MEXICANS MIX IN POLITICS

Two Men Dead and Twenty Others Wounded in Riots.

Supporters of General Reyes as Candidate for President Attend Diaz Gathering and Troops Fire Upon Crowd of Rioters—Some American Property Destroyed.

Mexico City, July 27.—Two dead, 20 injured and more than 200 arrested, is the result of political riots in Guadalajara yesterday and last night, according to reports received here.

The riots started when a mob broke up a mass meeting in Delgado theater in the interest of the re-election of President Diaz. The orators were stoned in streets, carriages and automobiles in which they rode.

Mobs paraded the streets crying: "Down with Diaz!" "We want Reyes!" A barricade was erected and many shots were exchanged. Eight policemen were wounded.

The police charged the crowd repeatedly, but were repulsed. State troops were called out and a number of volleys were fired in the air without effect.

Considerable American property was destroyed and two Americans were wounded. The Americans have asked the American consulate for protection. The Hotel Garcia, which was wrecked by the mob, was leased by an American, and he has put in a claim for damages.

The riot is the most serious that has occurred in Mexico in years, and is looked upon as significant by those who have been closely following the political situation. The officials say it was planned and carried out by the Democratic party, known as the Reyesista party, from the name of the candidate for vice president, General Bernardo Reyes.

PORTERS OUTWIT HARRIMAN

Buy Land and Block Road Leading to Construction Camp.

Grass Valley, Ore., July 27.—Porter Bros. opened a war of strategy on Harriman's railroad construction forces today by cutting off the base of supplies for Twohy Bros.' camps at Horse Shoe bend, in the canyon of the Deschutes. This was accomplished by Porter Bros. by the acquisition of the homestead of Fred Gurtz, across which runs the only road that leads to the brink of the canyon anywhere near the vicinity of Horse Shoe bend.

It is said that Porter Bros. paid \$30,000 for the land by which they have shut off entrance to the canyon to Twohy Bros.

At Horse Shoe bend Twohy Bros. have begun to establish the biggest camp along the construction route, but to get there with the trainload of supplies now here the Harriman contractors will have to cross Porter Bros.' land, and Porter Bros. have put up signs warning trespassers off the property. The Gurtz homestead is enclosed by a barbed wire fence and a wire gate is across the road at one boundary line and a wooden gate at the other.

COLONIST RATES AGAIN.

Railroads to Give Reduced Fares to Pacific Coast This Fall.

Chicago, July 27.—Colonists' fares to the Pacific coast which have been under consideration at the rate meeting of the Transcontinental Passenger association for several days, will be made this fall at the same rates as heretofore, \$33 from Chicago, \$32 from St. Louis and \$25 from the Missouri river to California and North Pacific states. Their availability will be reduced, however, from the usual 60 days to a month, from September 15 to October 15.

This was decided upon because the heaviest movement has been found during the first and last ten days of that period. About 25,000 people are expected to take advantage of the rates, which are for single trips.

Carving Away Sloop Gjoa.

San Francisco, July 27.—Fearing that relic hunters will carry away piecemeal the sloop Gjoa, in which Raoul Amundsen sailed through the Northwest passage, the San Francisco police department has set a guard over the sloop and will try to punish some of those whose initials cover the vessel's sides. The ship is beached at Golden Gate park and was intended to be a museum for things nautical. Relic hunters have carved away at the timbers until the worth of the vessel as a historic relic is impaired.

New Island in Pacific.

San Francisco, July 27.—A new island has sprung up in the Pacific ocean not far to the southeast of the Society and Gambier groups, according to Captain Quatrevaux, of the French ship Thiers, which arrived from Newcastle, Australia, yesterday. The island is but a few hundred yards in circumference, and appears to be of volcanic origin. The uncharted rock is described in the log of the Thiers as of low and uninviting appearance.

Tornado Wipes Out Town.

Winnipeg, July 27.—The village of Mecklin, located on the Saskatoon and West Akiwin branch of the Canadian Pacific railway in Saskatchewan, was wiped out by a tornado yesterday afternoon. No one was seriously hurt.

