The Ancient Brahmans. The Brahmans were the lawyers, priests, professors, the sole instructed class, the sole authorities on taste, morality, the sole depositaries of whatever stood in the place of science. Everybody was to minister unto them, everybody to give way to them. The Brahman was above the law. He was "not to be subjected to corporal punishment, must not be imprisoned or fined or exiled or reviled." In the law of the Vishnu it was written: "The Brahmans sustain the world. It is by the favor of the Brahmans that the gods reside in heaven." Under English rule and ideas the ancient caste has lost some of its prestige, but is still a forcible reminder of its former grandeur.—New York American.

COMMERCIAL CLUB BOOSTER SOCIAL

LARGE CROWD AT FRATERNAL HALL LISTENS TO FINE PROGRAM.

"Enterprise Does Things." Monday night the Commercial club entertained in regal manner at Fraternal hall, and probably every home in Enterprise was represented in the large assemblage that filled the hall. S. L. Burnaugh presided and the program went off as advertised without a change, except for the absence of Hon. Walter Pierce, who was to deliver the address, and was unable to reach this city because the train was delayed by a slide.

The program opened with two beautiful piano solos by Miss Conway, the second in response to the hearty applause accorded her opening selection. Other musical numbers on the program were a superb vocal solo by Miss Browning, which was so roundly applauded that she graciously responded, and some fine selections by a quartet composed of Miss Browning, Mrs. F. A. Clarke, Herbert Browning and C. S. Bradley.

Miss Brakel, who recently came to Wallowa county from Portland, delighted the audience with her brilliant violin playing, kindly answering the continued applause with a second number. She was accompanied on the piano by Miss Mack of Joseph. Miss Brakel is an experienced teacher of music and is now instructing the Wallowa County high school orchestra, as well as an orchestra in Joseph. She is meeting with great success here.

Mrs. A. C. Weaver appeared before an Enterprise audience for the first time, giving in a charming and graceful manner, "Jennie McNeal's Ride."

The speeches of Daniel Boyd and F. A. Clarke fully upheld the reputation of these gentlemen for always being able to say the right thing at the right time. Both speeches were witty and entertaining, but sound in thought and loyal in spirit.

A beautiful streamer bearing the slogan, "Enterprise Does Things," executed by Artist Oakes, occupied a prominent place across the front of the hall.

Secretary Payne had the membership book open and a large number got into the band wagon. More than fifty ladies enrolled as members of the Women's Auxiliary.

At the close of the program the banquet hall was thrown open and delicious ice cream, cake, cocoa and coffee were served from a daintily laid table.

The booster social was in every way a great success.

NOTICE.

MAL-ADJUSTMENTS VERY COMMON

The Osteopath is the master machinist whose specialty is this human machine. He knows exactly what its adjustments should be throughout; and, when good health is not resulting from its labors, he at once seeks to learn in what respect its adjustments differ from those of the normal body in which there is no blemish, or disease. The case of the human machine differs from that of the machine of metal only for the reason that when there is faulty operation defects in its adjustments are much more certain to exist. It is a proven fact that there is scarcely a species of disease, or a single case of any such species, in which either the aggravating or the pre-disposing cause is not a discoverable mis-adjustment of some parts of the structure. This

may be a displacement of the bony parts from their normal relative positions, a contracture of soft tissues, the sagging of some soft tissue part such as the stomach or intestines, or other abnormality in the structure.

In any case it causes interference with the proper circulation of the fluids and nerve force of the body, and the only hope of radical cures lies in its correction.

In the thirty-three years of its development period Osteopathy has thoroughly proven every one of these facts; and Osteopaths everywhere are proving them anew constantly by removing the structural causes of disease and bringing health even in the most difficult and abandoned cases.—Right Way.

Buttercups Blooming On Chico Hillsides

Lovely Spring Succeeds Chasimnus Freshets—Closing of School Celebrated.

Chico, March 12.—We are having lovely weather here. The snow is almost gone and buttercups are now blooming on the hillsides. Although Chasimnus has recently been very high and has washed out all the foot-logs and small bridges on the creek, it is going down some now.

Thursday was the last day of our school and an entertainment was given by the school children and a few outsiders, but there were but few visitors on account of high water and muddy roads. Our teacher, Miss Laura Weaver, left Chico for her home on Alder Slope, on today's stage.

A party was given at the home of J. T. Edgman Thursday night, for the benefit of Miss Weaver. It was largely attended by all the young people of our neighborhood. Refreshments were served at midnight, and all made merry until the wee, small hours.

Cal Monroe and Walter Daugherty are cutting wood for the Fine brothers.

Mrs. Ella Daugherty has been quite sick for the past three weeks with an abscess under her right arm, but is getting better now.

John Fine and Guy Tippett made a trip to town Wednesday.

Miss Ina Edgman was on the sick list last week.

Jack Tippett was seen in Chico Friday evening.

There was a dance at Fine's hall, Friday night.

Foot Was Amputated.

EASTERN CAPITAL INVESTS IN OREGON

CHICAGO PROMOTION COMPANY BUYS LARGE INTERESTS—BANK DEPOSITS.

Portland, March 15—Large sums of Eastern capital have been invested in this state during the past week in the purchase of the Northwest Corporation, which controls numerous gas, water and electric light and power plants in Oregon and Washington. H. M. Hyllesby & Co., of Chicago, a large promotion concern, are understood to have taken over the properties. The firm will establish an office in Portland by the first of next month and direct operations from here.

The properties bought extend from Walla Walla, Wash., to Southern Oregon. Ambitious projects yet to be completed are included in the company's holdings. Various electric lines in the two states are planned, and the development of big water powers has been outlined.

This transaction, which carries with it a very large sum of Eastern capital, shows the confidence outside investors have in the future development of this section of the United States.

Total deposits in Oregon banks, both National and State, at the close of business January 31, totaled \$91,314,138, an increase of \$1,265,388 since last November. Loans and discounts in the same period increased \$1,441,249. On the last day of January there was due Oregon banks from approved reserve agents outside of the state, a total of \$10,239,863. These figures are given in a statement issued by State Bank Examiner Steel.

Portland's big new packing plant, just completed by the Swift interests, began killing livestock yesterday. From now on, it will enlarge its operations until all the departments and allied industries are under way. It is expected to be two or three months before the big \$2,000,000 plant is in full operation. The

To Our Friends and Patrons

We desire to say that our store room and stock are gradually emerging from the state of disorder caused by the work of remodeling our building, and we will soon be ready to serve you better than ever.

The spirit of forbearance on your part, as evidenced by your liberal patronage during the progress of the work, is appreciated by us, and we desire to show our appreciation in the better service we may be able to render in the future. Our desire to better serve you prompted us to undertake the seemingly almost impossible thing, of successfully conducting a mercantile business in a building undergoing reconstruction during the winter months. The measure of success attending our efforts we leave the public to judge. If we have been successful, we owe our success largely to your indulgence and co-operation. The fact that our sales for the year were over \$25,000.00 more than for the previous one leads us to conclude that our efforts towards progress meets with your hearty approval. Your confidence and good will are more to us than money; and it is our earnest desire to conduct our business in the future in such a manner as will merit your continued confidence, good will and patronage.

Yours respectfully,

Enterprise Mercantile & Milling Company
