Once upon a time a child who was asked upon an examination paper to define a mountain range replied, "A large sized cook stove." The same method of reasoning seems to go with older growth. A recent examination paper at the Sheffield Scientific School at Yale contained the question, "What is the office of the gastric juice?" And the answer on one paper said, "The stomach."—Cleveland Leader.

## STORM IN JAMAICA

**Heavy Downpour of Rain Breaks All Previous Records.**

**HEAVY LOSS OF LIFE IS FEARED**

**During Four Days 48 Inches of Rain Fell—Kingston Suffers Damage of \$500,000.**

Kingston, Jamaica, Nov. 10, via Holland Bay, Ja., Nov. 12.—From the fragmentary reports arriving here from the countryside the damage resulting from the storms and floods that have raged throughout this island since last Friday is enormous.

Loss of life has resulted, but estimates are impossible.

A portion of the railway and the coast line on the north side of the island has been seriously damaged.

Property in and around Kingston suffered severely, the damage sustained thus far being estimated at \$500,000.

The recorded rainfall from November 6 to November 10 was 48 inches. The downpour continues, the daily fall averaging 10 inches. In one day the precipitation amounted to 13 inches. There are no signs of the weather breaking.

Communication was established today with the north coast by steamer.

All telegraph wires are down and messages are being sent from Kingston to the cable house by boat.

The banana plantations in the north and northeastern portions of the island have been badly hit by the storm. Thousands of acres of trees have been leveled, and the fruit trade is at a complete standstill.

The United Fruit Company's steamer Bradford, which went ashore at Port Antonio, is a total wreck. The Bradford was built at Copenhagen in 1904. She was of 911 tons net register, and was owned by M. Jensen, of Hamburg.

Numerous sloops have been lost off the coast. The Norwegian steamer Amanda was ashore at Port Antonio, but was successfully floated.

## WORKING FOLK LOSE JOBS.

**New Beer and Tobacco Taxes Cause Hardship in Germany.**

Berlin, Nov. 15.—Not only is the labor market suffering from the reduction of work in the cigar and cigarette trade as a direct result of the new taxes, but similar depressions are gaining ground in other industries, especially in that of brewers. There is every reason to believe that the depression will become more acute within the next few months, and that the Reichstag will be called upon to vote for a further sum for the relief of the workless factory hands, as the 200,000 pounds sterling already voted for this purpose is quite insufficient.

The brewers having put up the price of beer in consequence of the new taxes, the result has been a considerable decrease in the consumption, aggravated by a boycott organized by the Social Democrats. As a result of this, workmen have been discharged, and if the boycott continues the number of dismissed hands will increase. In August the average number of applicants for a hundred open situations in the brewing trade was 308 higher than in any other industry. In Wurttemberg the number of applicants showed the maximum of 385.

## MOB IS QUELLED.

**Seven Companies of Militia Restore Order at Cairo.**

Cairo, Ill., Nov. 13.—With the negro Arthur Alexander, last of those arrested in connection with the murder here last Wednesday of Miss Anna Polley, safe out of town and a regiment of the Illinois National Guard on duty in the town, the mob spirit which has held Cairo for four days seems quelled.

Alexander, reported to have been implicated in the murder of Miss Polley by the negro James, one of the victims of last night's mob, was sent to an unannounced point north of here late yesterday afternoon. He was escorted from the jail to a special train by seven companies of militia.

"That's him!" "He'll come back!" "Burn the nigger!" and "We'll get him yet!" came from the spectators.

Two sets of fours were in advance of the prisoner, who was handcuffed and flanked by deputy sheriffs. Two sets of fours followed. As the troopers swung north toward the railroad, along Twentieth street, three companies cleared the street in advance of the escort, and a like number followed in the rear, keeping back the crowds.

## WEITER IS ROBBED.

**Prominent Church Worker Makes Remarkable Confession.**

Los Angeles, Nov. 13.—A confession which officers at the sheriff's office consider the most remarkable one that ever came to their notice was made today to Sheriff Hammill by Robert Perry, a young church worker and writer of sacred songs, who was arrested several days ago for theft of a motorcycle.

