dollar essay prize on milk composition. These essays were written for the winter fair but the prizes were rather late in being awarded on account of number and length of essays.

Miss Hackler wrote on the general use and composition of milk.

TAXI DRIVER CHARGED WITH MANSLAUGHTER

C. F. DEWITT, AN ASHLAND TAXI-DRIVER, ARRESTED ON WARRANT ISSUED FROM OFFICE OF SHERIFF IN CONNECTION WITH THE DEATH OF MRS. NONA JENNINGS, CHRISTMAS EVE.

Contrary to the expectations of all Ashland people who believed that the local taxi-driver, C. F. DeWitt, was the victim of an unfortunate circumstance and an almost unavoidable accident on the evening of December 24th, in which Mrs. Nona Jennings of Medford lost her life, a warrant was issued Tuesday from the office of the sheriff of Jackson county for the arrest of Mr. DeWitt on the charge of manslaughter.

Mr. DeWitt will be given a preliminary hearing before Justice of the Peace D. W. Hagshaw of Jacksonville, and if the justice court fails to substantiate the findings of the coroner's court, he again will be given an untainted freedom of the accidental death. If not, he will be bound over to the grand jury.

While the evidence of the eight witnesses last Monday, taken as facts, and court records are sworn facts, the evidence is decidedly against Mr. DeWitt, but in spite of the fact that no one has yet appeared to substantiate his evidence which was offered at the first trial with the others, Ashland people as a whole, believe him innocent of carelessness or lack of due caution. Residents here have always found Mr. DeWitt an exceptionally good driver and a cool head in times of near-accidents on the part of recklessness of others and firmly believe he is the unfortunate victim of possible erroneous evidence.

According to DeWitt's evidence it is possible to see how he might have been easily blinded by the lights of the Ford car which was sitting about thirty paces in front of the Hudson which was struck. According to other testimony, Mr. DeWitt was seeking to pass to the right of the Hudson when he did see it, and in doing so struck the front line which the Hudson had attached to the Nash car which was in the ditch.

Mrs. Evans, who was standing with Mrs. Jennings just before the latter was struck, jumped to the left side of the Hudson, which was on the pavement side. One point which was overlooked by all, was that if the accident had not happened as it did, and Mr. DeWitt had turned to the left, which would have been unlawful, it would undoubtedly have meant a narrow escape for Mrs. Evans or possible death.

Another point in the process of fixing the blame was the overlooking of the fact that one auto blocked the highway, and the approach on the right side was also cut off with a taut chain which was pulling on the Nash car.

The jurors' findings show the belief that the night was light enough to see several hundred yards without lights, yet it must be remembered that an automobile at night time cannot lawfully travel the highways without lights, and it is also known that artificial light, together with the moonlight, like the condition on this night, produces an effect that makes observation harder than with either of the lighting effects separately.
