Grace and Beauty
Aids to Grace and Beauty
If you are one of those people who depend upon clothes for beauty—be careful in choosing your clothes.

I suppose you consider this needless advice, but often when we think we are careful we are the most careless.

Don't pick a hat for yourself that you saw on Letty or a dress that you admired on Cecelia. How do you know that you will look well in the same clothes that your friends wear?

I was in a street car recently with a girl friend. Across the aisle sat a very pretty little girl in a black tulle dress and a tight fitting straw turban. The turban was the most becoming hat I had ever seen—for her type, also the dress, but can you imagine my astonishment when I met my friend on the street a few days later with almost exactly the same dress and hat on? She looked like a sack of meal tied in the middle with a peanut on her head, for be it known, my friend is fat and thirty while the little lady from whom she copied her outfit from was thin and twenty.

If, like my friend, you are inclined to be stout do not wear dresses that give you short-waisted appearance. Don't wear little tight fitting turbans either. Long waisted dresses, in dark colors with medium sized hats are the best and for heaven's sake don't wear short knitted sweaters of brilliant hue. Try and stick to the one color scheme and you will find the results more favorable.

Clothes will do more for you than any cosmetics but like rouge and powder, they must be properly applied. Study yourself in the glass. If you are a little, short person don't wear an over exaggerated coiffure that will make you appear top heavy. A low knot in the back of the head will be far more effective and make you appear years younger.

If you have a high forehead you can comb your hair gracefully over, so that you will not appear scalped and if your forehead is

Don't Be Personal
Stop and think for yourself, you have been to places where Mrs. P., the beautiful society woman puts in an unexpected appearance. Mrs. P. takes the floor the minute she arrives, and holds it for an hour or so long as there is anyone to listen to her she gushes on. It is "me," "this," "I," the other thing and me, myself and I, again. All are bored but Mrs. P.—has a lot of money and can do pretty nearly what she pleases. To be invited to her set is considered quite an honor, so she is endured, long after every one has forgotten that she ever possessed such a thing as beauty.

Her tongue and egotism blinded them to any physical charm. Don't be an "I" bound! Incidentally don't be one of those people who ridicules everything. The person who ridicules everything is on the toboggan slide and he will end up by becoming an out and out grouch. You and I know men and women who never have a pleasant word to say for anyone, or a serious commendation of anything. Ridicule and sarcasm are often coated with would-be humor, and are sometimes decked out as puns. By and by, however, this bias toward ridicule and sarcasm gets to be a habit, and the coat of humor becomes threadbare.

Don't juggle with ridicule and sarcasm for people look beneath the veneer nowadays.

FRIDAY'S NEWS
Sunday Schools Picnic

Two entertaining Sunday school picnics were held in the park yesterday. The first was that of the Presbyterian Sunday school, which met in the forenoon and served dinner to a large company at 12 noon. The other was the school from the Christian church which met in the evening. Both events were of much pleasure to the young people of the respective Sunday schools.

GRIDLEY, Calif.—Two carob trees, on the ranch of J. A. Youcum, Jr., near here, are the same as those spoken of in the Bible as the "breadfruit tree," according to a report received by Youcum from the United States department of agriculture. The department's report, sent in answer to a query from Youcum, said that although there were several carob trees in this country, none were of the same variety as those found on the Youcum ranch. The fruit of the tree, it said, was really a "bean."

WASHINGTON, Sept. 7.—The United States has sent a note vigorously protesting to the new Mexican government against a continuance of the Carranza program against American oil properties in Mexico, it is learned today.

The government's communication is understood to leave the inference that American recognition of the new Mexican government will be impossible if the confiscatory policy of Carranza toward American oil interests is continued.

NEW YORK, Sept. 7.—Labor Day was no holiday for presidential and vice-presidential candidates. Most of them will have several hours' overtime pay coming.

ing to them, if they collect according to union scale.

Governor James M. Cox, democratic nominee, was on the program for an address at the Minnesota State Fair grounds, Minneapolis.

Senator Harding spoke from his front porch at Marion, Ohio, to an audience of his neighbors and visiting delegations.

Eugene V. Debs, candidate for president for the fifth time on the socialists' ticket, made a Labor Day statement from his cell in the Atlanta federal penitentiary. Franklin D. Roosevelt, democratic candidate for vice-president, spoke at a Labor Day celebration in Prospect Park, Brooklyn.

Open Garage Door, Sitting in Auto

PORTLAND, Sept. 7.—In the old days when horse-drawn vehicles were commonplace the best-kept farms were equipped with automatic gates so that drivers could open them by pulling a rope. Now the same principal has been applied to garages with the result that a Portland man has invented an automatic door opener and the Universal Garage Door Opener company has been formed to put it on the market. By means of the invention a man may open the door through applying pressure to an electric plug, while still seated in his machine.

WITH THE DRUIDS

LING'S LYNN.—(By Main.)—Despite England's smallness and Labor's efforts, there are some spots so remote that inhabitants have never heard of a minimum wage.

Barton Bendish, Norfolk, claims to be the loneliest place on the face of the earth and when a farmer from this back of beyond was charged with infringing the agricultural minimum wages order A. G. Hawker, who defended him said:

"Barton Bendish is one of those places you can only get to by aeroplane. Newspapers never penetrate to this place. I believe there is a person, but the people live like Druids. It is rather hard on people who disobey an order made at Westminster which has never been distributed. 'Nobody at Barton Bendish knew there was such a thing as a minimum wage.'"
