PEOPLES FORUM

Should Co-operate with Teachers

Editor Tidings: Just at the beginning of school let us mothers stop for a few moments and do some hard thinking.

And that is about all the attention the average mother gives to the average child and teacher.

Let us welcome them cordially and see if it doesn't help our children in many ways.

Let us make Ashland a unique town in that the parents and teachers and children all work together.

THAT NOISE NEXT DOOR

If you hear terrible screeching and blarings and squeakings and wallings as if of devils in torment coming from the house next door or across the street, says a superintendent of schools of a distant city, don't report them to the police.

One of the reasons that American music did not advance much for many years is that American children did not learn to play orchestra or band instruments.
