Inexpensive Candle-Shades.

At the five and ten cent store may be found Japanese candle-shades made with black lacquer frames and (generally) red Japanese paper. Tear out the paper and replace with panels of grass-cloth, silk, satin or even paper, which may be decorated with some artistic design, if preferred. This is an excellent way to follow out the color scheme of table decorations for dinner or luncheon in the candle-shades.—Woman's Home Companion for December.

The jewelry store of Carpenter & Larsen was closed by the sheriff, Friday, on a writ of attachment sued out by Herbert Knox & Co. of Copperfield for a debt of \$287.

Cannon Is Enemy Of Real Progress

Speaker Set Against Measures That
Help Oregon and All
Northwest.

The Portland Journal epitomizes the reasons why Joe Cannon is a stench in the nostrils of decent men everywhere regardless of party, in the following vigorous summing up:

Cannon is narrow, fossilized, bigoted, vindictive, vengeful and in every way set against progress and the interests of the people. He stands against waterways, against reclamation of arid lands, against postal savings banks, against the parcels post, against conservation of coal lands and other national resources, against lessening the burdens of the people by lower tariff taxes. He stands for everything that colossal robbers of the common people want, for every swindling joker and trick in tariff trust, the steel trust, the coal trust, and every other chousing and gouging scheme of syndicated capitalists and vampires that can be proposed.

And the twin burden and iniquity of Cannonism in the house is Aldrichism in the senate. They are becoming intolerable to the rank and file of Republican voters, and either the Republican party will unload them in the near future or it will go out of business.

O. A. C. Making Extensive
Plans.

Oregon Agricultural College, Corvallis, Dec. 30.—Special.—The animal husbandry department of the Oregon Agricultural College is now hard at work making quite extensive plans for the coming short course to be held from January 4 to February 12. Work will be given in veterinary science, breeding, feeding and judging. The feeding and judging will be the most complete. The judging will consist of actual practice in judging at the barns. All the stock of the college will be available for this purpose, and in addition some very fine animals will be shipped in from the occasion. A. C. Ruby of Portland will ship down 12 head of his very fine imported stallions from that city among which will be three Percherons, three Belgians, three Shires and three German Coach. Most of these animals have been imported during the past few months and are a very high class of horses. They will be a show in themselves. However, they will not be here all of the time during the short course, but only during the second week, January 9 to 15.

Another feature will be the Short-horns and Southdowns sent by Frank Brown of Charleton, during the fifth week of the course. The Short-horns will include the great bull Wapate and a number of females of well known merit. The Southdowns will include some of the prize winners that made such a stir at the fall fairs.

No entrance requirements are made for any of this work and it is intended that work will be of such a nature that it will benefit any one from the inexperienced boy to the expert stock man. Fare of one and one-third on all railroads.

CUT OF NATIONAL FOREST TIMBER BIG

TOTAL OF NEARLY HALF BILLION BOARD FEET USED DURING YEAR.

"The total cut of National Forest timber during the year was nearly 460,000,000 board feet, of which over 100,000,000 feet were given away under free-use permits," says the Secretary of Agriculture in his last annual report which has just been made. The timber acquired under free-use permits was used by settlers, schools and churches within the forests. The Secretary says that the receipts from timber sales were about \$700,000, and continues:

"Free use of timber was heaviest in Idaho, with over 18,000,000 board feet, followed by Montana, Colorado, Utah, and New Mexico, with amounts ranging from nearly 17,000,000 to less than 10,000,000 feet. California, Wyoming, and Oregon had each a free-use cut of between 6,000,000 and 7,000,000 feet. The remaining National Forest states follow with lesser amounts.

To Our Friends and Customers and also those who are not our customers we wish A HAPPY NEW YEAR

Our business relations for the past year have for the most part been pleasant, with the exception that our re-building and consequent confusion has prevented us from giving at all times the prompt service that we wish to give.

Our troubles in that line are now nearly over, however, and we want you to call on us in our new and enlarged quarters. Our stock will be larger and more thoroughly departmentized and our aim will be to keep every department stocked with the latest and best goods and to guarantee satisfaction in every detail.

We are offering special inducements now in a great many lines of seasonable goods, especially Ladies' Coats and Furs.

Come in and see us anyway.
