Life 100,000 Years Ago.
Scientists have found in a cave in Switzerland bones of men, who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by A. W. Brown of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure Sore Throats, Colds, obstinate Coughs, and prevent Pneumonia, it's the best medicine on earth. 50c and \$1.00. Guaranteed by Burnaugh & Mayfield. Trial bottle free.

IS A LOCAL ISSUE.
President Taft has at last changed his waiting policy and is taking an active interest in the tariff-making game. So far, however, he is insisting only on "free raw materials." That's not fair to the sections that produce only raw material. If we are to have free hides, then why not lower the rate a little on manufactured shoes? If free wool, why not take the duty off manufactured woollens?
It certainly looks that President Taft's present policy is a sop to the central western states.
General Hancock was right when he said in 1880 the tariff was a local issue. He was laughed at then; nearly everybody agrees with him now. The General was 20 years head of his time.

The **Wallowa Sun** took a column of its space last week to tell it was opposed to a daily mail service to the North Country if any of the service should start from Enterprise. This was a clear waste of white paper as everybody knew the sun would be farn'st it.

There is no gainsaying the advertising feature of a big Wallowa county exhibit at the La Grande fair, and it will pay us all to get in and work for a representative exhibit. This county takes a back seat to none when it comes to agriculture or live stock.

Beginning this year Wallowa county wins the wheat exporting column. In a few years reports as to the condition of wheat in this county will be as regularly asked for as now from Umanilla.

Splendid haymaking weather and largest crop in the history of the county being cut and stacked. The extra crop and good price will put many added thousands of dollars into the pockets of ranchers this year.

TO TRY SIGNALLING
IN NATIONAL FORESTS
Experiments will be made this summer with the standard heliographs which are now used in the war department, for signaling on the national forests. One of these experiments will be on the Kaniksu national forest, in Idaho, and the other on the Stanislaus forest in California.
It is intended to discover whether these instruments will be of use on national forests to report fires or where there is no quick method of communication.
The conditions of climate and latitude, as well as the species of inflammable trees in the two forests are sufficiently different to determine whether the instrument is suited to some localities and not to others.
Easy and quick communication to all parts of a forest must be had if fire is to be kept down. Anyone who knows of the fearful damage wrought by forest fires on private and unprotected lands each year, will easily see that through fire patrol, use of telephone lines and other means of communication such as is maintained on the 195 million acres contained in the national forests he losses can be reduced to a minimum.
For the administration and protection of the 148 national forests in nineteen states and territories and Alaska, the government spent \$2,26,998.02, or about one and one-half cents an acre for the calendar year 1908. Of this amount \$392,169.19 was spent for permanent improvements, including the construction of 3,400 miles of trails, 100 miles of wagon roads, 3,200 miles of telephone lines and forty miles of fire lines.

OF BENEFIT TO ALL
Kasparilla is the name of a new remedy most successfully prescribed for a "world of troubles." For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthy activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value. If it fails to satisfy we authorize all dealers to refund the purchase price.
