When the Fire Whistle Blows

Then you would think about Fire Insurance. Then it would be that you would promise once again to attend to your insurance tomorrow. WHEN YOUR NEIGHBOR BURNS OUT—then you would promise yourself again to attend to your insurance tomorrow. When YOUR property burns up, then your creditors and friends will sympathize with your family, but it is doubtful if they will rebuild for you.

Had you been true to "thine own self" and kept your promise, the insurance company would rebuild your home, and replace your household goods and clothing, or furnish you with money with which to do so.

When you saw the WRECK OF A BURNED AUTOMOBILE, you promised to insure your car. Have you done so?

It costs \$4.00 to insure for a thousand dollars on house and contents for one year. I'd tell a man that \$4.00 against a thousand dollars is a good bet.

FIRE MAKES NO PROTECTIVE ANNOUNCEMENT OF ITS VISIT.

It comes unannounced, uninvited and attended only with vengeance for the procrastinator.

NEW YORK, Aug. 30.—America's army of public school teachers will return to the classrooms next month a richer and a wiser lot. For they have been making hay while the sun shone this summer—many of them literally, others figuratively.

When high price waves hit the ranks of the pedagogues last year, thousands of them were forced to seek employment in other branches of endeavor, while hundreds of others obtained part time work to aid in keeping the wolf from the door until the session of school was ended. Still others resolved to draw on their already salted-away resources and to stick it out until the summer vacation arrived, then to spend the hot months in working to put the money back.

School superintendents, boards of education and teachers' societies were asked in several cities how the teachers were spending
