STATE FIRE PREVENTION FUND INCREASED \$24,000

An allotment of \$24,000 from a federal fund has been granted to Oregon to be applied in connection with the state fund in order to insure adequate forest fire protection.

JACKSON-KLAMATH SHEEP WILL RECEIVE DIPPING

All buck herds of sheep in Jackson, Klamath, Lake and Deschutes counties must be dipped twice in an officially approved solution between August 15 and November 15, according to word received from the Oregon state live stock sanitary board.

Authority has been given to the state sheep inspector and his deputies to inspect and quarantine and treat sheep affected with any infective or contagious disease, or any that are suspected of being so infected.

TRIP TO SHALE OIL DEPOSITS WORTH WHILE

The city editor of the Tidings made a trip to the shale oil deposits Sunday to inspect the holdings of the Hartman syndicate, and see of the claims of the syndicate in regard to the amount of available material were as represented.

The start was made from Ashland about 10 o'clock in the morning, going out on the Dead Indian road as far as the Lahlbi ranch, where a side road is taken over the mountains to a point almost directly beyond Grizzly peak.

On reaching the end of the road, horses were obtained, and the rest of the trip, which is about five miles was made on horseback. Upon ascending to a point overlooking the Antelope valley, the horses were left and the trip down the mountain on foot, only to bring up shortly at the destination.

At this point was found the oil shale as it had been uncovered by workmen, and there is little exaggeration when the statement is made that there is a whole mountain of it, for it may be found for a distance of about two miles along this side of the mountain, where it crops out in many places. Samples that were brought back are equal to anything displayed by members of the syndicate, burning freely when ignited by a lighted match.

Despite the fact that the road is rough, it is worth the time and trouble of any interested person, who doubts the amount of available material, to make the trip to the ground and look it over.

Stops in City—Mr. Montgomery, Southern Pacific agent at Medford, accompanied E. O. McCormick, vice president of the road, to Ashland this afternoon. Mr. McCormick is on his way back to San Francisco, and only stopped to say hello to a number of his friends in the city, leaving on train 53.

CHARGE MADE TO LEGALITY OF GRANGE TAX BILL

PORTLAND, Aug. 28.—The Grange income tax bill is to be attacked as to sufficiency of signatures upon the initiative petition submitting it, in a complaint filed in Marion county this afternoon, McCamant and Thompson, attorneys, announced.

The petitions contained 495 more names than is required by the law, but the attorneys contend many of the names are those of aliens, minors or persons who have not resided in Oregon long enough to make them legal signers. Also it is alleged that many of the names are fictitious, and that the signers were secured on the pretext that the petitions were to reduce telephone rates in the state, or street car fares in Portland.

VEGETABLES OF EXTRA SIZE ON EXHIBITION

Two more super-cucumbers have been brought to the Tidings office since Saturday morning, both of which are worthy of special mention.

W. H. Worthington, who lives on Laurel street, brought in the heaviest cucumber that has been shown to date. It weighs three pounds and six ounces, and is 12 1/2 inches in circumference and 13 1/2 inches long. Mrs. Scheideter, from out on rural route number one, came in this morning with a fine specimen, which is of the record-breaking length of 14 1/2 inches and is just one ounce short of the weight of the Worthington specimen. It is 11 1/2 inches in circumference.

Cliff Payne sent in some beans, which are slightly out of the ordinary, two beans growing from one stem, one being 15 inches long and the other 12 inches long.

LOCAL MAN PURCHASES IMPROVED PAINT MACHINE

F. B. Sankey has purchased a new Decora air brush paint machine, which he received Friday of last week. This is the first machine of its kind ever used in this city, and is certainly an improvement over putting paint on with a brush. The paint is put in a container, which is connected with a motor and fan, which forces the paint through the spray brush. In this manner, one man can paint about as fast as six men with brushes.

Paint, kalsomine, shingle stain, or any kind of interior or exterior finishing may be done equally well, according to Mr. Sankey. Neither is the machine restricted to this line alone, for it can be used to paint automobiles fully as well as it does other work.

The new machine is electrically operated, but can be driven by a one and a half horse power gasoline engine when used where electric power is not available.

GRANTS PASS PLANS SPECIAL "PEACH WEEK"

GRANTS PASS, Aug. 28.—"Peach Week, August 28-September 3." This was the text of a proclamation issued Saturday by Mayor C. H. Demaray, in an effort to secure a larger local consumption of the fruit. It is estimated that at least 2500 boxes of first grade peaches will rot on the trees this week unless some concerted action is taken to relieve the situation. Local merchants are co-operating in the move and have signified their willingness to sell the peaches at cost, which will be about 50 cents a box.

