Methodist Revival Under Way—
The revival at the Methodist church began yesterday morning and despite the extremely bad weather, a good-sized crowd attended the services. Rev. Peck took for his subject at the morning service "The greatest thing in the world," and in the evening the subject was "Be ye not deceived, God is not mocked." Both sermons were exceptionally well delivered, and each was a message that will long be remembered by those who heard them. The Methodists of Medford are planning to attend the services in a body Wednesday evening.

Guests from Medford—
Mr. and Mrs. E. W. Wakefield, of Medford were guests of Mr. and Mrs. Chester Putney for supper Sunday evening at the Putney home on Nob Hill street.

Forum Luncheon—
The Chamber of Commerce will hold a forum luncheon Thursday and will have a man of no little ability in Philip H. Dater, district forestry engineer of the northwest, as the speaker of the day. Mr. Dater has

charge of the states of Oregon, Washington and Idaho, and has had a wide experience in the forestry service. His subject is of interest to southern Oregon as a whole and particularly to Ashland, which is so situated among the hills and forests as to be within a few hours of the forest with which Mr. Dater is so familiar.

Basketball This Week—
This week will be the final week in the high school basketball series of games, and as a result the locals have three scheduled games for the last part of the week. Thursday evening the Ashland players will journey to Medford and play the Medford quintet in the swimming tank. Friday evening the same teams will play on the local gymnasium floor, and on Saturday evening the Ashland boys will play the Roseburg quintet again. As this game must be played on a neutral floor, it has been agreed to play it at Medford. If Ashland wins over Roseburg on Saturday night, it also wins the southern Oregon championship and will then have but one team standing between them and the state championship.

ues will be found in the lower depths and the indications are that they will be fully as rich, if not richer than the south Nevada ore bodies. A mine near Ashland containing \$10 ore is preferable to a south Nevada mine containing \$100 ore."

PROMINENT YOUNG COUPLE MARRIED
John Finneran and Miss Fern Murphy, both prominent young people of this city, were married at the parish house in Medford Wednesday evening at 8:30 o'clock. The wedding was attended by relatives and a few immediate friends of the couple from Ashland. After the wedding, they were given a reception at the parish house and then motored to Ashland, where they were entertained at supper at the home of Mr. and Mrs. C. A. Shutts, uncle and aunt of the bride.

Mrs. Finneran has made her home with her uncle and aunt for many years, having graduated from the local high school and attended the University of Oregon.

Mr. Finneran is a son of Mr. and Mrs. Andrew Finneran of Eighth street, and like the bride, graduated from the local high school and attended the same university.

Both are favorites with the younger people of the city, and the best wishes are extended to them by their many friends.

PARENT-TEACHERS CIRCLE MEETING
(From Friday's Daily)
A very interesting meeting was held by the Parent-Teachers' circle at the Hawthorne school yesterday afternoon. At the business session plans were outlined for the Junior high school entertainment which will be given in the near future. This will be a very elaborate affair given to raise money for the piano purchased by that school last year.

The program opened with an instrumental solo by Miss Carson, followed by an instructive talk on the care of the teeth and the dangers arising from neglect, ably given by Dr. W. E. Buchanan.

Superintendent Briscoe spoke of the great need of new buildings. The state law compels every child to take 20 minutes physical training each day. At Hawthorne and Junior high schools this has to be given out of doors, and in stormy weather this makes a very difficult situation. Consequently a gymnasium is needed at each of these schools. A model cottage belonging to the school district is also greatly needed. In order to secure funds towards such building, it was suggested that Parent-Teachers' members create a sentiment towards the giving of cash gifts to our schools. Persons interested along these lines might give any sum, no amount being too small or too large. Others might like to leave legacies in their wills. Universities all over the United States are receiving many gifts in this manner, why not apply this method to our local schools? What more lasting memorial could one leave than a building named for the giver?

The program closed with an instrumental solo by Miss Atkinson.

J. G. Norton has moved out of the property located at 341 Almond street to some point outside the city. Mr. Rickman has moved from 554 A street to 1131 Oak street.

Bays New Car—
Mr. and Mrs. G. A. Shutts, of Third street, are the proud possessors of a new Velle car.

