H. M. CAKE,
Republican Candidate For Nomination For
UNITED STATES SENATOR.

Mr. Cake is the Advocate of Statement No. 1 and the popular election of United States Senators; two years ago he took the stump for his successful opponent. He deserves the support of every loyal Republican who believes in pure politics. The machine element concedes his nomination if the people go to the polls, but boasts that believers in Statement No. 1 will not be interested enough to vote at the primaries. This is the last appeal to those who believe in the popular election of United States Senators to assert the rights which the old machine is trying to wrest from them.
