The Company will suffer a temporary loss while using up the material bought at high prices. They are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible, and maintain the momentum of the buying power of the country. Henry Ford says the war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of value. For the best interests of all, it is time a real, practical effort was made to bring the business of the country and the life of the country down to regular pre-war standard.
