ANDERSON PAYS FINE.

From La Grande Observer.

Charles Anderson is beginning to think that the way of the transgressor is hard. Yesterday, after numerous postponements, he was arraigned for contempt of court, charged with passing a box of cigars to the jury while arriving at a decision wherein he was the defendant—charged with violating the local option law. After hearing his side of the case, which seemingly was a sudden spasm of liberality, not with any intention whatever of making a favorable impression on the jury, he just handed one of the jurymen a box of cigars. Judge Knowles did not look at it the same way Anderson did and fined him \$50.

ENTERPRISE DISTRICT WILL REFUND BONDS

EASTERN PEOPLE POUR INTO OREGON

COLONIST TRAVEL GREATER THAN EVER BEFORE—ONTARIO MAKES RECORD.

Portland, March 9.—They are coming. People from every part of the United States and Canada are pouring into Oregon at the present time at a rate never before equalled, and there is evidence that the travel during the entire colonist period will be enormous. The present rate is 2000 each day. Many communities are busy sending out leaflets giving the low rate of twenty or twenty-five points, others have the information printed at the top of their stationery and on their envelopes. Every reader of this paper should see that such a leaflet goes in each letter he sends to people at a distance. School boys and girls all over Oregon are doing their part. Remember this rate is good until the last day of April.

A most interesting acknowledgment of the apples sent by the Portland Commercial club to King Edward comes in a letter from Buckingham Pa'a.e, written by General E. M. Brobyn, Keeper of the Privy Purse to His Majesty King Edward, to one of Oregon's best known and most respected citizens, A. E. Brereton.

A little extract from General Brobyn's letter is interesting:

"The five boxes of apples which were sent to His Majesty arrived quite safely and were thought very highly of by the King and others who tasted them. I write to convey His Majesty's thanks for the fruit.

"Should we all live for another Christmas, and if you will kindly send directly to me at Sandringham a small supply of these apples, writing me a few lines of warning of their dispatch, I promise to bring them to the notice of the King and His Majesty's guests assembled at Sandringham at that season of the year, and will give you a full report of them."

Ontario is determined that the Great Malheur project shall be realized. The people of Vale are co-operating with them—in fact all the citizenship of Malheur county is a unit, and there was never better evidence of their progressive spirit than the fact that they raised one evening last week the sum of \$2500 in 25 minutes—or at the rate of \$100 a minute—with which to advertise their resources. When one considers that Ontario has only 1500 population, this is one of the records.

Comparatively few people of the "Beaver State" know that Forest Grove is nationally known as the source of America's most perfect archery bows, Pacific Yew, which grows to perfection in Oregon, is the material used, and Captain F. S. Barnes fashions it with skilled hand into bows sought by experts all over this continent and even abroad. Though almost seventy years of age, the Captain is himself a splendid archer, and such an enthusiast in his chosen craft that he makes personal trips to the mountains each year to select yew of just the proper grade and grain—the altitude at which the tree grows is an important factor. Occasionally a bow of rare accuracy and highest speed is created, and these are dignified with names, "Cyclone" and "Whirlwind" are famous among archers.

Traded His Ranch.

W. J. and C. D. Akin of Paradise were county seat visitors Tuesday. W. J. has traded his ranch for 120 acres of land eight miles from Dayton and for town property in Dayton. He expects to move to his new home next week.

DEATH RECORD.

Mrs. Paul Melotte died Friday night in the state hospital at Salem, where she had been taken a few days previously. Her son Frank was with her when she passed away, and he brought the remains home, arriving Monday. The funeral was held from the house Tuesday forenoon, Rev. S. C. Adams conducting the services; interment in Enterprise cemetery.

Emilie Dishow was born at Vadri Lower Canada, June 14, 1822. She was married on Nov. 11, 1842, to Paul Melotte in St. Lawrence county, N.

Y., where they resided until four years ago when they joined their sons here in Enterprise. She was the mother of 11 children, nine sons and two daughters, of whom four sons, one daughter and the aged husband survive. The children living are Gilbert and John in New York state, Frank and Joe in this city, and Mrs. Nancy Baulieu of Oregon City. Mrs. Melotte was a member of the Catholic church all her long life, a true wife and loving mother. Her last years were clouded by infirmities, but made comfortable as possible under the circumstances by the care and devotion of her children.

BOND DISTRICTS TO BUILD ROADS

NEW SCHEME DISCUSSED AT BOISE CONGRESS—MIGHT HELP WALLOWA.

To create interest and public sentiment in Oregon and Idaho that will result in changing the state constitutions, and the passage of proper legislation that will permit of forming railroad districts, is the main purpose of the Oregon-Idaho Development association that recently held a largely attended and enthusiastic congress at Boise, Idaho. William Miller represented the La Grande Commercial club at the meeting and returned thoroughly imbued with the spirit of the gathering and convinced the attendance of the object of the league would mean great opportunities for the Grande Ronde valley. As the same conditions exist in Wallowa county, and if such districts would help Grande Ronde they would help this county, the following extracts from an interview by the Observer with Mr. Miller on his return, will be of interest:

"The object of this association is to create interest and enthusiasm that will result in the changing of our state constitution and the passage of the proper legislation that will permit of forming railroad districts that under proper restrictions certain areas can be bonded for the purpose of building and operating railroads. Mr. Miller cited the fact that if La Grande could form a district on the west side of the Grande Ronde valley, that it would be only a matter of organization of securing a railroad or trolley line from La Grande to Summerville, thence to Wallowa.

"The idea is identical with the formation of irrigation districts under which great irrigation projects have been made possible in Oregon and Idaho. The next meeting will be held at Ontario on the 26th and 27th of this month, and in the latter part of April the congress will be held in La Grande. At that time the people of this vicinity should make it imperative to attend and become acquainted with the objects of this organization of which Judge Lowell of Pendleton is president."

A local nine and the Curtiss Comedy company nine played seven innings of baseball Sunday, the score being 17 to 5 in favor of the locals. A cold wind and damp grounds prevented either side from fast playing.