Perry confesses not only to the theft of the motorcycle, but also to the theft of 11 horses and buggies, and says that all of the money he obtained from the sale of the stolen vehicles aggregated several thousand dollars, and had been spent at gambling.

Perry tells the sheriffs the probable whereabouts of one very valuable horse which he says he stole, and which the sheriff has been searching for for several weeks. The remarkable confession ends with a prayer to God to aid the sheriff to recover the stolen property and return it to the rightful owners.

## Tong War Goes to Court.

San Jose, Cal., Nov. 13.—The feud between the On Yiek Tong and the Yee family took a new turn tonight when Lee Log Ling, head of the Yee family, surrounded by armed white guards journeyed by automobile from San Francisco to this city and completed arrangements for the prosecution of Wong Mgoon and Louie Ling, the alleged murderers of Yang Toy at Mountain View. After a council at the county prison, where the seven accused On Yiek gun men are imprisoned, Yee Log Ling swore to charges of murder against the two alleged highlanders.

## Desert Yields Autoist.

Phoenix, Ariz., Nov. 13.—Charles Harris, driver of the "baby" Ford car in the Los Angeles-Phoenix road race, who became lost on the desert during the race, was found by a searching party today about 90 miles from Phoenix. He was utterly exhausted by his experience, having been without food or water for 30 hours. Harris was delayed by a breakdown and became lost at night in the barren mountains. For two days he drove his car over the desert sands, looking for a road.

## British Cabinet May Quit.

London, Nov. 13.—A report is current here that should the House of lords reject the budget, Premier Asquith and his cabinet would immediately resign.

## PERISH IN MINE.

**Coal Shaft at Cherry, Ill., Scene of Terrible Disaster.**

Cherry, Ill., Nov. 13.—At least 250 miners were killed here Saturday, in one of the worst mine disasters of history. The St. Paul Coal company's mine, owned by the Chicago, Milwaukee & St. Paul railroad, is the scene of the horrible disaster.

Figures differ as to the number of men in the mine at the time of the fire. Officials of the company insist that the list of fatalities may not reach 250, but the miners say that over 400 workmen were in the mine when the fire started and that few had opportunity to escape.

Fire started from a pile of hay into which a miner is believed to have thrown a torch. Flames quickly spread to the timbers and in a few minutes the passageways were a seething furnace, and escape was impossible.

Men who volunteered to enter the burning mine were brought out dead. Twelve bodies have so far been recovered, many of these being men who attempted to rescue work.

Water turned into the shaft made no headway against the flames, and early in the afternoon the mine was sealed up in the hope of checking the flames.

The survivors said many of the miners had retreated to the furthest ends of the veins, where they might huddle together, gasping what little oxygen remained in the sealed and burning mine in the hope that the rescuers might reach them before it was exhausted. The most hopeful of those seeking to aid the men doubt that many will be found alive.

The only men to escape were those near the main shaft when the fire started. They declared a careless miner had thrown a torch on a bundle of hay used to feed the mine mules. In a few minutes the smouldering mass was placed on a cart and started toward the main shaft about 150 feet away. Before it was reached a small explosion occurred and in a few moments the entrance was filled with smoke and flames. Those nearest the cages hurried to them and were hoisted to the surface. After four trips the cages ceased moving and no more miners came up.

## Land Fraud Indictments.

Portland, Nov. 15.—Indictments charging them with forming a conspiracy to defraud the United States government out of about 7,000 acres of land in the vicinity of Irrigon, Umatilla county, Oregon, were returned by the federal grand jury Saturday afternoon against J. Thorburn Ross, Frank B. Holbrook and John E. Aitchison, all of Portland. These men have been officers of the Oregon Land & Water company, a subsidiary corporation of the now defunct Title Guarantee & Trust company, and as officers of the former company they are charged with having committed the crime named.

## Government Forces Prevail.

Mexico City, Nov. 12.—That the Nicaraguan government forces expect immediately to retake San Juan del Norte, near Greytown, is the statement of President Zelaya in a dispatch to the Nicaraguan minister, Francisco Castro. The dispatch denies a report of the rebels' victory over the government troops at Guasaca, in which it was said more than 400 government soldiers were lost, several days ago. The message says the government is triumphant on all sides.
