HUNTING SEASON BRINGING OUT WILD TALES OF CHASE

Here's a real hunting yarn, as told by J. A. Parker, of Bly, according to the Klamath Falls Herald. While hunting near his place last Thursday, Parker said, he saw a coal black buck. The deer was small in size and the velvet on its horns was also coal black.

Later, he saw a fine big buck, of the ordinary or garden variety, which he brought down with his trusty rifle. Walking over to his victim, Parker saw the brush moving a short distance away from where he stood.

ASHLAND RECEIVES NOTICE IN VICTOR PUBLICATION

"The Voice of the Victor," a publication put out by the Victor Talking Machine company at Camden, N. J., a copy of which is received by every Victor dealer in the world, in its last number gives space for two fine pictures of the May pole dance and the school victrola, taken in Lithia park on Jackson County School day.

MISS PAY CARVER, director of physical training for the girls last year, made the pictures possible by holding the May pole dance until the photographer could take the picture.

DOUGLAS COUNTY TO HAVE FINE EXHIBIT

ROSEBURG, Sept. 11.—The sum of \$500 has been appropriated by the county court to be used for the Douglas county exhibit at the state fair, C. O. Garrett, of Glendale, and County Agent B. W. Cooney will have charge of the exhibit.

NEW POST OFFICE LOCATION IS SOUGHT

REDDING, Calif., Sept. 11.—The Redding post office is seeking larger quarters to accommodate the growing business of the city.

H. B. Hall, inspector of leases for the department, was here last week and directed that advertisements be posted.

The present location is good enough, but the floor space is only 3500 square feet, and the government wants space of 5000 square feet.

The advertisement states that the department wants to lease for a term of ten years. The owner of the building is required to furnish the equipment, lock boxes, desks, etc.

PORTLAND PIES ARE NOT KIND MOTHER MADE; DEFY BULLETS

PORTLAND, Sept. 7.—A white masked bandit yesterday, in attempting to hold up a down-town lunch room, shot a pie three times without effect. When the bandit entered the place about 5 a. m., the scrub woman employed in cleaning up gave one loud yell and fled. Her cry brought Harry Ahlas, the night manager from the kitchen. Wheeling his gun around to cover Ahlas, the bandit issued the "stick 'em up" order. Ahlas ducked behind the counter quickly enough to dodge three shots which shattered a glass show case, struck the pie crust, glanced off and embedded themselves in the wall.

SISKIYOU COUNTY SHIPS ORE SAMPLES TO FAIR

YREKA, Calif., Sept. 6.—More than a ton of specimen ores have been shipped from Siskiyou county to be placed on exhibition at the state fair in Sacramento. These specimens represent more than a score of varieties of minerals found in this county, among the richer minerals being radium bearing galena, gold bearing quartz, platinum and silver. Chinnabar ore and pure quicksilver in its native state are included.

These minerals are from more than 200 Siskiyou county mines, many of which are now in actual operation. Some are from lines that yield high assays and are awaiting capital for development. The famous \$150,000 Siskiyou county gold exhibit, which is said to be the finest ever in existence, will also be exhibited at the state fair. This exhibit was shown at the Shriners' convention in San Francisco, and then sent to Chicago, where it was shown at several large conventions.

Both the old and new Siskiyou county exhibits contain large pieces of gold shown in its pure native state in quartz, in galena, in porphyry and in mixed nugget form, some pieces being worth thousands of dollars. Besides the minerals many varieties of building and ornamental stone are being sent to the fair, including red, green, gray and white marble, which is not surpassed for quality and is found here in abundance.

TRO DONATES \$25 EACH TO JUDGE GOWDY FRIDAY

Friday was a busy day in Justice Gowdy's court, three men being haled before the city police judge, two on a charge of drunkenness and one for resisting an officer. Justice Gowdy has one standing remark to give to those who have imbibed of the potent liquid, and that is "\$25, please. Thank you." (To hear the judge say it, you might think he was bestowing some honor upon the victim.)

