

# SEALY MATTRESS

Not Tufted  
Guaranteed 20 Years

Morris Chair, Spring Rockers, Fumed Oak Rockers, Standing Work Baskets. RUGS of all kinds. Old Hickory Chairs which can not be broken and will last a life time.

# FURNITURE

I have taken great care in selecting my stock for this Fall's business, getting one car of goods from the East and have just unloaded another from the West, thus getting the best things from both sections, and the benefit of buying in large quantities. My stock is the most complete in Wallowa County, such as the Sealy Non-Tufted Cotton Mattresses, guaranteed for 20 years; The Globe Wernick Elastic Book Cases, new and up-to-date patterns in Bedsteads, Extension Tables, Davenport and Lounges; the reclining Royal

## DENMARK ABOLISHES POVERTY AMONG THE AGED.

With old-age relief, Denmark has had a striking experience in proof of the ancient maxim, "The more you do, the more you may do." In 1893, about 43,000 aged persons were enjoying a subsistence from the community in 1905 there were nearly 67,000. There has been no increase in poverty or in population, to explain this growth; and it seems that the larger number must be accounted for by the fact that now, as age comes on, the individual begins to arrange his affairs so that he can obtain the government help. Furthermore, the average amount paid out per person has, since 1894, gone up from \$18.30 to something more than \$26. But Denmark is a land of prosperity; the expenditure if divided among all the people would be only about thirty cents for each, and even though the Danish old-age provision is expensive, no one cares.

One advantage of the Danish law over the German plan is that it protects all the aged and deserving poor, and not merely the former employees of industry. Except for the demand that the applicant be deserving, no class is selected for protection.—R. W. Child, in Everybody's Magazine.

### Marriage Licenses.

October 13—George Faught, 67, miner, Joseph; Ellen Foster, 50, Joseph.  
October 14—Rudolph Bork, 24, farmer, Flora; Rena Miller, 17, Flora.  
October 14—G. C. Whitmore, 24, farmer, Enterprise; Martha Surber, 17, Enterprise.

### We'll Know Hotel Keeper Uses and Recommends Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I take pleasure in saying that I have kept Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family medicine chest for about fifteen years and always has satisfied my needs and have never failed to relieve them," says J. C. Jenkins, of Glasgow, Ky. This remedy is for sale by Burnaugh & Mayfield.

## NEW FAST MAIL IN RECORD TIME

FASTEST RUNNING EVER ON WESTERN RAILROAD MADE BY O. R. & N. TRAIN.

The fastest railroad time ever made in the west was that of the new fast mail Monday night of last week, when the time from Nampa to Huntington, 82 miles, was made in exactly that number of minutes, or an average speed of a mile a minute, reports the La Grande Star. The train left Nampa behind time and the shortage was almost made up in the run to Huntington. The same night the train made the distance of twenty miles between Baker City and North Powder in twenty-one minutes. On portions of this run the speed indicator showed a rate of sixty-six miles an hour.

Engineer Jack Carlson took the train out of La Grande and made the run to Umatilla in three hours and ten minutes and at that point all but ten minutes of the lost time had been regained. This is the fastest train running ever done over the mountain roads in the west.

The O. R. & N. will expend \$300,000 for improvements on the La Grande division, mostly for 15 new sidings between Duncan and Baker City, but by far the heaviest work will be at Perry. There the deep cut west of the station will be widened 27 feet to make room for a new side track to hold 60 freight cars. All the new side tracks will be 3000 feet in length.

The Kamela station is to be discontinued and the train crews heretofore there will be moved to La Grande and Gibbon.

### WORK ON ROAD FROM RONDOWA TO PROMISE

Work will begin in a few days on the new county road to connect Rondowa with the Grossman and Promise country, so says a report from Rondowa. There is considerable activity at

the Junction and near there, King and Stanley, logging contractors for the Palmer Lumber company, have full force of men at work, getting out the timbers and loading the same on cars. The mill company has put in a pier a quarter of a mile long. They have established a good-sized camp on their own property just north of Rondowa.

John Anthony is engaged in clearing ground on the west side of the Grande Ronde river for an orchard. The postoffice at Rondowa will be a money order office on and after January 1.

## Taking Religious Census Of Town

Part of Preparatory Work For Big Revival That Will Begin October 24.

The executive committee in charge of the arrangements for the revival reports satisfactory progress. A religious census of this city and vicinity is being taken by assigned workers, and invitations to attend the meetings have been sent to every family in the city and surrounding country. Attractive hangers and window cards, advertising the meetings, have been gotten out and distributed.

The meetings begin Sunday, October 24. Christian people of all the evangelical churches are holding union prayer meetings and next Sunday evening there will be union services in the Methodist church.

Every word that comes relative to Dr. Pratt, who will conduct the revival, is a word of praise. Here is a testimony from the North Dakota Evangelist:

**An Appreciation of J. R. Pratt.**  
One of the strongest, if not the strongest character on the program of the Bible Conference was that of Dr. J. R. Pratt of Albany, New York. All the speakers were of a high type but it seems to us as we listened and as we watched others that Dr. Pratt was the mightiest among the mighty. The personality

## WILL WORK SNAKE RIVER BLACK SAND

IDAHO COMPANY TO INSTALL BIG REDUCTION PLANT AT OLD'S FERRY.

The black sands along Snake river are to be dredged and worked by a new process discovered by a Chicago chemist, Professor Eckstein. Experiments made with the sand have demonstrated that it is very rich in gold.

