

Just to Remind You

WHEN MONEY is scarce general stagnation sets in with its resultant disasters to every line of business, to every profession, and every wage-earner. It is therefore to your interest to help to make money plentiful in Oregon by simply keeping it here. The sworn statements of life insurance companies on file with State Insurance Commissioner S. A. Kozer, Salem, Oregon, show that

10,023,334.00

was sent out of OREGON for life insurance premiums in the past five years.

3,152,915.00

is the total returned here to pay death losses and dividends in the same five years.

\$6,870,419.00

is the net amount drained out of Oregon in 5 years for life insurance premiums sent to enrich Wisconsin, New York and other states by making THEIR home companies the custodians of these trust funds from Oregon. Does anyone doubt that the commercial supremacy of New York is due to the centralization of the insurance assets in that market, more than to any other one factor? More money is handled by the insurance companies than all the transportation companies in the country, and it is the centralization of these immense accumulations in one locality that makes that locality the seat of the financial empire.

It is the personal interest of every citizen of Oregon to use his influence that Life insurance be bought of Oregon life and the money kept in Oregon for Oregon's development.