Frank Ling, a Chinaman employed at the railroad cook house, and E. L. Staley, who works in the local railroad yards, each donated a quarter-century note for being in various stages of intoxication. George Rockwood, another railroad employe, was arrested when he interfered with the officer who arrested Staley. He demanded a trial, was found guilty, and Justice Gowdy again repeated his little formula with great impartiality.

FAIR VISITORS URGED TO PURCHASE TICKETS NOW

Prices for admission to the Jackson county fair have been announced by the board of directors, who urge those planning on attending the exposition to buy their tickets early, to help speed up the passage through the gates. General admission has been set at 50 cents for adults and for children between the ages of 10 and 16, a charge of 25 cents will be made. Adult admission after 7 p. m. will be 25 cents. Adult season tickets which permit the holder to leave and enter the grounds at will, are \$2.50, with \$1 for children's season tickets.

Each person in automobiles parked inside the race track will be charged 25 cents, with a minimum charge of 50 cents per car. No extra charge will be made for the admission of automobiles to the fair grounds. General admission to the grandstand is 50 cents, with a charge of \$1 for reserved seats in boxes.

Leaves for Roseburg—M. A. Morad, who has been in Ashland for the past few weeks installing some new equipment in the local telephone office, left for Roseburg to do similar work in the exchange at that place.

CITY WATER SUPPLY IS LOW; CHLORINE FOUND NECESSARY

Ashland citizens are again clamoring about the city water being doctored with chlorine, which has been unusually evident during the past week-end.

Chlorine has been used in the water continually for over a year, with the amount cut down during the summer to a minimum, according to Water Superintendent Hosler, who has charge of the chlorine plant.

The reason given for the great amount of chlorine in the water the past few weeks, is that the water at the upper intake is so low that all the gas released is drawn into the pipes, whereas during the spring, when the water was high, quite a bit of the gas escapes, as only a small portion of the water goes into the water mains. It is quite noticeable that the chlorine is much stronger when the upper half of the city is sprinkling than when the lower part of the city is using the water. This is explained by Mr. Hosler, who states that the upper intake must supply all the water for the higher part of the city, while the lower part is supplied from the lower intake where there is a larger storage of water.

The last report on the condition of the water showed that, while not of the highest possible quality, yet is not considered as being really bad. Tests of water taken from the creek, however, show that it is not fit for human consumption, and should not be used with first boiling. When asked what caused the water to become infested with the disease-carrying germs, Mr. Hosler stated that he was informed by the state authorities that picnicking and camping parties above the intakes were responsible for the condition of the water. This was the reason a guard was appointed some weeks ago to keep picnic parties out of the upper reaches of the canyon during the summer, and Mr. Hosler says he believes a guard should be kept in the canyon during all that part of the year when camping and picnicking are possible. He further stated it would be a profitable investment to fence in the water shed and keep out of it all persons except those having business there.

MRS. KITTY HUNTSBERRY MARRIED AT BAKER, OR.

The many friends of Mrs. Kitty Huntsberry will probably be surprised to learn that she has again entered upon the sea of matrimony, having married a Mr. Hart, of Baker, Or., on Sunday, September 3, at that city.

Mr. Hart is a wealthy rancher of Baker county, but is not known in this part of the state. Mrs. Huntsberry is well known in this city, and has a host of friends who will wish her many years of wedded bliss.

CHAMBER OF COMMERCE WANTS EXHIBITS FOR FAIR

Secretary of the chamber of commerce Fuller has been scouring the city for exhibits for the Ashland booth at the Jackson county fair at Medford next week, but he has not been as successful as he would like, and asks that any one having any fruit, vegetable or grain that would make a good showing, get in touch with him or bring it to the chamber of commerce rooms.

Ashland raises as fine fruit as is grown in the west, and should not allow other communities to take away prizes offered in this line. Vegetables and grain also grow to be extra fancy in this end of the valley, and Ashland should have a very creditable showing in its exhibit this year.

