ASHLAND HI VICTORIOUS; "WE GOT MEDFORD'S GOAT"

Winning three of the four game series, the Ashland five are honorably called the champions of Southern Oregon and win the distinction of competing with the northern part of the state for the high school state championship. During the series of games Ashland outclassed Medford in the art of playing clean, scientific basketball and at no time were the boys in danger of losing, as Medford was in no class whatever with their superiors.

In each game, Medford, realizing that she could win in no other way, tried her rough indoor football tactics, but owing to the decision of the officials, she was not able to make it go every time.

Medford's last game was the roughest of the series, Heer having been repeatedly fouled and no fouls called in Ashland's favor. Guthrie was handicapped in having to carry around one of Medford's clumsy guards on his shoulders about three-fourths of the time with no foul decision in favor of Ashland. However, the Ashland five played a good clean game and at no time were they out-classed by the rough tactics of Medford. It was thought Ashland might not win the first game played on Medford's barn-like floor, but the local five carried away the game with honors, while Medford met her defeat in no sportsmanlike manner at any time.

Our local high school girls' team was as victorious as the boys; having won three of the four series, and carrying away the honors in playing good clean basketball.

For years past Ashland has supported athletics strongly and has been able to hold honors in contesting with Medford in athletic sports. Three cheers for Ashland High. A. ROOTER.

The first is a march in honor of the resurrected Ashland Civic Improvement club, and the other a brilliant composition setting forth the honors due our soldier boys, and particularly those who achieved martial glory from their training at Camp Lewis, American Lake, Wash.

BROKEN ARROW TRIBE KING OF CREEKS, DIES

TULSA, Okla.—Another of the famous old Indian leaders who shape the destiny of the red man in the early territorial days in Oklahoma has passed. In the recent death of David M. Hodge, 79 years old, last "king" of the Broken Arrow tribe of the Creek Indian nation, Oklahoma lost a most interesting character. He died here recently.

Prominent in the affairs of his tribe since 1866, he ranked first among Creek statesmen, and although he never received the highest honor in the power of the tribe, that of the principal chieftainship, he was for years the chief adviser of the Creeks. His advice was sought by a succession of tribal heads and on repeated occasions he was named by the house of warriors and the house of kings (the senate and house of representatives of his tribe) as their delegate to the "Great White Father" in Washington.

It was the proud boast of the old statesmen that he had met and talked with every president since Andrew Jackson.

One of the last missions accomplished by him for his tribe was having congress rule that the Creeks and other Indians were within their rights in suing the government for the recovery of lands given to their slaves after the civil war.

Perhaps his greatest claim to fame is the assembling of an English Muskogee (Creek) alphabet and dictionary. The first effort toward the formation of this work was made by the Rev. John Fleming, a missionary who came with the Muskogees, as they were then called to the Indian territory from Alabama and Mississippi in 1837-38. Little progress was made until a number of years later when Hodges, as chief interpreter of the tribe, and the Rev. R. M. Loughridge, a missionary, collaborated and finished the book, which has been of inestimable value to the tribe.

When a lad, Hodges was taught in an Indian mission school by the father of Miss Alice Robertson, Oklahoma's congress-woman-elect, who was one of the early Indian missionaries.

Hodges also translated the Bible into the Creek tongue, the Creeks myths into English and was co-author of a volume of Creek-English songs.

Hodges was made a junior officer in the forces of Albert Pike, discoverer of Pike's peak, and was assigned to the army from Texas early in the civil war. As a result of a battle with Union forces on Thanksgiving day, 1861, in which the army from the north, although possessing superior numbers, was almost annihilated, Hodges was given the rank of colonel and when the war ended he was in command of a regiment.

He was born in Muskogee, Okla., in 1842, his father being a Pennsylvania German and his mother a full-blooded Creek.