NORTHWEST APPLES BEST.

Bring Higher Price Than Those From Any Other State.

Consul General Robert P. Skinner, writing from Hamburg, Germany, details facts relating to the apple industry of this country as reflected in the prices received there, and shows that Oregon and Washington apples bring more than those from any other states, the scale being in comparison with the California product as follows:

State Per 1-bushel case Oregon, Washington . . . \$2.61@3.57 California 1.60@2.61

As to the possibilities of the extension of the apple trade with Germany, the report shows that in 1908 Germany imported 164,421 tons of apples, of which the United States supplied only 10,502 tons; in 1907 Germany imported 181,457 tons, the United States sending 9,229 tons.

Germany enforces rigidly inspection for the San Jose scale, and this pest has been found on a number of shipments from the Pacific coast. Mr. Skinner says, however, that as a rule American apples reach Germany in good condition. He urges that care be exercised by all apple shippers to free their orchards from scale and all other pests, and then exercise constant supervision of their employes to insure that the fruit shall be packed so as to make it pleasing to the eye as well as protect it against bruising while being transported.

Hamburg is the great apple receiving port. There, writes the consul, honest and impartial rules of sale are observed and the seller always receives what is his due, the market regulations and government inspection having been developed in a manner to make it certain that always there shall be no crooked work or unjust rejection of shipments.

German fruit buyers have for years been sending their representatives to America to look over orchards and packing houses, and keep informed on the conditions of the industry in all important localities where considerable quantities of fruit are produced. These agents often go without making known their identity, and thus obtain information which might otherwise be harder to secure.

The report of Consul General Skinner agrees with previous reports which have been sent to the government from abroad—that Pacific coast apples now lead this country in all European markets. It likewise emphasizes the necessity of maintaining the present high standard, in order that the high prices now obtained may be maintained and the apple industry reap the large profit which has been made in the past years.

CROP A RECORD BREAKER.

Prospects in Pacific Northwest Never Better Than Now.

According to information received during the past week the Pacific Northwest will produce almost four times as many ears of potatoes as a year ago.

This increase is startling, even though the comparison with the production of a year ago is not exactly a correct showing, for the 1908 crop was just about half of what was produced the previous season.

During the present season the acreage of potatoes in the Pacific Northwest, but more especially in Oregon, shows the greatest increase for one year ever noted here. While a large per cent of this increase was in the Willamette valley, most of the additional acreage was planted in Eastern Oregon.

Eastern Washington and Idaho likewise have a very heavy potato acreage increase and the production there will be much greater than during any previous year. Western Washington had a greater acreage of potatoes than a year ago, but the difference in favor of this season is not great so far as the additional planting is concerned.

Potato crop prospects could scarcely be improved over what they are in Oregon, Washington and Idaho this season, and the same is stated to be the case in California. In Eastern Oregon, where some of the poorest showings were made in grain production this season, the crop of potatoes never looked better.

In the Willamette valley, potatoes will show better quality this year than ever before and the sizes will be just that which gained for this section the reputation of growing the very best potatoes in the entire United States.

In seasons previous to the present one, the potato acreage and production of Eastern Oregon, Washington and Idaho had little, if anything, to do with prices at Portland or San Francisco, but this season each of these sections will be a strong factor in the market and unless all signs fail prices will reach a lower figure than for some seasons.

Potato prices have been so high along the Pacific coast in recent years that the trade can scarcely come to think that lower prices will again be in effect. With such a heavy increase in acreage and a production so much greater per acre than normal, the supplies will be fully as great as any demand would justify, and that being the case, present out of line values will go out of effect.

Train Falls Into River.

Kansas City, Mo., July 26.—At least two persons are known to be dead, one trainman is missing and between 50 and 80 are injured as a result of a wreck of Wabash passenger train No. 4, 30 miles east of here tonight. The train fell into the Missouri river, where the track had been weakened by a landslide. The engine, baggage car, mail car, smoker and a dead-head sleeper, plunged into the water and were completely submerged.