ASHLAND PEOPLE EXPECTED HOME AFTER TRIP SOUTH

Mr. and Mrs. Frank Hanna expect to arrive in Ashland Monday afternoon in their car. Mrs. Hanna left here about two months ago to take her mother to San Francisco on account of the latter's ill health. Mrs. Hanna was later joined by her husband, and spent two weeks in Los Angeles on a business and pleasure trip. Mr. Hanna is a railroad man and hoped to transfer to the Los Angeles division in the near future.

Mrs. Hanna's mother, Mrs. Nellie Connor, will accompany them home from San Francisco, and will remain here or a short time to transact some business.

RETURN FROM A THREE WEEKS' VACATION TRIP

A party composed of Mrs. L. M. Ring, of Ashland, Mr. and Mrs. G. W. Vroman and daughter Blanche of Princeton, Calif., and Mr. and Mrs. T. B. Rice and daughter Marie, of Holywood, Calif., have returned from a three weeks' camping trip, which took them to Crater Lake and other scenic points. Mrs. Ring spent a week at McCloud during the time, visiting with her daughter there.

Visits in Ashland—Mrs. H. B. Cole, of Hornbrook, Calif., was in the city visiting yesterday.

PRISONER HEARS OVER RADIO PLAN TO FREE HIM ON MURDER COUNT

BOSTON, Sept. 11.—While listening to a radio concert with fellow prisoners, George Rollins, who, with his brother Charles, is locked up charged with murdering two A. & P. store managers, heard the news of an effort to free him.

With a party of other inmates, George was seated in front of the radio horn. The evening news bulletins were the first heard, in which were the pardoning of Jesse Murphy in Pennsylvania, and of the arrangements being made to bring him to Boston to face trial on charges of slaying the A. & P. store men. Murphy has confessed to the crime for which the Rollins brothers were convicted. George was overcome with joy at the news. His inmate companions cheered the news.

CONVICTS LIKE PEN; NONE LEAVE IN YEAR

SALEM, Or., Sept. 11.—When S. S. Corbin, serving two years for larceny from Multnomah county, escaped from the penitentiary September 8, 1921, he probably had no idea that he would be the last man to leave the institution without permission for more than a year. But such was the case. When September 8, 1922, rolled around there had been no escape during the preceding 12 months, probably the longest period in the history of the prison without an escape. An examination of the records for 10 years back shows it conclusively to be the longest record for that period of time.

TWO MEN DONATE \$50 FOR BEING INTOXICATED

Twenty-five dollars was donated to the city coffers this morning by Louis Matherson and Charles Stone, respectively. Both are said to come from California, and were under the influence of liquor. Stone was arrested on a state charge by Deputy Sheriff D. Bradshaw on Fourth street last night, while Matherson was arrested near the Hotel Ashland by J. W. Hatcher, chief of police.

After spending the night in the city jail the men were taken before City Judge W. H. Gowdy, who deducted the amount of the fines from the money taken from the men by the arresting officers, and which was in possession of the city court. The remainder was returned to the men.

FRIENDS ENTERTAINED AT ANGELL HOME SUNDAY

Dr. and Mrs. E. B. Angell and daughter enore entertained more than 40 of their friends at their home on Vista street Sunday, from 4 to 7 o'clock, in honor of Rev. and Mrs. Miller and family. Mr. Miller recently accepted the call to the pastorate of the First Baptist church.

The B. Y. P. U. members gave an excellent program in keeping with the day, with Miss Cecil Moore presiding. Among the guests were Mrs. Price—wife of the evangelist—Professor Andrews, Mrs. Mary Eubank, Mrs. Hirvey and daughters, and many members and friends of the B. Y. P. U., of which Dr. Angell and family are members. Refreshments were served, after which the entire party attended the evening meeting at the Chautauqua, to hear Dr. Price.

GRANTS PASS MAN IS KILLED WHILE WORKING

G. C. Steele, an employe of the California Oregon Power company, was instantly killed Friday morning at about 11:30 while working on the high tension wires south of the city, says the Grants Pass Courier. He was at work changing some connections on the main power line near the P. P. Proctor place about one mile south on the Pacific highway. In some manner his wrists came into contact with the wires and 2300 volts shot through him. An investigation into the accident is being conducted by officials of the company.