The Idaho Pioneer Mining company that has for the past three years been operating a dredge in Snake river at Old's ferry is arranging to install a large reduction plant at that point to work the black sand that is found in the river and brought up by the dredge. The company owns a large amount of ground at Old's ferry and can keep the plant employed constantly, says the Baker City Democrat.

It has been demonstrated that the Snake river is the richest gold field in the world today. Colors have been found in the river from its head to the mouth in sufficient quantities to demonstrate that with the proper appliances and plants to save it that it would be the most productive placer mine in the world.

### BRANCH LINE BUSY.

From La Grande Star.  
There is a very heavy volume of business over the La Grande-Joseph branch of the O. R. & N. The rule is to send out from ten to fifteen empty cars from various points on this road each day and they usually return at night loaded with products of one kind and another for outside shipment. And even at this rate demand for cars is in advance of the supply.

### CAR LOAD LOTS.

The following car load lots have been received at the Enterprise station during the last few days:  
2 cars of coal for the E. M. & M. company.  
1 car of farming implements for

the E. M. & M. company.  
1 car cement for the E. M. & M. company.

1 car shingles for the E. M. & M. company.  
2 cars miscellaneous freight for the E. M. & M. company.

1 car miscellaneous freight.  
1 car of shingles for Riley & Riley.

1 car of coal for Riley & Riley.

Mrs. Henry Proctor of Elgin visited her daughter, Mrs. Charles Hug, and family, for a few days, returning home Saturday.

## Winter Wheat Is Splendid Quality

Conclusive Proof Is The Flour Turned Out At Enterprise Mills.

The Enterprise roller mill is receiving splendid wheat these days and wagons are standing in line waiting to unload. The fall sown grain is especially of fine quality and Miller J. C. Rennie praises it highly. The result is that never has this mill, noted for 20 years for its excellent flour, turned out a better quality than this fall.

The Enterprise mill is as old as the town. That is, it was started about the same time the town was, but its equipment is new and up-to-date, no better in Oregon. All the latest improved appliances for making the best flour are found in the mill. It has a capacity of 50 barrels per day and runs practically the year around. It is run by water power. The old reliable brands of flour known the county over, are the Calla Lily (patent), White Loaf and Pride of Enterprise.

### RAILROADLESS DISTRICT CAN SECURE A RAILROAD

From the Labor Press.  
In Idaho and Oregon within the last two years ten conventions and representative gatherings have met to consider the construction of railroads by districts, the money to be secured by bonding the land benefited. Railroads make land more valuable. They add from \$20 to \$500 an acre to agricultural land, especially in the state of Oregon, where they make fruit shipments possible. In California irrigation canals costing many millions have been constructed in this manner. The construction of railroads by bonding the lands benefited and keeping the enormous values thus created in the hands of the people owning the land instead of in the hands of Wall street speculators may seem a little startling, but if the people are willing to let any railroadless district try it perhaps it may be a way out of paying dividends on watered stock or doing without transportation. It is up to the people.

Money spent on booze is wasted, spent on clothes is vanity, spent on food is gone and fooled away is wicked; but money spent for seed or a fruit tree is wisely invested.

## TAFT DID VISIT OREGON BUILDING

REPORT IN PORTLAND PAPER NOT CORRECT—BERRY LAND \$1000 PER ACRE.

President Taft did visit the Oregon building at the Seattle fair, and remained in it so long that the fair official who was acting as guide remarked they had better be going. The big, genial President laid his arm on the official's shoulder and laughingly said there was plenty of time.

A Portland paper had a long editorial complaining that the President was not shown the Oregon building. W. W. White of this city, was standing near the entrance of our state building when the President entered it, and was told of the remarks above quoted by a man who heard them.

Mr. White heard the President's speech delivered in the vast natural amphitheatre on the fair grounds. A crowd of nearly 25,000 people were within hearing of Mr. Taft's voice.

Mr. White, who is an old stockman, is especially enthusiastic in praise of the fine show of stock at Seattle. The best animals in the world were on exhibit there.

Mr. and Mrs. White stopped a day at Payallup coming from Seattle and they report the colony of former Wallowans in good health and prosperous. Mr. and Mrs. Robert Rice, James Tulley, Mrs. Larkin (formerly Miss Newby of Joseph) and Editor Gwilliam, formerly of Joseph, reside at that place. Payallup is a great berry center, especially black and logan berries. Berry land sells for \$1000 an acre.

Mr. and Mrs. White visited in Polk county and Salem also before returning home. At Salem they saw Albert Chenoweth, formerly of Alder Slope. He has been quite ill, but is convalescent.

### CITY FOOTBALL TEAM ORGANIZED LAST WEEK

A city football team has been organized and is practicing nearly every evening. There are a number of strong players in the line-up and the team as a whole ought to be able to give a good account of itself.

A game has been arranged with Joseph on the Enterprise grounds for Saturday afternoon, October 23.

Following are the names of the players: Conaway, Blyeu, Burnaugh, Pace, Crumpacker, S. C. Weaver, Fleener, R. Makin, Forsythe, A. Rutter, W. Bauer, Lockwood and three or four substitutes.

Whirlwind Tablets cure rheumatism in this climate. They have relieved hundreds and cured scores of cases in Union and Wallowa counties, positive proof, names, etc., furnished on application. For sale by Jackson & Weaver, Enterprise. 20bt

# OUR FALL STOCK

Corresponds With the Season's Crops---Biggest Yet.

It is none too early to begin preparations for Winter and our store is crowded with Fall and Winter goods. As schools are opening up we would call especial attention to our line of shoes for children.
