BIG INCREASE IN COUNTY'S WEALTH

ASSESSED VALUATION WILL
PROBABLY REACH \$8,500,000—
RAILROAD HEADS LIST.

While County Assessor Miller has not run up the totals on the assessment rolls, he estimates from the increases on different classes that the total valuation will run over \$8,000,000 and possibly pass the eight and a half million mark. The railroad assessment alone is an increase of nearly a million. In March, 1908, the O. R. & N. owned no property in the county except a right of way, whereas last March the track was all completed and the road in operation.

The O. R. & N. valuation made by Mr. Miller is in round numbers \$1,117,000, or over one-eighth of the assessed valuation of all property in the county. The track is assessed at \$25,000 per mile, and besides that the company owns 40 acres of land in each of the four towns and the improvements thereon.

The basis of assessment of timber lands is the same as last year, \$1000 per quarter, but there is an increase in total amount as many claims were patented during the 12 months. The timber holdings of the George Palmer Lumber company are assessed at \$335,955, the next largest is the Grande Ronde company for \$84,090, followed by the Nibley-Minnnough company for

\$28,170.

Mr. Miller reports a slight increase in sheep, about a stand-off for cattle, a slight decrease in hogs and an increase in horses.

There is an increase in mercantile stocks, and he has found the usual amount of money and credits. Valley land valuation is increased from 15 to 20 per cent.

LA GRANDE FAIR WAS BIG SUCCESS

WALLOWA DAY ATTRACTED
300 EXCURSIONISTS FROM
THIS COUNTY.

About 300 people went to La Grande from this valley Thursday on the special train provided for Wallowa Day at the La Grande fair. Over half of the number boarded the train at Enterprise. Agent Butler sold 152 tickets to La Grande for the special train and 20 for the regular train Thursday morning. The Joseph Herald reports 52 sold at the Joseph station, and the Wallowa Sun says fully 75 people went from here, although but 48 tickets were reported sold by the Wallowa agent. Eighteen tickets were sold at Louisa.

The Joseph Herald says there were 52 tickets sold at the station there, "more than were sold at all the other Wallowa county towns combined." This was evidently one of Editor Shutt's jokes as there were three times as many tickets sold at Enterprise as at Joseph.

The excursionists spent a pleasant day and returned with only words of praise for the fair. The exhibits of agricultural and horticultural products were large and of excellent quality. There were no Wallowa county exhibits to speak of, due to lack of organized effort in this county by anyone representing the fair.

Wallowa Day eclipsed all other days at the fair for attendance both foreign and local, said the La Grande Observer.

The excursion train left La Grande near midnight and did not reach Enterprise until 5 o'clock Friday morning.

BOTH BOYS SAVED.

Louis Boon, a leading merchant of Norway, Mich., writes: "Three bottles of Foley's Honey and Tar absolutely cured my boy of a severe cough, and a neighbor's boy, who was so ill with a cold that the doctors gave him up, was cured by taking Foley's Honey

and Tar." Nothing else is as safe and certain in results. For sale by Burnaugh & Mayfield.

Slates and tablets, pencils and pens—in fact everything needed by a school pupil—at Jackson & Weaver's.

At the regular meeting of the city council, Monday night, October 4, a motion was adopted allowing any citizen who desired to advance money to extend the water system, to do so and the amount so advanced to stand to his credit against water rent. This action was taken as it is understood a few property owners where the mains do not reach, desire to take this method of securing water without delay.

Hawley's System To Build To Coast

Minneapolis & St. Paul Coming
West—May Be North Coast
Backer.

Minneapolis, Minn., Oct. 7.—Indications of a substantial kind point to the building of a fourth transcontinental line from the Twin Cities to the Pacific Coast in the near future. This new coast line will be an extension of the Minneapolis & St. Louis.

Word comes from Lebeau, S. D., the present western terminus, that E. D. Sloan, locating engineer, has been ordered to proceed at once with a survey across the Cheyenne Reservation to the Montana line. While the Minneapolis & St. Louis officials here will not discuss the matter, it is believed in well informed circles that this evidences an intention on the part of the Hawley interests to build through to the coast.

There has been great activity all along the Minneapolis & St. Louis since the new management took charge. Both Edwin Hawley, chairman of the board of directors, and J. P. Shoats, president of the road, are known as aggressive railroad builders. Mr. Hawley now controls the Chesapeake & Ohio, Chicago, Cincinnati & St. Louis, Iowa Central, and Minneapolis & St. Louis. Thus he rules a system extending from the Atlantic to western South Dakota and it is only natural that he should seek to extend this system across the continent.

As one official of the Minneapolis & St. Louis stated recently, Mr. Hawley seems destined to inherit Harriman's mantle, judging from his present activities.

Edwin Hawley, owner of the M. & St. L. and other railroads aggregating nearly 5000 miles of trackage, is said to be the coming railroad king. He is the only man that ever beat Harriman at the latter's own game, and he wrested the Chicago & Alton from Harriman. He has the support of big capitalists and is one of the few men who could put up the millions that Strahorn has been spending on the North Coast road, and Wall street be in the dark as to where the money came from.
