DIAZ AND TAFT EXCHANGE NOTES

President of Mexico Suggests Change in Nicaraguan Policy.

WASHINGTON.—The attitude of the Mexican government toward the Madriz cause in Nicaragua was made plainer, when correspondence which recently passed between President Diaz and President Taft on the subject became public.
President Diaz wrote President Taft, as the result of the circulation of a telegram Madriz sent to Central American governments protesting against the attitude of the United States in Nicaragua.
"If these facts are exact in all details," said President Diaz, after referring to Madriz' protest, "I permit myself in the most friendly spirit, to recommend most earnestly to your excellency that you reconsider those instructions of which Nicaragua complains to the end of permitting the government of Madriz within a prudently brief period, to accomplish that complete pacification which is offered."

Information Erroneous, Says Taft.
Mr. Taft, in reply, said:
"I esteem your excellency's friendly interest in the relation of the United States with Nicaragua. As your excellency will have surmised, the telegram which Dr. Madriz ordered sent to you, as well as telegrams sent to other governments in which the continuation of the struggle in Nicaragua is attributed to the policy of the United States, has evidently been transmitted under erroneous information with respect to the actual facts and the principles of international law applicable to the case."

Germany Recognizes Madriz.
WASHINGTON.—Germany has formally put the stamp of her approval on the Madriz government in Nicaragua.

This information reached Washington through confidential channels outside the State Department. Germany's action was taken in April, before the recent series of Estrada victories. No other European government, so far as available information shows, has adopted a similar attitude.

ENGINEER SAVES HIS TRAIN FROM HOLDUP

Clever Ruse Prevents Looting of Baggage and Passenger Coaches.

ST. LOUIS.—Cleverness on the part of the engineer prevented three men from robbing the Missouri, Kansas & Texas Southwestern flyer No. 3, near Larimer, St. Louis county, 15 miles from St. Louis, early Sunday morning. Three men were arrested as suspects, but were released after investigation.

Engineer Quinn, through a ruse, prevented the baggage car and passenger coaches from being looted. The robbers at the point of revolvers compelled the engineer and fireman to descend from the cab and go with them to the baggage car to assist in uncoupling it. When tinkering about the coupling the engineer and fireman managed to slip away in the darkness. The two started on a run for the cab. The robbers soon became aware that the crew was dashing for the cab and opened fire.

Springing into the cab, the engineer threw the throttle wide open and washed away with the train.

PROGRAMME CAUSES EMBARRASSMENT

Administration Men Charge Pinchotites with 'Packing' Congress at St. Paul.

ST. PAUL, Minn.—Charges that the national conservation program, for the session here in September, has been "packed" with anti-administration speakers, has created a furor in St. Paul. Governor A. O. Eberhardt, discussing the situation, said:

"I think the men at the head of the movement for the congress here are fair-minded enough to change the program if it is not properly balanced." The "administrationists" want Senator Nelson, and possibly President Taft, placed on the list of speakers, but it is not probable that the president would consent, because his attitude might be misconstrued.

The squabble that has arisen here gives rise to the fear that the congress may be moved to Denver or Kansas City, both of which have made strong bids for it.
