

LAGRANDE PEELS OFF SINGLE SCORE

GAME WITH ENTERPRISE HERE ONE OF DOWN-RIGHT BALL PLAYING.

| Standing of Clubs. | W | L | P.C.T. |
|--------------------|---|---|--------|
| Elgin | 4 | 0 | 1000 |
| Enterprise | 3 | 1 | 750 |
| La Grande | 1 | 3 | 250 |
| Joseph | 0 | 4 | 000 |

The games of last Sunday played in the Two-County league left Elgin in first place, Enterprise in second, La Grande in third and Joseph in fourth. The games both between La Grande and Enterprise and between Elgin and Joseph were good games. But that played on the home grounds here, resulting in a score of 1 to 0 in favor of La Grande and against Enterprise, was one of the best ball games ever witnessed in eastern Oregon. Both teams got down to the brass tacks of ball playing from the start. The weather condition was against the excellent playing, but the excellent playing kept right on. A high wind arose and dropped popovers squarely into fielders' mits, but the boys kept right on clouting the ball. A flurry of rain descended but the players on both sides grimly stuck to the field, "burnt" the sphere here and there, and held grimly to the business of playing ball.

At the conclusion La Grande got an even break in safe hits with Enterprise, four each. And the visitors pulled down and took back home with them one score which spelled victory.

While Enterprise is not going to be defeated, if she can help it, even by a score of 1 to 0, still a game played on the margin of 1 to 0 is an honor to both sides.

Next Sunday Enterprise and Elgin play at Enterprise.

Severe Storm Strikes At Troy

Lightning Explodes, Shattering a Big Tree and Splitting the Trunk.

Troy, May 28.—A terrific rain accompanied by sharp thunder and lightning visited this vicinity last Thursday night. The lightning struck a large tree near George Cannon's place, tore off high limbs and pieces of bark and split the tree wide open from top to bottom. The astronomer predicted an electric storm after the earth passed through the tail of Halley's comet. We wonder if the storm Thursday night was in any way connected with it?

EVERYTHING TO THE COMING FAIR

LOCAL BUSINESS AND OTHER MEN GOING TO PUT FORTH BIG EFFORT.

The Wallowa county fair at Enterprise this fall—that is the burning question at present before the people of Enterprise and very many outside in other townships. The business men of this city have taken the matter up, and have foregone any Fourth of July celebration in order to devote all the more time and money to the holding of the county fair here.

Material is Here.
The material for a successful county fair is here. All that is needed is to get representative agriculturists throughout the county interested in the matter, along with the business men of this and all other cities in the county, in order to hold a county fair that will be a credit to the whole of Wallowa county.

Such a fair would be one of the biggest advertising cards that could be presented to the prospective settlers of the future. It would be also a source of inspiration to every Wallowa county farmer and stockman.

The material already here will weigh up and score up and mark up with that of any other county in America. We have mineral in this county that would make one of the finest displays of gold, silver, copper, lime, and other rock in the world. A mines and mining section in the fair could be established, to the everlasting good of every resident of the county and to the everlasting advertisement of the county.

We have corn altitudes and climates in the county where good corn is raised annually. We have excellent fruit altitudes and some of the finest strawberries, apples and peaches that were ever put on exhibition in any fair. Wheat, oats, rye, and all small grains also are raised here in abundance. Besides all this, we have some of the finest wool, finest sheep, finest cattle, dogs and horses raised in the west anywhere.

Bring Them Together.
The county fair in Enterprise will bring all these products together on exhibition. For a visitor from the East to "drop in" and view such an exhibition would be for him, in many instances, to hurry back home, pack up, and hurry back to Wallowa county to get in the swim where values grow while he sleeps and opportunities are picked up daily every time he turns around—if he is wide awake and industrious.

Such a fair can be made to pay and clear expenses from the start. By getting representative farmers for directors, every township will have an interest in such a fair. Every township will be represented and will take pride in being represented in such a fair. And everybody in the county will vie with everybody else in exhibiting the "best" and grabbing the blue ribbons, and in attending such a fair. Let the work get under way shortly, and let it be made a Wallowa county institution. With the shoulder of every Wallowa county farmer and merchant and professional man at the wheel—and it will move from the start and move toward success.

CONSIGNMENT OF "BOOZE" TO COUNTY CHARGE

A large, juicy consignment of "booze" came several days ago to the county jail, but is held at the station awaiting an order vouchered for by the sheriff, before it will be delivered. And inasmuch as the sheriff doesn't seem to have the least inclination to permit the peddling of booze, there has been no voucher issued by him for one of the men serving time for "bootlegging."

Quite a strategy was attempted, however, in the effort to get the liquid fire and brimstone into proper circulation to irrigate the dusty throats of the thirsty. Wholly unknown to Sheriff Marvin a man appeared at the station claiming that he held an order from the county prisoner, which order was signed in the presence of the sheriff. Agent Butner, however, refused to permit the "booze" to leave the station without an order from Sheriff Marvin. Sheriff Marvin knew nothing about the consignment until so informed by Agent Butner, and consequently the "booze" remains at the station.

He is seeking a ranch, and if he finds what he is looking for here will buy and become a resident. ASSEMBLING THE NEW CAGE IN THE JAIL

William Eberlein arrived a week ago to assemble the new jail cage which arrived from St. Louis some two weeks since. Mr. Eberlein is the traveling representative of the Priley Jail company of St. Louis, being sent out by the firm to assemble the cages made by that company. The work will require several days, but it is believed that this week the new cage will be ready for occupancy.

O. J. Roe of the Mountain View Fruit farm wishes to announce that his strawberries will soon be ripe and solicits the orders of his customers at once. All orders will be filled in turn as they have been ordered, unless otherwise requested, therefore, first come, first served.

CONSIDER OPERA HOUSE PROBLEM

MATTER BROUGHT UP BEFORE THE ENTERPRISE COMMERCIAL CLUB.

One of the matters considered by the local Commercial club, at its last meeting, was that of taking up the opera house problem in Enterprise, with a view to making it pay expenses by furnishing the show-rooms with good home talent and good outside entertainments. While nothing definite has been determined upon thus far, the matter has created considerable patriotic discussion, and varying suggestions have been made.

As a rule opera houses are expensive things, but they can, again as a rule, be made to pay expenses when everybody works to that end. The suggestion that home talent entertainments be given and that outside or professional entertainments be given in addition, seems to solve the problem. Enterprise has the talent in both music and dramatic phases, and home entertainments if rehearsed well and if made to move with the proper "go" and spirit, are always attractive and well received everywhere. The home board could put on operas, dramas, old-time minstrel shows, and these with outside professional entertainments could be made to keep the opera house running and at least pay the running expenses.

What the commercial club will do, or what it will not do, is not known at this time. It is safe to venture, however, that if the members see the club's way clear to take hold of the opera house, and pay nothing above the expense of it, they will probably do so.

HARRISON MARKET SOLD TO M. A. STILLWELL

The Harrison meat market, successfully conducted by George A. Harrison, was sold to M. A. Stillwell, the deal being consummated last Saturday. Mr. Harrison retires from the business and although he has not yet determined upon just what he will become associated with, he will remain in Enterprise. Mr. Stillwell is a gentleman of wide experience in the market business and will doubtless make a continued success of the business.
