funds to match Federal apportionments or Oregon cannot get the benefit of Federal money for Oregon Roads. Increasing this constitutional limit is a necessity. Unless limit is increased, either state bonds cannot be completed for many, many years, or must be financed by direct property taxation. This measure works direct property tax for state highways and makes early completion possible. Income from Present Sources Sufficient to Pay Principal and Interest. The fact that revenues from auto license and gasoline tax, without increase of present rates, will be ample to pay both principal and interest on these bonds, as shown by official figures in the state pamphlet, makes every reasonable voter. Refer to state pamphlet for verification. Examine the table carefully. It proves that no property tax is required and that present rates for auto license fees and gas tax will reduce principal and interest on only 1/3 of the bonds. For Information, Pamphlets of further details, write to: OREGON ROADS AND DEVELOPMENT ASSOCIATION W. L. THORNTON, President, 245 1/2 Ave. N., Portland C. C. FORDSON FARMING "To make farming what it ought to be—the most pleasant and profitable profession in the world." That is Henry Ford's vision of the Fordson Tractor and what it means to the farmer. The farmers of America have done wonderful work. They have labored hard and patiently and their efforts have made prosperity commonplace for the nation. The limitless forces of gasoline, kerosene and electricity are now ready to loose the bonds of long hours in the field, uncertain crops and shortage of labor. The farmer's wife can now enjoy more of the beauties of life. The tractor will make it hard to keep the boys and girls away from the farm. Conveniences now commonplace in the cities are brought to the farm and farm house by the tractor. Harrison Bros.—Fordson Tractor Dealers Ashland, Oregon
