HARDING WANTS CONGRESS TO BE READY TO ACT

CRISIS IN RAIL AND COAL STRIKES UPSETS 3-DAY RECESS PLAN

President Orders Telegrams Sent to Representatives to be on Hand When Congress Reconvenes Aug. 15th, and to Continue in Session.

WASHINGTON, Aug. 8.—President Harding wants a complete congress assembled in Washington, and ready for action, in view of the grave industrial situation involved in the rail and coal strikes, and to that end he has directed congressional leaders to cancel any plans for recess after the house reconvenes on August 15. This is in accordance with an official announcement from the White House.

Congressional leaders had planned a series of three-day recesses, which would allow members to remain away from Washington until the senate was ready to report on the tariff bill.

The house sergeant-at-arms has dispatched telegrams to congressmen requesting them to be in their seats on August 15, in compliance with the president's request.

An unfavorable reaction to the president's latest program by the strike leaders has considerably dampened the confidence heretofore existing that the railway strike was on the way to settlement.

KLAMATH MAKES APPROPRIATION FOR ROAD WORK

KLAMATH FALLS, Aug. 8.—Appropriations for highway construction totaling \$148,000 have been made by the county court.

Of this amount \$121,000 is for the 15-mile section of The Dalles-California highway between old Ft. Klamath and the Deschutes county line. The appropriation was made with the understanding and condition that a federal appropriation equal to 50 per cent of the cost and a state appropriation equal to 25 per cent of the cost be forthcoming.

The other appropriation was \$27,000 toward construction of the Anna creek road from the boundary of Crater national park through and to a point near Fort Klamath. Federal and state aid is also expected for this road.

FAME A FLEETING THING, PARTICULARLY IN MOVIES

Fame is a great thing, especially if it comes through hard work in motion pictures. Norma Talmadge, who is at the Vining in "Smiling Through," is one of the best known of film stars. The First National star comes from a family of actresses, Constance and Natalie Talmadge, also film celebrities, being her sisters. Her brother-in-law, Buster Keaton, is also a celluloid satellite.

Regardless of one's personal fame one is sometimes known by one's relatives. Recently Norma Talmadge was working on a street scene in the heart of Hollywood. A large crowd had gathered to see the star perform before the camera.

"Who's that working there?" asked one of the crowd, pointing to Miss Talmadge.

"Oh, that's Buster Keaton's sister-in-law," replied another visitor. Such is fame, folks!

EUGENE CAVIN DIES AT BAKER CITY, ORE.

Word has been received in Ashland of the death of Eugene Cavin at Baker, Oregon. Mr. Cavin is the son of Sam Cavin, of 726 Iowa street, and lived for many years in this city. He has a wide circle of acquaintances here who will be sorry to hear of his death.

It is the optophone, the invention of Fournier d'Albe, a British scientist. By use of selenium, the instrument translates printed letters into musical sounds, which the blind

"DRYS" DON'T WANT FORMER DISTILLER IN CONGRESS

SPRINGFIELD, Ill., Aug. 8.—Any "wet" and "dry" contests in Illinois this fall are expected to be overshadowed by the fight in the sixteenth congressional district, where W. E. Hull, republican, an admitted "wet," and Jesse Black Jr., democrat, a "dry," are entering what their proponents claim will be the big battle of the state on this issue.

Mr. Hull is a former distiller and a former member of the Illinois legislature. He resides in Peoria, where he has extensive business interests. Mr. Black is an attorney of Pekin.

ONE HUNDRED TON HAY STACK BURNS ON MURPHY RANCH

The J. J. Murphy ranch was thought to be very fortunate last week when the grass fire which burned over so much territory east of the city, was kept out of the large hay stack, containing over 100 tons of good quality hay. But the good luck did not last, for the stack caught fire Saturday afternoon about 4 o'clock, and the efforts of the men employed at the ranch were not sufficient to save any of the hay.

At the time the big fire broke out last week, the men on the Murphy ranch gave their attention to saving the big stack, and were successful in backingfire all the way around the stack, and about 25 yards from it. The fire burned all the grass on all sides, leaving only the 25-yard circle immediately around the stack, and the hay was thought to be safe. But it seems a smoldering ember near the remaining dry grass was blown to a blaze, and with no one on guard, the stack before it was discovered.

TARIFF PENALTY ON CUBAN SUGAR FIXED AT \$1.48

HEALER-LEVANGELIST COMING TO ASHLAND

At the meeting of the local Ministerial association last Monday afternoon, it was decided to extend a call to the Rev. Charles S. Price of Lodi, Calif., to conduct an evangelistic campaign in Ashland.

Dr. Price is the manager for the famous Mrs. McPherson, and also her chief helper, conducting meetings with seemingly as great success as Mrs. McPherson herself.

In order to bring this matter in full detail before the public of Ashland, a union meeting of all the denominations of the city has been called at the Presbyterian church for Sunday evening, August 13, at 8 o'clock.

At this time speakers who are familiar with the work of Dr. Price and Mrs. McPherson both as to healing and evangelism, will have important information to impart.

Everybody is urged to be at this meeting.

Trying Out the Lie Detector

Here are two illustrations of the "lie detector" in use. In the top picture you see Dr. Larsen making an actual test of an alleged criminal. The lower photo shows the instrument attached to the arm of the man upon whom the test was made. Fortunately, the machine proved the absolute innocence of this man, whose name is withheld for obvious reasons.

By ELLIS H. MARTIN
I. N. S. Staff Correspondent
BERKELEY, Calif., Aug. 8.—What will the invention of the "lie detector" mean to criminal investigation?

This question was asked Chief of Police August Vollmer, head of the only police department in the world

employing the device, and in whose department it was worked out by Dr. J. A. Larsen, one of Vollmer's super-cops, who is a university graduate and a scientist.

"It will eliminate conviction of the innocent and insure the conviction of the guilty," said Chief of Police Vollmer.

"It will put an end to spurious

PORTLAND, Aug. 8.—Earl E. Patterson, a teller in the Lumbermen's Trust company bank, is under arrest, accused of embezzlement of \$34,000, and J. C. Osler, a used car dealer, is sought by the police for complicity.

Patterson made confession to President Robert E. Smith and Vice President Carl Detering Saturday, after having successfully manipulated things so that the defalcations had been unobserved through several bank examinations.

He asked to bring Osler in to confirm his story. Before the extent of Osler's involvement was apparent, he was left alone in President Smith's office for a few minutes, and disappeared.

This morning nothing had yet been seen of him and his wife denied all knowledge of his whereabouts or his dealings with Patterson.

Absconding Teller Said to Have Fled With Young Girl

TACOMA, Wash., Aug. 8.—Spencer Corrow, young assistant manager of the local branch of the Bank of California, who disappeared last week leaving his accounts \$6000 short, is probably fleeing with a Tacoma girl, it was revealed today by federal secret service operatives and bonding company detectives working on the case.

It was disclosed that a girl bookkeeper of the bank, described as beautiful and from a prominent local family, vanished last Friday, 36 hours after Corrow disappeared.

What remains of the town of Keswick has been placed in charge of a watchman.

A. Morgan, federal prohibition officer for Washington, who conducted the raid on Hickey's camp in the hills near here late yesterday, was seriously wounded, but is expected to recover.

Accompanied by John Piggott, federal prohibition director, Morgan and Rorison were reconnoitering near Hickey's camp, when the owner stepped out from the brush. Morgan ordered Hickey to throw up his hands and fired over the moonshiner's head. Hickey, instead of surrendering as had been expected, fired point blank at Morgan, seriously wounding him.
