### Letter Written by L. B. Menefee, a Timberman of Portland, to Whom It May Concern:

This is to certify that I have this day paid the New York Life Insurance company for a policy of \$100,000.00 through their special representative, J. I. McKnelly. I have before me a sworn statement that he same kind of policy issued at the same age in 1907 paid a dividend in 1910 this year \$681.00. I hold one policy for \$50,000.00 in the New York Life which I have carried several years.

The New York Life is good enough for me.

Respectfully,  
L. B. MENEFEES.

### 100,000 TONS OF 10 PER CENT ORE

CONTACT MINE SOUTH OF LOSTINE AND NEAR ENTERPRISE SHOWS GOOD.

William Hunter, R. B. Bowman, O. J. Mayes and H. J. Martin, all of Lostine, were in Enterprise Tuesday on business. These gentlemen are interested in the Contact mine, just over into the range from Enterprise, and from interviews held with Mr. Hunter who has the development work in charge the mine presents an excellent showing. According to that gentleman the mine is a low grade primary proposition running from 7 to 15 per cent copper in ore quartz. This is all the more noteworthy in that the copper producers of the country from Mexico to Canada, are low grade primary deposits rather than high grade secondary precipitations. It is perhaps within the whole truth to state that the copper producers with but rare exceptions will run from 7 to 15 per cent.

There is on the surface of the "Contact" property mentioned, according to a conservative estimate by Mr. Hunter, at least 100,000 tons of 10 per cent copper ore. But the mine management does not contemplate spending the proceeds of the mine before it is an established producer, and thus development work is being prosecuted steadily with no attempt at shipments. This work has been progressing since last fall and is to be continued. Thus far the miners have reached a vertical depth of over 300 feet and have driven one tunnel 300 feet along the line of contact.

Development work, such as this company is doing, is the only thing the Enterprise mineral district needs. And the "Contact" management is to be complimented upon its conservative policy.

### Circuit Court Now In Session

First Case on Criminal Docket That of State Versus Wright Charging Perjury.

Circuit court convened Tuesday morning, Judge Knowles and District Attorney Ivanhoe arriving Monday evening.

The first case called in the criminal docket was that of the state versus Henry Wright, charging perjury. The case grew out of the trial in the May term of court in which the defendant was convicted of selling liquor in violation of law. It is alleged by the state that the defendant in testifying under oath, in the former trial, that he did not sell liquor in violation of law, thereby committed perjury.

The case went to the jury at 8 o'clock Tuesday night. The jury was out two hours, returning a verdict of guilty. The judge received the verdict and announced that sentence would be pronounced at 1:30 Wednesday.

Later, Judge Knowles pronounced sentence upon the defendant at 1:30 today (Wednesday) giving the prisoner an imprisonment of three years in the penitentiary at Salem.

Geo. D. Boston of Grouse brought in a load of fine cherries Tuesday.

### O. A. C. MEMBERS FACULTY HERE

FAIR-COMMITTEE SECURES THE SERVICE OF EDUCATORS TO ACT AS JUDGES.

At least four members of the Oregon Agricultural college will be here during the Wallowa County Fair, and will deliver lectures on various phases of the county's agricultural interests and serve as judges in awarding many of the premiums. The Fair committee should be congratulated upon its foresight in securing recognized educators who have specialized in the several branches of agricultural work.

Will Lecture Also. Each professor, in addition to serving as judge, will also deliver a lecture on some phase of farming, stockraising, grain and hay culture, and other interesting allied matters.

In this way "Dry Land Farming" will be taken up and its essential details dwelt upon for the benefit of every rancher in Wallowa county. "Animal Husbandry," dealing with breeding problems and the raising of farm stock, will be dealt with in the most effective manner by men who have devoted their lives to the study of the matter and to experimenting in it.

Other Premiums. Among the very many attractive premiums offered by the Fair association, other than the special premiums, those giving the school students of the county a competitive prize are varied and interesting—so interesting, in fact, as to be exciting.

To the girl under 16 years of age attending the Joseph school a first prize of \$5.00 and a second prize of \$2.50 is offered for the best piece of plain sewing. These prizes are also offered a similar student in any school in the county, including Lostine, Enterprise, Wallowa, etc. Then to make the matter more interesting a sweepstake first prize of \$10.00 and second prize of \$5.00 is offered in the same class to any competitor. This gives an opportunity to the plain sewing competitor in this class to win at the utmost amount of money to buy enough school books necessary to any school course in the county.

Many other prizes, both special and regular, will be given. Several of these, as before stated, will be printed in this paper for the benefit of the readers, and all will be embodied in the Fair premium list that will be issued shortly.

### Runaway Sunday Injures Two

Both Dell Sargeant and Mother Aye Bruised and Little Child Narrowly Escapes.

A runaway which narrowly proved fatal to the little 2-year-old son of Mr. and Mrs. H. H. Nottingham, occurred Sunday near the Nottingham ranch near Enterprise. Dell Sargeant and his mother were in the rig when the team of horses took flight and ran. The horses could not be held, but went headlong through a gateway on the Nottingham ranch.

The little 2-year-old son of Mr. and Mrs. Nottingham was standing innocently in the gateway, unconscious of any danger, as the frightened team made the turn. Fortunately C. M. Williams happened to be near, and running snatched the baby almost from under the plunging team. The team was finally checked and stopped. Both Mrs. Sargeant and her son were bruised but no serious injury resulted.

### NEW DOCTOR HERE.

Dr. W. L. Nichols of Portland came in on the train Friday with Dr. Moore, who has been attending to his duties on the Medical Board of Examiners. Dr. Nichols will succeed Dr. Moore in Wallowa county and comes to make his permanent home here. As was generally known, Dr. Moore was only temporarily located and will spend a year in special school work.

We are glad to know that Dr. Nichols has come to stay. His wife has always lived in a high altitude and they are glad to come to these thriving towns for their home.

Dr. Nichols comes with the best of credentials, being a graduate of Los Angeles College of Osteopathy. He passed the Oregon Medical Board two years ago and has been carrying on his osteopathic practice in Portland. He is treasurer of the Oregon Osteopathic Association and a member of the American Osteopathic Association.

Dr. Nichols is experienced in obstetrics and general acute cases, and will also carry on an extensive office practice. Mrs. Nichols will arrive as soon as they can secure a house. Dr. Moore will be found at his office until the 14th when he leaves for San Francisco.