A BRIEF DAILY REPORT ON THE WORK OF CONGRESS

Tuesday, July 27.

Washington, July 27.—"Lumber duty of \$1 a 1,000 or defeat for the tariff conference report by the house." This in effect was the ultimatum given President Taft tonight by Chairman Payne, of the ways and means committee, and a number of other congressmen. The conference at the White House lasted until late. Mr. Payne remained with the president after the others had gone.

Some of those present stated positively that the senate must accede to the rate of \$1 a 1,000 on lumber, as agreed upon by the house, or the conference report would be defeated. They told the president they were determined to fight for the lower rate and it was said that the house would have the president's support on this feature of the tariff measure.

It appears that the house has won its battle for free hides and free oil and for increased rates on gloves and hosiery in return for a surrender to the senate on coal, iron ore and print paper.

The rates on these schedules, as tentatively arranged pending the acceptance by both houses of the program for a reduction in the duties on leather manufactures below the rates fixed by the house, follow:

Oil, free. Hides, free. Coal, 45 cents a ton. Print paper, \$3.50 a ton. Iron ore, 15 cents a ton.

Monday, July 26.

Washington, July 26.—Hides will be put on the free list if the tariff on boots and shoes and other leather manufactures is reduced below the house rates. Unless the advocates of free hides are able to carry out this plan, the whole is to be called off. A decision to this effect was reached by the tariff conferees today.

The conference adjourned tonight until 11 o'clock tomorrow morning, but the house members assemble half an hour earlier that they may plan for executing their part of the agreement. It is expected that they will have a report from the house leaders as to the possibility of passing a rule conferring jurisdiction upon them to agree to lower rates on leather than those named in the house bill.

Saturday, July 24.

Washington, July 24.—The hide question was settled and unsettled today, and while there seems little doubt that eventually hides will go on the free list of the new tariff bill, the contest over their status cannot be regarded as closed. None of the questions made prominent through President Taft's interest in them were settled today, although the conference was in strict executive session all day. The conferees expect to spend a large part of Sunday wrestling with these problems.

Friday, July 23.

Washington, July 23.—While no agreement was reached by the tariff conferees today on coal, lumber, hides, oil, iron ore, the cotton schedule or wool pulp and print paper, it was said tonight that the prospects of settling these big questions tomorrow were excellent.

Heroic measures were used in an effort to adjust differences between the senate and house and to carry out President Taft's program for a reduction of duties on raw materials. All the conferees said tonight that the feelings they entertained for one another were more pleasant than they had been for many days.

Thursday, July 22.

Washington, July 22.—Today was one of conferences and concluded with a consultation at the White House tonight, participated in by the president, Senator Aldrich and Representative Payne, at which the chief executive was assured that harmonious settlement of the differences is likely.

The senators opposed to the free raw material program were consulted today by Mr. Aldrich, and a committee representing the same position on the house side conferred with Chairman Payne. In addition, the house conferees met to have the experts of the senate finance committee explain the senate changes in the cotton schedule.

Wednesday, July 21.

Washington, July 21.—Better progress was made today by the tariff conferees than on any other day since the troublesome disputes were reached. Many questions were settled without any renewal of hostilities.

The entire zinc schedule was adjusted. Spelter was made dutiable at 1 1/2 cents per pound, which is a reduction from the senate rate of 1 3/4 cents and an increase from the house rate of 1 cent. All the senate differentials were adopted. Zinc in sheets will be dutiable at 1 3/4 cents, and sheets coated or plated with nickel or other metal at 2 cents. The house rate at 1 cent for old and worn-out zinc fit only to be remanufactured was adopted. Tungsten ore, which is used in the manufacture

Congressmen to Junket.

Washington, July 28.—Mr. McClelland, representing the Honolulu chamber of commerce, has completed arrangements for the proposed visit of a congressional party to Hawaii. The members of the party will assemble at Chicago August 13, proceed to San Francisco, where they will remain a day, and sail for Honolulu on the "Siberia" August 24. The present plan contemplates their return to San Francisco September 24.

of ferro alloys, one of the chief component parts in the manufacture of low steel and steel parts of automobiles, was made dutiable at 10 per cent ad valorem instead of 15 per cent, as fixed by the senate.

