COUGHING BURST BLOOD VESSEL

Says Danger Avoided and Cures Coughs in 5 Hours.

A writer for the medical press states that coughing is responsible for the bursting of blood vessels quite frequently. A cough or cold means inflammation (fever) and congestion, and these in turn indicate that the body is full of poisons and waste matter. Simple relief, as found in patent cough medicines, and whiskey, often result in more congestion, and the cough medicines, and whiskey, often result in more congestion. cough medicines and whiskey, often result in more harm than good; as they cause more congestion. A tonic-laxative cough syrup will work marvels and here follows a prescription which is becoming famous for its prompt relief and thorough cures. It rids the system of the cause, except it be consumption. Don't walt for consumption to graspita victim, but begin this treatment which cures some in five hours. Mines in Strike.

SMELTERS MAY BE THE NEXT HIT

Work-Sheriff Warns Strikers He Will Shoot.

Butte, Mont., Sept. 25.—Every mine in Butte is shut down tonight and 10,-If the suspension continues for five days the smelters and other allied industries will be forced to suspend.

The trouble was caused by a majori-ty of Engineers' Union No. 83 having seceded from the Western Federation of Miners and organized a new union, The Butte Miners' union ordered its members not to go to work in mines employing members of the new engineers' union.

The evening was ushered in with great excitement, when nearly 2,000 miners surrounded the shaft of the Gagnon mine, apparently for the purpose of mobbing 28 miners who defied the command of the union to stop work. A detail of 15 policemen with Captain Thomas Norten in command hurried to the scene, and reinforced by Sheriff John K. O'Rourke, with every deputy of his office at his back, succeeded in reaching the shaft mouth.

Mounting a pile of timbers, the sheriff in plain language told the crowd that the officers proposed to protect the Gagnon miners and intimated that any attempt at violence oupon the part of the strikers would result in shooting.

It is hardly likely that work will be resumed before a week, and the various smelters throughout the state may be compelled to suspend operations.

WRECK AT SEATTLE.

Trolley Car Jumps Track and Crashes Into Corner Cafe.

Seattle, Sept. 25.-Of the 80 passengers on a big Wallingford avenue car that was wrecked at the curve near the main gate of the World's fair, shortly before noon yesterday, not one escaped being cut or brused or sharply shaken, but it is believed that none of the injured will die. Frank Hull, of Tacoma, aged 46, an Oddfellow attending the festivities accompanying the Sovereign Grand lodge meeting, died an

hour after being taken from the wreck. The car got beyond control of the motorman, attained a speed of 30 miles an hour at the corner of Fourteenth avenue, Northeast, and East Fortieth street, careened, left the track and crashed into a one-story building at the southeast corner of the crossing, de-molishing the flimsy building, splitting and wrecking the car and hurling the passengers forward with frightful force

Every pane of glass in the car was broken and the jagged pieces showered upon the passengers, who were tossed one upon another in indescribable confusion.

WRECKAGE LINES GULF.

Southern Coast Strewn With Broken Ships and Launches.

New Orleans, Sept. 25 .- With the ist of dead from Monday's tropical hurricane well above 100 tonight, every indication points to a much larger number of victims. Many small sloops and launches are lying wrecked on the Gulf shore of Louisiana and Mississippi, and there is little doubt that some of their occupants are lost.

Anxiety for the safety of steamers bound for New Orleans during the hurricane period on the gulf, has been relieved. Nearly all of these vessels were many hours late, but finally arrived at this port with the exception of the Utstein, which is four days overdue from Puerto Cortez. She was reported today to have gone aground off Seashore light near the mouth of the Mississippi, with no loss of life.

Juarez Bomb Harmless.

El Paso, Tex., Sept. 25.—It developed today that there was no plot connected with the finding of a supposed bomb in Juarez, Mexico. The "bomb" proved to be a small pepper box, three inches long, an inch and a half in diameter, and containing a substance like paraffine poured over the top. Even had it been exploded it would have done no harm. The police have arrested an American tramp who had been sleeping on the premises of Senor Arguelles and had been ordered away. He had made threats against Arguelles.

Spain Turned Back.

Oudja, Sept. 25.—Native reports say that the Spanish advance toward Selouan on September 20 was stopped and turned back by a strong body of Riffians. Similar reports were current during the operations at Souk Beni Sicar, when a number of the tribesmen, fighting for the Spanish cause, were said to have deserted to the enemy, forcing the Spanish troops to retire to Melilla. These reports probably are the basis of a rumored Spanish reverse.