Deal Now Pending For Mining Claim
A deal is now pending for the sale of a mining claim located some one or two miles west of Ashland, whereby property which has shown good indications in a mining way will be taken in charge by capitalists who will start to work the prospect in the very near future if the deal is successfully closed.

A mining engineer has made an examination of the property and has expressed the opinion that this property is capable of yielding one carload of good ore every two weeks. This would employ 60 or 70 men continuously.

The men who are backing this proposition are not local men, and it is not possible to give their names at the present time.

In connection with the foregoing, the following statement taken from the Oregon Mining Journal of May 5, 1906, may be of interest to people in the mining industry:

"Last week one of the leading geologists and mining experts of the United States was visiting Ashland, exploring the surrounding mineral country and examining some mining claims in the interest of one of the largest mining capitalists of America.

"In looking over the many mineral specimens in the mining office of C. W. Evans, he remarked that the mineral showing, formations and indications in the vicinity of Ashland was one of the best in the west and predicted mining operation on a scale as large as any in the country would eventually be conducted in the mountains about Ashland. He requested his name not be mentioned as it would hamper him in his work. He further stated that in the Tonopah, Goldfield, etc., mining districts, the values were principally found on the surface, owing to the formation of the 'country rock' of that section, but around Ashland the greater val-

place at the Armory March 6, 1922. All First Company men will assemble at the Armory at 7:15 p. m. No excuse will be granted for this occasion. This order may be shown to employers in order to get leave to be absent for the two hours necessary to attend this inspection. Bugler Wolcott will blow first call at 7:15 and assembly at 7:45 sharp. This inspection is important and determines the future of First Company. Any man who does not have his equipment and uniform in condition for inspection by 7:30 p. m. Monday will have charges preferred against him.

2. All men will be careful to observe all military courtesies, and non-commissioned officers who fail to assist in this connection will lose their chevrons.

Capt. C. A. O. N. G., Commanding.

E. R. ISAAC & CO. WILL CELEBRATE FIRST BIRTHDAY
(From Friday's Daily)
E. R. Isaac and Company will celebrate their first anniversary Saturday, March 4. The interior of the store has been completely refinished and puts on the appearance of a new store once again.

The store enjoys a splendid business, and Mr. Isaacs expresses his thanks for the liberal patronage that he has received in the past year. Souvenirs will be given away between 1 and 4 o'clock Saturday afternoon to the customers of the store. A huge birthday cake will be on display in one of the show windows all day Saturday. It contains a \$5 gold piece, a gold ring and a silver thimble. The birthday party will not be held until Thursday afternoon at 4 o'clock, at which time the cake will be cut and customers served, the person getting the various articles of value to become the owner of the same.

Special bargains are being offered in every department during the anniversary sale and a large business is expected during the next few days.

POOL ROOM CLOSED DOORS FRIDAY EVE.
The Dobbin Irwin pool room, in the Elks' building on East Main street, closed its doors last night, not to open again in the present location.

Mr. Irwin will store his equipment for a few weeks until he can obtain possession of the building now occupied by James H. Cooke at 279 East Main street and used as a pool room. It is reported that possession will be given about the 25th of the present month.

The room being vacated by Mr. Irwin will be used, together with the adjoining room, for the Golden Rule store, which will open one of their chain stores here as soon as proper arrangements can be made.

ALBERS DAIRY FEED

DOES NOT COST AS MUCH AS MILL RUN HAS SUPERIOR FEEDING VALUES

Notice the analysis in comparison

An actual chemical analysis shows:

	Protein	Fat	Fibre
Albers Dairy Feed	13.9%	4.5%	16%
Wheat Mill-Run	12%	2%	15%

Protein is the essential factor in determining values of feeding stuffs. Protein makes milk. Reckon fat as energy values. Fibre is waste. Therefore buy protein and fat.

A moderate amount of fibre is necessary to give bulk or keep the meals apart.

Albers Dairy Feed is palatable because it contains molasses, with mill-run, oat by-products and cocoanut meal. The mixture in Albers Dairy Feed supplies the variety needed by the dairy cow. It is better than mill-run at the same price.

We offer it at less.
