WALLOWA COUNTY HIGH SCHOOL NOTES

The opening of the second week finds an enrollment of fifty pupils with several more to come in during the week.
Everyone has settled down to work in earnest and the studies go along with a vim.
We are to have a Bausch and Lomb compound microscope for use in our physiology and botany classes which will be a great help to us in those studies.
The High School Board has ordered an additional hundred volumes for our library; this will enable us to do much better work in the future and is appreciated by pupils and teachers.
If you intend going to school this winter better join us now; as the work in algebra and book keeping will be hard to make up later.
Cordon Ragsdale was out of school Tuesday with a touch of the grip.
Fred Holmes is one of our new recruits.
Ivan Jackson is doing P. G. work to help him in entering the medical school.
Frances Stanley, Fred and Napoleon Beaudan entered school Tuesday and are taking the English course.

in the matter of the road petition of F. C. Shafer et al.	
This matter came to be heard at this time on the report of the Board of County Road Viewers for a second reading, as provided by law, said report being in words following to-wit:	
To the Honorable County Court above named:	
We the undersigned Board of County Road Viewers, appointed by the honorable court, to view, survey and lay out a county road as prayed for in the petition of F. C. Shafer and others, beg leave to report:	
That pursuant to said order we met at the beginning of the proposed road on the 26th day of July, 1909, the same being the time and place fixed by said order for the meeting of the undersigned Board of County Road Viewers and took to our assistance L. M. Cook and D. D. Brock as chain bearers, and F. C. Shafer as marker, and proceeded to view, survey and lay out said road as prayed for in said petition, as near as in our opinion a good road can be made at a reasonable expense, taking into consideration the utility, convenience and inconvenience and expense which will result to individuals as well as the public, if such road shall be established and opened.	
The said road was surveyed under our directions, and the same was conspicuously marked throughout the corners and distances thereon noted, and all trees on the line of said road were marked on each of the sides thereof corresponding with the direction of said road, with three notches cut through the bark and one inch into the wood, and all trees adjacent to the said line of said road were plainly blazed on the side facing said road. The beginning and termination of said road and the termination of each mile and intermediate points have been marked in the manner provided by law, as will more fully appear by the certified return of the survey of said road which is herewith attached and made a part of this report.	
That in our opinion the said road should be established for the following reasons:	
It is needed by the adjacent settlers and the public.	
We consider that the SW 1/4 SW 1/4 sec. 15 Twp. 23 R. 44 E. W. M. claimed by B. B. Bord will be rendered less valuable to the amount of \$100.	
We consider that the W 1/4 NW 1/4 sec. 15 Twp. 23 R. 44 E. W. M. claimed by J. Hays will be rendered less valuable by the establishment of the proposed road, to the amount of \$150.00	
Dated this 23th day of July 1909.	
H. E. MERRYMAN, County Surveyor.

Photograph Volcano For Moving Pictures

Seattle, Sept. 6.—In making the moving picture film showing the volcano of Kilauea in action, the artist, Bonine, encountered many difficulties. In the territorial exhibit of Hawaii shown at the Alaska-Yukon-Pacific Exposition, the big scenic feature of the Hawaiian Islands was necessarily included. The noted moving picture artist was engaged by the Government to secure a set of films showing the volcano just as it appeared in action.
In doing this Mr. Bonine had many difficulties to overcome. The heat near the crater is always intense, and

when the lava is flowing freely, a close approach is nearly impossible. In making the exposures, the camera could not be kept in position for a longer time than one half minute. The heat would destroy the plate or film and render it useless. The artist enveloped himself in a covering of asbestos, and the camera was protected by the same material. By doing this, and by making only three very short exposures, Mr. Bonine by his great patience, secured a wonderful set of pictures, absolutely correct in every detail.
In looking at them as they are run through the moving picture machine in the Hawaiian Building, the reproduction of Kilauea in action seem perfectly and beautifully. From the bottom of the crater the great streams of molten lava are seen rushing and surging above the huge cauldron in which the Goddess Pele makes her home; the steam and sulphurous smoke blows and drifts in clouds and one looks on the greatest demonstration nature can present. The picture requires twenty minutes in presenting, and required many weeks in making.
A model of the old Mayflower has been built on Lake Union as a feature of the New England Day celebration at the Alaska-Yukon-Pacific Exposition, September 11. Bearing a crew of 120 "Pilgrims", who will represent the different people who made up the party of the original Mayflower, the ship will land its passengers on a model of Plymouth Rock located at the foot of the Pay Streak of the Exposition.
The party will be dressed in the old Pilgrim costumes and will present a quaint appearance as they land from their ship. They will be met by a party of Indians, who will be secured from one of the attractions on the Pay Streak for the occasion, and a pow-wow will ensue, which will end in the smoking of the pipe of peace.
Then the party will march through the grounds to the Puritan Inn on the Exposition grounds, where they will be served with an old New England dinner. The bill of fare will include the well-known Boston baked beans and brown bread.
A letter has been received by the Seattle-New England Day committee from Governor Quimby of New Hampshire, in which he states that he has delegated Mr. Goodell to represent him. Among the distinguished visitors who will speak at the afternoon exercises in the Auditorium is Ex-governor Rollins of New Hampshire, the father of "Old Home Week". An original poem on New England Day will be written by Sam Walter Foss, whose name appears in the Boston Hall of Fame. This poem will be recited by Mrs. A. Warren Gould.
