But They Don't Help Business

Elks' All-Star Minstrel Show
Composed of Highly Paid Actors

Eighty Players of Troupe All Members of Elks' Lodge—Glee Club Big Feature of Touring Organization—Willard, "Man Who Grows" and Twelve Famous Professional End Men All to Appear as Fun Makers.

When the Minneapolis Elks' All Star Minstrel show, which is featuring the Elks' Glee club, shows at the Chautauqua auditorium, folks are going to see the highest paid band of players who ever took part in a show of this kind.

Every one of the 30 members of this band of entertainers is an "Elk" and every one of them is either in business for himself or else a holding position which pays him a high salary. A conservative estimate of the yearly income of these players puts the figure at close to half a million dollars.

The Glee club, all Elks and all members of Minneapolis Lodge No. 44, enjoys the distinction of being the best singing organization in the entire Northwest and under the very able direction of Dr. William Rhys-Herbert, bids fair to rank second to none in the country inside of a year or two.

Doctor Rhys-Herbert has spent a great deal of time with his singers getting ready for this trip of the Minstrel show and reports all of his "voices" as singing better than at any time since the organization was started many years ago.

Among the well known singers of the Northwest who are members of the Glee club are Fred Pearl, said to be the handsomest man in the club, Ernest Krebs, a barytone singer with a truly wonderful voice, Earl Stockdale, a former professional favorite with a tenor voice, Dr. Harry Rawson, James Purcell, Tony

eral days past, awaiting the arrival of his friend, W. D. Barnes, of Bend. Miller comes by train via Portland and Barnes was to come by the auto route, he wiring, however, that he had a shoulder dislocated while in the vicinity of Yreka, evidently due to accident. Result was that Miller went over to Yreka to investigate and if necessary bring both car and cargo into port. Both men have held public office in Central Oregon, the former as county commissioner, and the latter as county judge.

Sport Chatter

By FRANKLIN B. MORSE
(Pacific Sports Service)
With the Dempsey-Carpentier fight a matter of history, there probably will be some persons, here and there, who will get a thrill out of the announcement that another chess tournament will be held at Havana, Cuba, at the end of the year.

"Now that the big fight is over it looks as if a lot of sports editors would have to get back to work again," remarked the Genial Grouch as he sauntered into our sanctum. All of which is rather an unkind cut. Any one who has had to write a column of "stuff" a day for weeks on the training period when there was not anything to write about, will vouch for the fact that a holiday for the purpose of resting up is what ought to be coming.

This season "Babe" Ruth knocked out his 28th home run on June 29. Last year this same clout was made on July 14. August of last year he garnered only seven homers, which was his poorest month. Last July he hit out 13, which was his best month. Comparative April, May and June homers are:

Table with 3 columns: Month, 1920, 1921. April: 0, 5; May: 12, 10; June: 12, 13.

By this it will be seen that the "Babe" had considerable use for that start he got in April. Otherwise he'd be behind.

"BIG BILL" HAYWOOD URGES PROPAGANDA AS LABOR AGITATION
LONDON, July 5.—"Big Bill" Haywood, I. W. W. leader, is urging the use of propaganda as agitation among the rank and file of the United States crafts unions to "effect an industrial revolution." SENATE "AGRICULTURAL BLOC" FIGHTING LODGE'S VACATION PROGRAM

WASHINGTON, D. C., July 5.—The senate "agricultural bloc" is fighting Majority Leader Lodge's vacation drive to a finish. The senate does not want a recess and are insisting that the time Lodge wants for recess before the tariff bill comes up be used to enact agricultural relief legislation. Lodge maintains that such legislation is useless and unnecessary. With the Republican leaders determined to force through the "vacation program," a bitter fight is foreseen.

Use Care in Handling Powder.
Opening a wooden keg of black blasting powder with a wooden tool might appear to be the safest of methods, yet the United States bureau of mines calls attention to a number of serious accidents resulting from the practice. The habit in many places has been to drive a hardwood spike through the head of the keg, and in several instances the ignition of the powder has directly followed. The cause remains unexplained, though any one of a number of actions may be responsible. Because of the demonstrated danger, it is recommended that powder be extracted from its kegs only by way of the bunghole, even if more time is required.—Popular Mechanics Magazine.