FORMER ASHLAND MAN AUTHOR OF NEW BOOK

Bernard C. Jakway, U. of O 1901, is the author of a book entitled "The Principles of Interior Decoration," copies of which have recently reached the library. Mr. Jakway is now university extension lecturer in interior decoration in the University of California. His new book is published by the Macmillan company.

Mr. Jakway is the stepson of the late John Butterworth, who was a railway postal clerk running out of Ashland for a number of years. Mr. Jakway was raised here and attended the local schools, and has a large number of friends and acquaintances among the present residents of the city.

Initiated Saturday—

James Spencer, Ural Coleman and Henry Pace were initiated into the "40 and 8's" at Medford Saturday night. This is a branch of the American Legion and quite a few members are being taken into the organization.

ALL IRELAND MOURNS AS MICHAEL COLLINS IS BURIED IN POMPEY

DUBLIN, Aug. 28.—Michael Collins, late commander in chief of the Free State army, was buried in Glasnevin cemetery today, alongside other noted Irish patriots, while all Ireland mourned.

The funeral was one of the largest and most impressive in the history of Ireland.

MAY TAKE SPECIAL EXAMINATIONS ON SEPT. 1

The beginning of the first semester of the local school is only one week away, and the teachers and pupils are getting set for the year. Superintendent Briscoe is endeavoring to have everything in perfect shape on the opening day, and to that end has issued the following requests.

Any grade or high school pupils wishing to remove a failure in any subject may take examination at the Senior high school building Friday morning, September 1, 1922.

All high-school pupils who have taken subjects in a non-standard high school should take examinations at this time, for the state department of education requires this to be done before credit for such work may be accepted by standard high schools.

The division line between Junior high school and the Hawthorne school will be Pioneer avenue. All children from grades one to six inclusive, living on the east side of Pioneer avenue, will go to Hawthorne school. All those living on the west side of the avenue will go to the Junior high school.

Patrons will help in a rapid and successful organization of the school term by seeing that all children are in attendance at the opening of school. A few days missed at the beginning of a term may retard a child a whole semester, and put all at a disadvantage when working conditions should be at their best.

Beginners who will be six years old on or before September 30, 1922, should enter school at the beginning of the fall term, but the first B grade will not accept any children who will not be of the required age, and none of them after Monday, September 18, 1922.

WILL INVITE ASHLAND AND MEDFORD TO MOCK WEDDING

KLAMATH FALLS, Aug. 25.—Medford, Ashland and Lakeview will be asked to send delegations to attend the meeting here in connection with the arrival on September 23 of 100 San Francisco business men, who are coming in response to an invitation from the chamber of commerce. Secretary Stevenson said today.

The meeting, he said, would represent a welcome to the visitors by the whole of southern Oregon, and will include a banquet with special features for the entertainment of the guests. A mock wedding, representing the joining of Klamath with California, may be included.

LOCAL BOYS ARRESTED FOR BURGLARIZING STORE

Sheriff Terrill and Chief of Police Hatcher yesterday arrested Luther McCoy and Fayne Wilcox, for breaking into the P. J. Amer store on East Main street, where they stole a number of revolvers, a shotgun, some razors and a quantity of tobacco.

The boys were taken to Jacksonville by the sheriff, where they will appear before Judge Gardner in juvenile court.

The Wilcox boy ran away a few months ago and after having been gone for several weeks, showed up in northern California, and sent for money to come home on.

GIVES PARTY FOR VISITING FRIENDS

Josephine and Marshall Barber entertained a score of neighborhood friends last evening at their home in honor of Thyra Bryant, of Klamath Falls, and Mary and Eleanor Crain, of Weed, Calif., who are visiting in the neighborhood.

The evening was spent with music and games, and everyone present thoroughly enjoyed the evening.

GOLD HILL STORE CHANGES OWNERSHIP

The Merritt merchandise store at Gold Hill, which was operated for many years by Mr. Merritt, until recently purchased by Charles Arnholt of Portland, has changed hands again, the new owner being D. L. Pruitt, of Merlin, Or.

The management of the store has been turned over to R. H. Pruitt, a son of the owner, and will be run as an up-to-date country store.

GOLD DISCOVERY AT CRIPPLE CREEK TO PROVE 'COME-BACK'

CRIPPLE CREEK, Colo., Aug. 28.—The Cripple Creek camp, once the greatest gold camp in the world, is coming into its own again, after a period of comparative inactivity since 1918, with the re-opening of many old workings and the discovery of new veins of rich ore.