GIVES BIRTHDAY PARTY FOR FIVE YEAR OLD SON

A birthday party was given Wednesday afternoon at the home of Mr. and Mrs. J. H. Snyder, for their little son Billy, at their apartment in the Phipps building. The fourteen little guests present were served with appetizing refreshments which included ice cream and a wonderful birthday cake. A happy time was spent in all manners of youthful fun. The apartments were decorated beautifully with roses and asters. Mrs. Ben Delsman and Mrs. A. A. Marcke assisted Mrs. Snyder in serving.

ASHLAND STATE BANK OPTIONED TO NEW PEOPLE

As reported in Saturday's Tidings the Ashland State bank has been sold, and a deposit of \$5000 has been put up to bind the deal. It is understood that the new owners will take charge of the institution in a short time.

J. C. Hopper, a wealthy stockman and banker from Hutchinson, Kans., is one of the heavy stockholders in the institution, and is associated with J. H. Fuller, C. W. Banta and a number of other Ashland citizens. Mr. Hopper left the latter part of the week for southern California, where he will remain a short time, and the local members of the new organization are endeavoring to sell the balance of the stock before his return. Less than 50 shares remain on the market at the present time.

Inasmuch as Mr. Hopper is the heaviest stockholder, it is expected that he will be chosen as president of the bank, but according to the banking laws, he must establish a residence here before he is in a position to be placed in such an office. The other officers of the bank will be selected as soon as certain details are worked out, but at present no information is obtainable as to who will hold the various places of trust.

MANY DEER ARE SEEN IN DEAD INDIAN SECTION

Hunters who recently returned from a trip into the Dead Indian country, report that deer in that section are very plentiful, as many as four being seen in one bunch. Two fine specimens were brought back. Ed Coovling returned with a fine four-point buck to his credit, while William Hayter killed one with three points. Other members of the hunting party were Wilbur Jordan, Al Jordan, Fannie Jordan, Mr. Griffith and Vern Cary. The latter two returned to the woods to get the limit.

SHASTA COUNTY PLANNING TO HOLD FAIR SEPT. 21

McARTHUR, Calif., Sept. 6.—The Intermountain fair to be held here on September 21, 22 and 23, under the auspices of the farm centers on this side of the mountains, will be contributed to by the adjoining regions of Lassen and Modoc counties. The county supervisors appropriated \$750 to assist the fair.

WIMER COVE ORCHARD HAS FINE EXHIBIT

D. A. Owens, owner of the Wimer Cove orchard, near the summit of Wimer street, raises some very fine apples and has an extraordinary exhibit on display at the chamber of commerce rooms. The exhibit is a branch from one of his trees, 16 inches in length, on which 24 apples have grown this year. The apples, while not of an extra large size, are all perfect with only one that shows a sign of a worm.

Mr. Owens has a fine orchard and raises some of the best Newtowns in this section. He won first prize on his exhibit at Ashland's winter fair last year.

BIG POST OFFICE IS SENT BY MAIL TO TOWN IN UTAH

SYRACUSE, N. Y., Sept. 11.—Donald Chase, returning from a western trip in the interest of the American Legion, tells a story of a \$125,000 post office which is being shipped by mail.

Vernal, Utah, is the town that is erecting its federal building through the assistance of the parcel post. The city is 150 miles from the nearest railroad. Government officials did not like the idea of paying big bills for the hauling of material from the railroad. So Vernal's federal building is being shipped in by mail, brick by brick, and while it may take time to assemble it, the materials will be taken to Vernal by parcel post employes in the ordinary course of their business.

