Later in the meeting an animated discussion occurred on the handling of eggs by the association, and whether they should be handled at a minimum cost, it developed that this part of the association's business had grown from nothing to a matter of \$24,000 during the last year, and that the production of eggs bids fair Secretary Payne's report are to be MANY ATTENDING FARM and vicinity. A whole town in California is founded on this business in the Ashland district to the south. where the character of soil, drainage. and natural slope, also the equable climate, make ideal conditions.

A resolution of approval of the excellent conduct of the business by A. C. Briggs, the manager, was passed. J. H. Dill. president of the association, also asked for a vote on the question of handling eggs at the same rate as during the past year, and it was so voted. Election of the three directors whose terms expired showed a general approval of the polley of the association,
