MERRIEST OF ALL MUSICAL MEDLEYS

COMIC OPERA, THE JAPANESE GIRL, AT OPERA HOUSE FOR LIBRARY BENEFIT.

The ladies of the Enterprise Library association will present the delightful comic opera, "The Japanese Girl," at the opera house, Saturday night, December 5. The opera is the merriest of all merry musical medleys, and the cast, composed entirely of ladies includes all the leading singers of this city and vicinity. It is as follows:

O Hanu San (Beautiful Flower) a Japanese girl of position ... Miss Joyce Craig

O Kitu San (Sweet Chrysanthemum) ... Mrs. Lockwood

O Kayo San (Tears of Bliss) ... Mrs. Kerns Chaya (tea server) her servant.

Miss Alta Davis

Nora Twinn ... Miss Effie Hauck

Dora Twinn ... Miss Sadie Hauck (Young American ladies traveling with their governess.)

Miss Minerva Knowall, governess

Mrs. Gally Chorus of Japanese girls, etc.

Between acts Misses Edna Browning, Nanne Heaton, Allegra Ragsdale, Bauer and Bauer, and other artists will appear in a bunch of brilliant and superb songs and specialties.

Patrons will enjoy a rare musical treat, in addition to which they will be encouraging a public institution which is entitled to every encouragement at the hands of Enterprise people. The Enterprise circulating library is already a power for good in the community and if patronized in a manner to which it is entitled it can be made an institution of which all Enterprise will be proud.

The ladies of the association are serving entirely without compensation, actuated solely by the belief that the library is of benefit to Enterprise. Since its re-organization they have added several hundred volumes to the library and confidently anticipate that they will be able to add several hundred more at an early date, in consideration, therefore, of the fact that "The Japanese Girl" is for the benefit of this worthy institution, the ladies appeal to the civic pride of the people of Enterprise to patronize it in a liberal manner.

INTEREST FARMERS IN BEET GROWING

VISIT OF SUGAR COMPANY MEN MAY START NEW INDUSTRY HERE.

The representatives of the Amalgamated Sugar company, Job Pingree, Ogden, field superintendent; F. G. Taylor, manager of the La Grande factory, and F. S. Bramwell of La Grande, are much encouraged at the prospects resulting from the meetings held in the valley this week, especially those at Enterprise and Lostine.

Unfortunately the hour was not advertised for the Wallowa meeting and many of the farmers had gone home, but arrangements were made for another meeting there to be held soon.

At Enterprise, such landowners as Hon. J. H. Dobbin, R. F. Stubblefield, R. D. Sanford, Carl Whitmore, Wm. Makin and others manifested great interest in the subject, and considerable land was offered for rent, and some acreage pledged.

At Lostine there was a good attendance and the farmers were interested. The Joseph meeting was held Monday and Mr. Pingree explained the proposition to the assembled farmers.

In all the meetings, the growing of beets was the principal topic, the kind of soil best adapted, climate, water, etc. The visiting gentlemen explained the unsatisfactory experience of farmers in certain parts of the Grande Ronde, where lack of water and use of soil that had lost its fertility resulted in small returns.

It was stated that the Wallowa valley is a most promising field for the sugar beet industry. Soil, climate and abundance of water all favor, and with proper cultivation 20 tons to the acre would not be an uncommon crop.

The company will pay \$4.50 a ton for beets delivered on board cars, the same price paid in Union county. It will also undertake to furnish all the hand labor necessary in caring for the crop, leaving only such work as can be done with a team for the farmer.

Fares from Enterprise to various towns are as follows: Joseph 15 cents, Lostine 30 cents, Wallowa 55 cents, Minam 95 cents, River Junction \$1.20, Palmer Junction \$1.35, Elgin \$1.70, Imber \$1.95, Alcol \$2.10, Island City \$2.25, La Grande \$2.35, Portland \$11.45.

Agent Harmon received his chopper, dater and other supplies and began selling tickets Wednesday morning. Before that, passengers paid cash fare to the conductors. In spite of the handicaps of poor office accommodations and the rush of work incident to the opening of the line for traffic, Mr. Harmon's daily reports are going in with the cash.

The main track through the Enterprise yards was raised nine inches by the steel gang Monday and was ballasted and leveled. J. H. Patterson has a number of teams and a gang of men at work on his contract of graveling the yards.

Work on the depot is being pushed regardless of the wintry weather. The roof is on and the building is all enclosed. It was wired Wednesday for electric lights.

Construction Engineer Brandon in town Tuesday night and gave orders that a gravel walk 10 feet wide be put down from the northeast corner of the depot in a direct line to the new walk built on Alamo street by G.