Rich "surface" strikes recently made in the camp, are drawing scores of prospectors to the camp, and with new machinery being installed in numerous underground mines, Cripple Creek is staging a real "come back" as a gold producing center.

Finding rich gold ore at grass roots at the same time that new veins were disclosed at a depth of more than 2500 feet below the surface of the earth, is one of the "freak" developments of the new prosperity in the camp.

COUNTY EMPLOYE BADLY INJURED IN ACCIDENT

T. J. Card, a county employe, suffered a broken back Wednesday afternoon as the result of the large truck which he was driving, turning turtle as he was rounding a turn near Beagle on the Evans creek road.

The truck turned completely over and landed right side up, with Mr. Card in the driver's seat completely paralyzed on account of his back being broken. Just what injured the vertebrae is not known, but it is thought he was caught in some way against the steering wheel so as to cause the injury.

Mr. Card was taken to the Sacred Heart hospital at Medford immediately after the accident, where his condition is considered very grave, although not necessarily fatal. He is a resident of Medford.

KANSAS MAN LOOKING FOR LOCATION HERE

J. C. Hopper, a retired banker of Hutchinson, Kans., is stopping in the city for a few weeks. Mr. Hopper is on the coast looking for an ideal place to locate, and is very much impressed with Ashland. Mr. Hopper specializes on Hereford cattle, and should be locate here, he would have a fine herd of cattle and would make other breeders look well to their laurels.

Mr. Hopper expects to leave about the first of the month for San Diego, where he will visit for a few weeks, after which he probably will return home by the way of Ashland.

COUNTY FAIR BOARD COMPLETES MORE DETAILS

The semi-monthly meeting of the Jackson county fair board took place Wednesday night at Medford, and further details of the coming fair were discussed and settled.

Besides the races which have been previously announced, the board has obtained an auto-cycle polo team, which will entertain the public each day during the fair.

A disappointing feature came up at the meeting in connection with the Andrews opera, which it was thought could be obtained, as word from Mr. Andrews to the effect that he had a previous engagement at Seattle for that date, and would not be able to appear.

Twenty new horse stalls, 10 by 12 each, were ordered built on the east side of the fair ground, as it was thought best not to put the horses under a canvas roof. The new stalls will be rushed to completion before the fair begins.

Entries in all lines far exceed the expectations of the directors, which is quite gratifying to them, and the only fear at the present time is that those who desire to come in at the last minute with exhibits, will find no room for their exhibits.

The first horses to arrive for the races came in today, and will be housed in temporary stalls for the present.

ASHLAND GIRL MARRIED AT MEDFORD YESTERDAY

Hiram J. Arnold and Maude J. York were married yesterday evening by Rev. D. E. Millard at his residence in Medford. Two sisters of the bride were the only witnesses.

Miss York is an Ashland girl, and her marriage comes as a surprise to her friends in this city.

Visits with Relatives—

Miss Lucile Hayes of Portland arrived in the city a few days ago and is visiting with relatives. Miss Hayes is a niece of Mrs. R. M. Garrett and Messrs. S. F. and J. Edward Thornton of Ashland.

RECEIVERSHIP FOR GERMANY CONSIDERED BY FRENCH BODY TODAY

PARIS, Aug. 28.—A receivership for Germany, along the lines suggested by Sir John Bradbury, British representative on the inter-allied reparations committee, is being considered by the French today.

If the plan is approved, America may be proposed as the receiver.

MANY WITNESS SHALE OIL DEMONSTRATION

There was a large attendance yesterday evening at the final public demonstration of the Hartman retort for extracting oil from shale. The exhibition took place in Mac's garage on Pioneer street, and it was noticeable that there were quite a few Medford people present. One of the interested spectators was Paul Rynning, the state highway engineer. Quite a number of ladies were also in evidence.

The firing of the retort was started promptly at 7 o'clock, and at 7:45 gas began to flow from the condenser, through a two-inch pipe, and when ignited made a solid flame 18 inches in length. This is said to be casenhead gas and is a marketable commodity. It is claimed that the output from the regular retort is one million and a quarter cubic feet every 24 hours. In excess of the amount consumed as fuel by the retort. At 7:50, the oil began to trickle from the other side of the condenser, and was sampled by pretty nearly everyone present. It is claimed that the output of oil is conservatively estimated at 500 barrels every 24 hours.

