THE HOME FURNISHER ENTERPRISE

Why buy your piano from a traveling agent? He does not help you to keep up your schools or any other public institution, and from a standpoint of dollars and cents he will have to charge you more for an interior instrument, as they do not get their goods from the factory, and you have to pay about five different profits before the instrument reaches your home. I handle only reliable goods direct from the factory, such as the noted

which is the best on earth and at prices in reach of all.