Hundreds Flee in Skiffs.

Biloxi, Miss., Sept. 25.—About 500 storm sufferers are homeless at Bayou la Manre, near the mouth of the Mississippi river, and two lives were lost there. The water rose eight feet in the Mississippi river.

THE CENSUS POSITIONS.

Appointment Clerk Pindell Explains Method of Application.

Washington, Sept. 24, - Appointment Clerk Pindell, of the U.S. Census bureau, states on the subject of the census examination, October 23d, that the distinction between the permanent census force and the additional temporary employes provided by the Thirteenth Census act is quite important and should be remembered. As vacancies occur on the permanent census they will be filled, as heretofore, by transfers from elsewhere in the service, or by selections from the existing registers of the civil service

Persons now on the registers of the 000 men are idle, with the prospect of appointment to vacancies on the perm5,000 more being thrown out of work. anent census roll, but there is no greatcommission are, therefore, eligible for appointment to vacancies on the permer opportunity during the decennial period for such appointments than there has been heretofore. The additional temporary positions, authorized by the Thirteenth Census act, except those above \$1,200 per annum which will be filled largely by transfers from the permanent census roll, will be given to those persons who pass the test examination on October 23rd. Those now on the registers of the civil service commission, who desire appointment to these additional census places, should take the test examination as their present eligibility avails them nothing in respect to appointments to these posi-tions. The fact that a person is on the civil service register does not prevent him from taking this test examinstion.

Blank application forms and the circular of instructions were ready for distribution by September 10th. soon as the applicant completes his ap-plication in every respect, it should be addressed and forwarded to the U.S. Civil Service commission, Washington, D. C., and not to the census bureau. Care should be taken that the envelope containing the application is properly addressed and sufficient postage stamps are affixed. If the application is satisfactory a card will be mailed the applicant and it will admit him to the examination. An application must be filed in sufficient time to arrange for the examination at the place selected. No request will be granted for an examination otherwise than as scheduled for the cities and states on October 23rd.

TAFT STARTS WATER.

Opens Gates to Famous Gunnison Tunnel in Colorado.

Montrose, Colo., Sept. 24.—President Taft spent yesterday on the western slope of the Rocky mountains amid a succession of magnificent scenes. In many respects his day was one of the most interesting he has had since leaving Boston.

Late in the afternoon Mr. Taft stood on the brink of the deepest irrigation ditch in the West and far out in the foo hill of the mountains, with not a settlement in sight, made the electrical connection that started a flow of water through the Gunnison tunnel that will reclaim 140,000 acres of arid The greatest irrigation project the United States government ever has undertaken was thus put in operation and the opening was the occasionl of a joyous celebration throughout the

valley of the Uncompangre During his travels yesterday the President had ample opportunity to study the effect of irrigation. For a long time his train ran through stretches of country where as far as the eye could reach the only vegetation in sight consisted of a few greasewood bushes or sagebrush. Then out of a rocky canyon the train would suddenly come upon a veritable oasis, where fields of alfalfa and miles of orchards told of the miracle wrought by the

touch of water. The tunnel has been hewn through six miles of a mounntain range and when the project is completed next spring it will divert the waters of the Gunnison river, now flowing to the Gulf of California, to the valley on this side of the mountains, where miner private projects of irrigation already have told the wonders of the soil.

Big Timber Deal.

Vancouver, B. C., Sept. 24.-A large timber deal whereby A. B. Kurtz, of New York, president of the American Financial Securities company, acquires 54,000 acres of timber land in the Cowichan lake country, was practically consummated today. The purchase price was in the neighborhood of \$1,500,000, and the new owners are to spend \$500,000 more in the development of the property by the erection of a sawmill and the laying of spur tracks. The Canadian Pacific railroad will build a branch line to tidewater.

Madrid Denies Defeat.

Madrid, Sept. 24.—The government is either unwilling or unable to give a statement of the Spanish casualties in the latest fighting with the Moors in Morocco. The news of a Spanish defeat received at Paris is discredited here, and the government declares the Spanish victory is complete. It is an-nounced that the tribesmen are expected soon to ask for peace. It is known that the loss has been heavy. It is said 400 were killed on each side.

Frederick Grant for President Chicago, Sept. £4.—Major General Frederick Dent Grant, son of the famous leader of the Union forces during the Civil war, is being boomed as the presidential candidate of the Prohibition party in 1912, by members of the the houses and the people saved their organization who are assembling in lives by taking skiffs and rowing up this city to celebrate the fortieth anniversary of the birth of the party.