Lemons will pay a duty of 1 1/2 cents a pound, the senate rate. This is an increase of 1/4 cent over the house rate, and half a cent over the Dingley rates.

Canal Nearly Half Dug.

Washington, July 24.—Substantial progress in canal construction all along the line is shown by reports coming to the Washington office of the Isthmian Canal commission. Excavation work approximates 80,000,000 cubic yards, almost as much as the total quantity of dirt taken out by the French during the period they were engaged in operations there. Less than 100,000,000 cubic yards of earth remain to be taken from the ditch. Colonel Goethals has estimated that the great waterway will be ready for the transit of ships by January 12, 1915.

Power Site Withdrawn.

Washington, July 24.—Carrying out the policy of Secretary Ballinger in preventing the monopolization of great water power sites by large corporations, Acting Secretary Pierce today withdrew for a temporary power site 25,086 acres of land along the Green river and its tributaries in Wyoming. All of the water power sites withdrawn will be reported by the secretary to congress in order that legislation may be enacted to preserve them to the government.

Sentiment Was Unanimous.

Washington, July 23.—In an official telegram from Teheran, received today at the Persian legation, announcing that the hereditary sultan, Ahmed Mirza, had been proclaimed shah, it was stated that the unpopularity and unworthiness of Mohammed Ali Mirza caused him to be deposed. The message came at a conference between the heads of the Mohammedan church, princes, high dignitaries and the old members of congress, the vote was unanimous against the deposed shah.

Cabinet in Saving Mood.

Washington, July 24.—A special meeting of the cabinet was held at the White house today further to discuss the matter of cutting down the estimates of the various departments for the coming fiscal year, according to the statements of several of the cabinet members before entering the consultation room with President Taft. The cabinet devoted its entire session yesterday to a consideration of estimates and ways and means of reducing them.

Special Election Urged.

Washington, July 22.—Senator Jones, in a telegram to Governor Hay, of Washington, today advised that a special election be held immediately to fill the vacancy caused by the death of Representative Cushman. Though the new congressman cannot get to Washington before the adjournment of the special session, there are other matters demanding attention through the summer, which cannot be cared for by Humphrey or Poindexter.

Taft Will Visit Oregon.

Washington, July 23.—Representatives Hawley and Ellis called on the president today to ask him to stop at other points than Portland while in Oregon. The president said that on his way south from Portland he would stop at Salem, and if his schedule permitted he would try to make other stops. In case he goes to Denver, he told Congressman Ellis he would endeavor to make short stops in Eastern Oregon.

Congressmen to Visit Hawaii.

Washington, July 23.—A party of 25 senators and members of the house is preparing to visit Hawaii. The visit is in response to an invitation extended by the Hawaiian legislature at its last session, and the party will sail from San Francisco on the steamer Siberia, August 24. Eighteen days will be spent in Hawaii, during which time the four largest islands of the group will be visited.

Probe Heney Case.

Washington, July 27.—If interest can again be awakened in the Heney case when congress reassembles next December it is more than likely that a special congressional committee will be appointed to probe into the employment of Mr. Heney, his work as a special prosecutor for the Department of Justice, and his remuneration, made from time to time, under direction of the Department of Justice.

Japan's New Ambassador.

Washington, July 27.—Baron Uchida, it is rumored, will succeed Terakura as ambassador of Japan to the United States. He was formerly connected with the legation in Washington. He has been connected with the Japanese embassy at Vienna recently. It is believed that, if he succeeds Takahira, the latter will be promoted to Baron Komura's post.

Meet Diaz at San Antonio.

Washington, July 27.—It seems probable that President Taft will meet President Diaz, of Mexico, at San Antonio, Tex., instead of El Paso late in September or early in October. This arrangement is probable because of President Taft's disposition to observe the ironical precedent against American presidents visiting a foreign country.