FIRST NAT'L BANK SAFE TO BE BURGLAR PROOF

B. H. Grubb, of the American Bank Protection association of Los Angeles, is in the city to install one of the association's burglar proof safes in the vault of the First National bank.

It will require about two weeks to put the lining in place, after which it will be impossible for any steel drill to penetrate the interior of the safe without setting off the alarm.

Mr. Grubb is a local boy, having spent a number of years in Ashland before taking a position with the association, for which he has been working for the last few years.

MAPPING OUT ITINERARY FOR SHRINE CARAVAN

Captain Bernard S. McMahan, manager of the National Touring club, with Pacific coast headquarters at Oakland and eastern headquarters at Washington, D. C., will arrive in this city shortly on his way to the national capital.

Captain McMahan is mapping out the itinerary for the second trans-continental Shrine motor caravan, which will most likely include this city. He travels in a large white touring car. Neatly lettered signs on the car designate it as the official advance car for the National Shrine Touring club.

While in this city, Captain McMahan will meet officers of the civic organizations and explain to them the plans for next year's caravan.

FORMER ASHLAND MAN DIES AT COTTAGE GROVE

A. J. Stevens died at his home in Cottage Grove, August 18, at the age of 70 years and eight months.

Mr. Stevens was a former resident of Ashland and had a wide circle of acquaintances in the city.

He is survived by his wife, Mrs. Mary Stevens, of Cottage Grove, and nine children, one of them being G. C. Stevens of Ashland.

OIL, SHALE DEMONSTRATION ATTENDED BY LARGE CROWD

The special demonstration given last evening by the Hartman Syndicate, the company which is being formed here to extract oil from the shale found in the mountains near Grizzly peak, was attended by a crowd of about 100 people, quite a number of whom bought stock before leaving the demonstration.

Among those who attended were four people from Medford, four from Weed, Calif., three from Portland, one from Yreka and one from Hornbrook.

Plenars Congregation—Ross Guiley, arriving yesterday from San Jose, Calif., where he has been spending his vacation, stopped over in Ashland for a few days, and will visit relatives and old friends here. Mr. Guiley expects to go on to his home in Eugene within a few days. The Christian church people were indeed pleased with his sermon at the services on Sunday.

BARBACUE OVEN FOR LABOR DAY ABOUT COMPLETED

With the oven and pit for the big barbecue nearly completed, final plans are being made for the big Labor day celebration by B. F. Montgomery.

Already several have agreed to enter floats in the parade, which is slated to begin promptly at 10 o'clock Friday morning, the exact route of which will be announced later.

The committee in charge of the day are anxious to obtain as many floats for the parade as possible, and Mr. Montgomery asks that anyone interested in this feature, or who has any stunt in mind that would help make the day a huge success, would communicate with him at 355 B street.

As a final wind-up of the day, a dance will be given in the Armory by the shop crafts.

IDENTITY OF MAN FOUND AT PENDLETON UNSOLVED

PENDLETON, Or., Aug. 28.—Walter Scott, local ranch hand, now in the employ of Lawrence Hagan, yesterday met the people who had identified him as the dead man still being held by Deputy Coroner J. F. Brady, for identification. When he met the people who believed him dead, the surprise was great, and now it is believed that is reason to doubt if the dead man was ever in Pendleton. Most of the people who viewed the body in the morgue and declared that they had seen the man in Pendleton, think that it was Walter Scott that they had seen.

The identity of the murdered man is still a mystery.

COTTER FAMILY IN AN AUTO ACCIDENT SUNDAY

The C. A. Cotter family were considerably shaken up Sunday when a tourist by the name of Rebb, from San Francisco, hit the family car at the intersection of Harrison street and the Boulevard. The running board, one door and a spring of the Cotter car was badly damaged, but the occupants all escaped without any physical injuries.

The cause of the accident was attributed to the fact that the tourist was using more speed than discretion, and was unable to stop his car until it hit the local party.

The tourist's car was only slightly damaged.

WALTER PRITCHARD EATON WRITES UP CRATER LAKE

In a recent issue of Country Life, Walter Pritchard Eaton is author of quite an extensive writeup of Crater Lake, describing the lake and its surroundings in detail, as he found it on a visit there. He spoke of having found the most beautiful garden in America in the "Garden of the Phantom Ship."

Mr. Eaton's article will probably reach more people and be read by more than any other like story ever written on this scenic wonder of southern Oregon, and is such publicity as will be remembered by all who see the publication. It will undoubtedly result in bringing many tourists to this section of the state to visit this world's wonder.
