Sunday afternoon between this city and Talent. It was stated that the De Vere car, in passing the Anderson machine, was obstructed by a machine coming from the opposite direction, and in running close to the slower moving auto struck the Anderson car, throwing it over an embankment into a wire fence. Although no one was hurt, the car is said to have been badly damaged and the party shaken up. The party was taken to Ashland by passing motorists, Mr. and Mrs. Sheets of this city.

From 'Frisco—

Thomas Hoover of San Francisco, is in the city for a two week's visit with his daughter, Mrs. N. H. Harrison, who has recently undergone an operation at a local hospital. Mrs. Harrison is reported as improving.

LOCAL PHYSICIANS ORGANIZE BRANCH OF HEALTH LEAGUE

As part of a state wide movement in Oregon an Ashland branch of the League for the Conservation of Public Health was organized last night at the office of Dr. E. A. Wood of this city. Unfortunately, only the physicians of the city were present. Unfortunately, because the objects of the league are of importance to everyone. Dentists, nurses and the public at large should be members of the society as well as physicians and surgeons. Anyone interested may communicate with Dr. Woods or Dr. Jarvis.

The league was started in California. It now takes in almost 100 percent of the physicians in California, Washington, and Oregon. It is hoped to have its scope co-extensive with the nation.

The objects of the league are: 1. To investigate, collect, prepare and disseminate all obtainable data practically touching the conservation, improvement, and protection of the public health, and put the principles of preventive medicine and surgery into general practical effect. 2. To create committees of specialists to study, discuss, analyze and report on the causes and effects of the specific diseases and conditions that constitute community health

problems, factory sanitation and industrial hygiene. 3. To publish and circulate health bulletins, leaflets, pamphlets and other appropriate literature, to educate and organize public opinion, make the important facts of hygiene household knowledge, and thereby eradicate popular errors and unsound views. 4. To stimulate scientific research to solve the doubtful literature, timely lectures and through the press, the problems and progress of scientific medicine. 5. To promote a wider and more accurate knowledge and adoption of preventive measures in the home, the school, the store, the factory, farm and mine. 6. To study sympathetically and systematically from the humanitarian and utilitarian standpoint such social problems as are the cause or effect of disease. 7. To investigate the environmental causes of disease and the most efficacious methods of prevention and treatment of communicable diseases, seek to improve living and working conditions and suggest desirable legislation to promote and protect the public health. 8. To undertake independent and impartial sociological and experimental medical research, and comprehensive investigation into the difference between urban and rural mortality, conditions affecting various sections and localities of Oregon, including the problems of tuberculosis, malaria, cancer and pneumonia, protection of infant life and maternity, milk, food, water supply and general sanitation. 9. To conduct a bureau of research and information which will investigate and furnish health statistics to all members, to co-operating organizations and societies, and to the press. 10. And generally to initiate, encourage, foster, aid and promote such activities as tend to advance, conserve and protect the public health.

STUNT AVIATOR TO SUPPLY FOURTH OF JULY THRILLS

One of the sensational features of the Jackson county parade and celebration on July 4 will be the flying exhibition to be given by aviator Clyde E. Pangborn, whose home is in San Diego, Calif. He will fly over the parade in the morning and throw flowers out of his plane upon the crowds below. In the afternoon he will do a number of stunts over the baseball field. Pangborn claims to do all the stunts that can be done on an aeroplane, including walking on the wings and hanging by the landing gear, says he has done worse stunts flying than any other aviator in California. Last year he was hurt at Coronado beach while changing from an airplane to an auto going 80 miles an hour, and rolled for 60 feet on the beach.

Pangborn was the first lieutenant in the U. S. aviation corps, and was an instructor during the war. He was the first man to fly from Texas to Idaho, where his mother lives. He has given many exhibitions up and down the Pacific coast. This year he has won three prizes in San Francisco.

He will carry passengers before and after the 4th and during the day except when flying in the parade, and celebration and says he expects to start a school both for straight flying and for stunts.

As the plans for the parade and celebration are being developed it is seen that the event will far surpass what was originally expected.

LARGE APPROPRIATION MADE FOR FIREWORKS

The display of fireworks to conclude the Jackson County Parade and celebration at Ashland on July 4 will be witnessed by a great crowd, for it is to be almost as elaborate as the display at the Portland Rose Festival. The Hit Fireworks Co., which produced the Portland exhibition, will also supply the fireworks at Ashland. The sum appropriated by the managers of the celebration, of which Mr. Amos Ninsinger is chairman, is very liberal and exceeds any of the past. The Hit company promises a number of sensational surprises.

It is highly encouraging to see how cheerfully so many men and women are contributing their services to the parade arrangements. It is surely going to be a most pretentious celebration.

Klamath Falls Music Teacher Praises Pasmore

(From C. of C.)

Mrs. Zumwalt who has studied singing with the best teachers, notably with Shakespeare of London, England writes as follows of H. B. Pasmore, now giving an extensive course in vocal culture and singing at the Chautauqua. Mrs. Zumwalt was a principal of the Andrews Opera Co., and therefore what she writes bears the stamp of authority. For many years Mrs. Zumwalt has been a prominent teacher of music in Klamath Falls.

The following is a letter written to John H. Fuller, secretary of the Chamber of Commerce.

Your city is to be congratulated on having secured Mr. Pasmore for a season of vocational lessons. Mr. Pasmore is a great teacher—a Master. His years of experience both in America and in Europe have made him without a peer in the art of developing real singers. His method brings results in a very short time, in fact, immediately. The pupil begins to sing correctly from the first lesson, beautiful tones which continually grow in power and depth.

My personal acquaintance and friendship with Mr. Pasmore extend over a long period of years. I have studied with him at every possible opportunity, and find him a greater teacher each time. He has been kind enough to make two short teaching visits to Klamath Falls, and my pupils who studied with him showed marked and remarkable improvement.

One of my former pupils, Mrs. Mary Boyd-Wagner, coloratura soprano, has just completed a year of study with Mr. Pasmore in 'Frisco, and gave a short concert here last month. She displayed a rare tone-quality, silver-clear, and absolutely even throughout its entire range of three octaves. Her high tones were executed with astonishing ease, her rapid scale passages were flawless, her interpretations skilful; and the whole effect was one of artistry. She has made wonderful progress under Mr. Pasmore's teaching, and her many friends here were delighted with her work. Her singing evoked most hearty and spontaneous applause. She is now on her way to New York to study for the operatic field, giving concerts enroute. Her praise notices are glowing in their press of her work.

Mr. Pasmore certainly has a method which makes singers who are a delight to hear. Study with such a master is a rare privilege, and your Ashland talent will, I hope, avail themselves of this great opportunity. Very truly yours, in the interest of real song.

MRS. DON J. ZUMWALT.

ROGUE RIVER VALLEY DAIRYMEN TO MEET NEXT SATURDAY

Dairymen of Rogue River Valley will hold a meeting at one o'clock in the afternoon of June 25 at the ranch home of William Bohners near Central Point for the purpose of discussing dairying conditions throughout the valley.

A good program has been arranged and all dairymen have been requested to be in attendance. Professor Fitts of O. A. C. is scheduled to speak at the meeting. It was announced this morning that several prominent dairymen from the Willamette valley will be present.