RESTITUTION MADE AFTER 16 MONTHS

Sixteen months after his store was burglarized O. H. Johnson, jeweler, is again square with the world, and is singing the praises of the Pinkerton detective agencies and the work of H. W. Hatcher, local chief of police. On the night of May 29, 1921, a piece of glass in the display window was removed, and three binoculars taken. Finger prints were obtained and a description of the stolen articles sent broadcast to every police station and jeweler in the country. Recently a man was arrested at Longmont, Colo., for robbery of a post office. A check on him revealed he was wanted here. Johnson received two of his binoculars about three weeks ago, and a day or two ago received a check covering the cost of the third glass, from which was deducted the amount of the reward offered for the return of the glasses.

Chief of Police Hatcher, who was active in the apprehension of the robber, and J. R. Calloway, Longmont police chieftain, were both complimented greatly by Mr. Johnson for their untiring efforts and the great amount of correspondence necessary. As Calloway received the cash reward, Mr. Johnson showed his appreciation to the local officer by presenting him with a gold watch this morning.

EUGENE FRUIT PACK IS HEAVY THIS YEAR

EUGENE, Sept. 7.—One hundred thousand cases of fruit has been the season's pack of canned goods up to September 1 by the Eugene Fruit Growers' association, according to Manager J. O. Holt. This is an increase over the normal pack during the last several years. Pears, apples and blackberries, as well as several varieties of vegetables, are coming into the cannery in fine shape now. The second carload of apples has just been shipped by the association. Reports reaching the office here are that car shipments of fruit are not being seriously delayed by the rail strike, says Mr. Holt.

LOCAL GIRLS RETURN FROM EXTENSIVE MOTORING TRIP

The Misses Bernice Myers and Hattie Hodges, who left Ashland on August 1 for an extended auto trip in company with Mr. and Mrs. L. O. Walker, of Gold Hill, have arrived home. The party first visited California and Yosemite Park, then to Lake Tahoe, Salt Lake City, Yellowstone Park, Glacier Park, and returned across the mountains by ways of the Crow's Nest pass in Canada. They report having had a very fine trip, and say every minute of the time was thoroughly enjoyed.

CRISIS IS PASSED BY MRS. HARDING AT WHITE HOUSE

WASHINGTON, Sept. 11.—After lingering between life and death for three days, Mrs. Harding is improving. A contemplated operation upon her kidneys has been deferred pending further developments, according to an official bulletin issued at the White House. The president and others, who have been constantly in attendance on Mrs. Harding since she became critically ill, are greatly cheered by the encouraging reports coming from the sick room during the day.

PLAN MONUMENT AT RATTLESNAKE POINT

KLAMATH FALLS, Sept. 11.—Erection of a monument to the pioneers of Klamath county at Rattlesnake Point, scenic spot on The Dalles-California highway near here, is the proposal of R. H. Cook, local photographer. With this in view, Cook arranged to have Captain O. C. Applegate, Modoc war veteran, and Klamath's "grand old man," pose for photographs on a pile of rock at the proposed site. The picture showed Captain Applegate, clad in buckskins and carrying a rifle, gazing out over Klamath lake. Cook believes a bronze monument erected at the spot would be a mark of esteem for the pioneers as well as a valuable advertisement for the highway.

ASHLAND BAND SIGNS CONTRACT FOR FAIR

A contract to furnish music for the Jackson county fair directors is being considered by the Ashland band. Contracts with the Medford Elks' band and the Medford D. O. O. K. band have already been signed, and negotiations are under way to include the Grants Pass aggregation in the list of musical organizations for the fair. Good music and a well balanced program are receiving the most careful consideration of the board of directors, according to reports, a fine schedule has been arranged for the fair, and visitors will have little time to rest if they attend to each feature.

O. N. G. WILL RECEIVE NEW MEDICAL UNIT

EUGENE, Or., Sept. 7.—A medical detachment of 11 men for the Oregon national guard will be organized and assigned to Eugene, according to word received here by Major W. G. White, commanding the valley battalion of the state troops. The detachment will be under the command of Dr. O. A. Weller of Eugene, who holds the rank of captain. The detachment will be recruited among ex-members of the medical corps here, pre-medical students at the University of Oregon, and others interested in this branch of the service.
