SUNDAY TRAIN ON WALLOWA BRANCH

Regular Sunday train service was inaugurated on this branch last Sunday, and the trains were well patronized. The schedule for the present is the same as on week days, and the trains handle freight, baggage and express. No mail is carried yet as the company's contract with the government calls for only six days a week service.

The addition of the Sunday trains will be of great convenience to the people of this county as it makes possible a business trip to La Grande and return by missing but one business day at home. It also obviates the 24 hour wait at La Grande or Portland if you are ready to leave the latter city on a Saturday night.

The new train will certainly make business for itself during the summer in carrying pleasure seekers. Men in La Grande, Pendleton and Baker City are given an opportunity of a week's end holiday in the finest hunting and fishing country in Oregon. Scores of them will doubtless take advantage of the new train, as will hundreds of sight seers.

Lower Rates From East.
The lower freight rates from Eastern points to Enterprise and all other intermountain points, as a result of the Spokane rate decision, have gone into effect, Agent Butler receiving the new schedules the first of last week. They apply on class rating and removes the double back charge from Portland, making a very substantial reduction on shipments from Chicago, St. Louis and Missouri river points.

Mr. and Mrs. Willett were in Enterprise on business in connection with the sale of the place this week.

EVER GROWING DEMAND FOR OREGON APPLES

Portland, July 30.—That apple growers of Oregon have nothing to fear from the danger of overproduction is the statement of Wilbur K. Newell, president of the state board of horticulture, who has recently returned from the east. He says the industry is not likely to be overdone and that the demand for Oregon fruit now exceeds the supply in many quarters. While away, he visited many apple growing districts of the east. He found Oregon apples well established in eastern markets and said the price paid for fruit from this state exceeds that given for the eastern product.

Portland will have an improved market for the livestock of the Northwest early in the coming month when the big stockyards on the Peninsula will be opened. It is said the new facilities to be offered for the marketing of stock will be the best on the Pacific Coast. At the start the yards will have a capacity of 75 cars, or nearly 2000 head of cattle; 10,000 head of sheep or about 75 cars; and 4000 head, or 50 cars, of hogs. This capacity can easily be doubled as occasion requires. The yards will be run in connection with the new packing plants now being built on the Peninsula.

That the climate of the Pacific Northwest is most favorable to long life is the belief of Dr. Rudolph J. Hoague, exponent of the simple life and author of the book, "How to Live One Hundred Years." He is going to establish a colony of his followers near Vancouver, Wash., life will be along simple lines and next to nature. Simplicity of diet and clothing will prevail. Dr. Hoague's followers will be tucked

into bed at sundown and will rise with the lark. Worry and dull care will be tabooed and members of the colony will be told to be always cheerful and happy. Dr. Hoague promises all who will live after his rules a hundred years of life.

The finding of a coin of the early Christian Era in a field near Forest Grove has caused no little speculation as to how it came there. Antiquarian finds in Oregon are not common. The coin has been identified as of the period of Emperor Severus, who ruled Rome from 146 to 211 A. D. The coin is a very rare one, but a few being known to be in existence.

Great Publicity Campaign Starts

One-Third People of United States
Reached By Oregon
Ads.

Portland, July 29.—No less than 25,668,670 people throughout the United States will have their attention drawn to Oregon as the land of opportunity during the coming three months by a great advertising campaign to be conducted by the Portland Commercial Club. The leading agricultural papers and the weekly editions of the big dailies will be used. There is no question that the campaign will direct the movement of thousands of people to this state. The advertisement will carry the familiar oval, with the slogan, "Oregon Is the Place For You," in large letters, and those at all interested are urged to ask for literature and information about Oregon. The advertisement informs the reader that railroad rates are the same to all parts of Oregon from the East and Oregon Commercial bodies will be supplied with addresses of all enquirers so that the whole state may profit by this advertising, although Portland will bear all the expense. There is probably no other city in the world that has done a like thing.

It is urged that all get in line for his valuable publicity. People from the East who ask about this state should be answered promptly and fully by every commercial body. In this way, it is believed, very great benefit will follow for all Oregon. This is the more important now that the colonist rates for this fall have been decided upon by the railroads. Reduced one-way tickets will be sold to all Pacific Coast points from the East and Middle West for colonists and home-seekers who desire to settle here. The advertising campaign for settlers will be well supplemented by these attractive rates to settlers.

New Dynamo at Lostine.
The Lostine Electric Light plant received their new dynamo this week and have been busy installing it says the Reporter. J. O. Kiddie arranged for the purchase of the machinery while he was in Portland several weeks ago. Leo Forsythe, the electrician from Enterprise helped to install the dynamo.

OUTSIDE PRICES TO GOVERN HERE

LOCAL WHEAT MARKET WILL
BE SO AFFECTED FOR
FIRST TIME.

It is too early yet to forecast the opening of the wheat market in this county. Heretofore the local market was governed by local conditions, but now the railroad is here and there is likely to be a surplus to export. Portland prices will help determine the local price. It may open as low as 75 cents if predictions of lower September prices in leading markets come true.

The last wheat marketed locally, a lot bought by the E. M. & M. company of a man north of Wallowa, brought \$1 a bushel. At present there is no market price quoted on wheat or barley as there is none offered for sale. Following are mill quotations:

Shorts — \$2 per cwt.
Bran — \$1.25 per cwt.
Chopped feed — \$2.35 per cwt.
Flour — \$5.20 per bbl.
Potatoes, home grown, are very plentiful for the time of year and the wholesale price has dropped to 1 1/2 cents per pound. Other vegetables, cabbage, turnips, beets, peas, beans, onions, etc., are still governed by outside shipments.
Spring chickens bring \$3.00 a dozen but are scarce at that. Hens are quoted at 10 cents a pound. Eggs are 25 cents a dozen. Butter is 40 cents a roll.
Strawberries, the last of the Slope product now being marketed at \$1 per crate. Raspberries are 40 cents a gallon, sweet cherries 50 cents and pie filler 40 cents a gallon.

3 SHIFTS OF MINERS TO WORK ON TUNNEL

The members of the Contact Mining and Milling company are the busiest men in the community this week says the Lostine Reporter, packing provisions, tools and other mining necessities up to the South fork copper mining region. Hardly a day passes but sees a string of pack horses start to the mines carrying anything and everything, from a box of groceries to a six hole steel range. Workmen have been busy at the mines for a month or so, building cabins, a blacksmith shop, cook house and other buildings necessary for continuing the work. Other miners from outside are expected here soon, when three sets of men on eight hour shifts will be worked, thereby continuing the work in the tunnel day and night. J. H. Jackson took the contract to put the 300 foot tunnel through for \$5000 and as they strike the veins of ore which cross this main tunnel, they will put on extra men and side tunnel from both sides. The wagon road to the mines will be completed as soon as possible, and then the company will begin to ship ore.
