LOSTINE BANK IS CONSIDERED SURE

RENT BUILDING AND APPLY FOR INCORPORATION—RECEPTION TO GOODMANS.

Lostine, April 2.—A farewell reception to W. M. Goodman and family was held at the home of Charles Williamson Tuesday night. The high esteem in which this estimable family is held in this community was fully attested by the large gathering of friends and neighbors. It was an overflow meeting and it being a moonlight night the young people played games in the yard. A toothsome and generous repast was partaken of, and the friends were loath to say farewell. Mrs. Goodman visits with friends in Enterprise and vicinity for a week until Mr. Goodman concludes his business relations here and together they go to Portland for a week and on to Coquille by the middle of the month.

Saturday night a basket social was given in the school hall. A mock trial was held in a kangaroo court trying a boy for horse stealing. The culprit was sentenced by Judge H. B. Starr to buy the biggest basket.

These socials are a pleasant feature of the school and the proceeds go to the school ball team.

The Lostine bank is a certainty. F. E. Eichelberger of Boise, Idaho, rented the Ed Hart stone building next to the drug store, and Fred Fitzpatrick has received a letter from him at Boise saying he was getting his papers of incorporation.

Linzey Hammack has moved his sawmill. Mr. Hammack has the contract for hauling logs and Mrs. Hammack will board the men to be employed in the mill. H. M. Ricker of Joseph was down and sawed out the track for the mill.

Mr. and Mrs. Charles McDaniel of Wallowa drove to Lostine Tuesday, Mrs. McDaniel visiting with her sister, Mrs. J. O. Kiddle, until Wednesday.

J. H. Whitmore and family of Leap traded in town Tuesday.

Fred Fitzpatrick, wife and mother, returned Thursday from their winter sojourn in California.

Dr. Ketchum and F. S. Ashley of Enterprise were business visitors, Thursday.

Mrs. S. L. Magill entertained the Bible Study society at her home,

Wednesday a ternoon. After the hour study the hostess served refreshments.

To Look Over Wallowa
Adam Pattison, one of the most extensive sheep owners of Utah and Wyoming and formerly interested in farming lands in this valley, arrived last night from Salt Lake after an absence for over a year, says the La Grande Star. He will probably make a trip to Wallowa county to look over prospects in that section before returning to his home in Utah.

Mr. and Mrs. Robert Miller returned to their home at La Grande Thursday.

Highest Average Price of Butter

Enterprise Creamery Patrons March Checks Are at Rate of 31 Cents.

The output of butter from the Enterprise creamery sold for an average price of just a small fraction less than 33 cents a pound for the month of March, the highest wholesale price for an entire month but ever sold for in this county. Manager J. W. Bickford informs us he always pays for butter fat within 2 cents of the wholesale price of butter, so the farmers who sell him butter fat will receive checks for March at the rate of 31 cents a pound.

April Showers and Cream Separators.
If you intend to purchase a separator it is now high time for you to do so. With the coming of April showers, green pastures, and all that warm spring days bring with them in a dairy way, you will find a separator the best investment you ever made after a few days' use.

With the big milk flow that is sure to come during the next few months the separator will almost pay for itself before August in the saving of butter fat alone, to say nothing of the profits you will make from having the fresh, warm separator skim-milk for the young calves and pigs, and the time and labor that the separator will save everyone about the farm during the busy spring days. Every day you are without a cream separator means just so much money lost. Look up or phone Enterprise Creamery company, the De Laval agent, at once, or write for a catalogue and any other desired information.

WOULD INCREASE BIG CROP'S VALUE

MEAL MILL WOULD STOP WASTE AND HELP THE STOCK INDUSTRY.

There are thousands of tons of alfalfa going to waste in the valley and we do not realize it. Alfalfa to animals is largely wasted unless ground to a meal. A mill that will grind twenty tons a day would be soon running to its full capacity and then be behind with its orders. The meal is the best hog fattening stuff known, and by many practical men estimated to be equal to corn meal pound for pound.

This paper will soon publish particulars and authentic information concerning the cost of a mill. A company can be organized and our alfalfa which is the equal of any in the state given additional value as a food product.

To grind alfalfa requires considerable power, but we have plenty of water power, and we should utilize it to manufacture our own products. In California mills with capacity of a hundred tons a day are running most of the year grinding alfalfa into a fattening and feeding bulk that creates a market for the alfalfa of the farmer and enables the fattening time of the stock raiser to be shortened considerably. The establishment of large packing houses in Portland is going to make an enormous demand for Wallowa county hogs, and an alfalfa meal mill would hog to take his side-door-pullman trip to Portland much sooner than heretofore.

We can put up the mill with local capital, run it with our mountain water and market it all at home, fed to our sheep, hogs, cattle and horses.

Another Big Resource.
A La Grande marble dealer received a car load of marble and granite, Wednesday, says the Star, totaling in weight 44,000 pounds. The marble came from Proctor, and the granite from Barre, Vermont.

The marble of Wallowa county is thought to be the best in the world, but it has not been tested and demonstrated. We should endeavor to obtain samples for exhibition in Enterprise as well as at the Seattle fair, and then send representatives to Vermont and endeavor to interest practical quarrymen in the development of what many think to be the greatest natural resources of the county.

Lease Land for Sugar Beets.
Superintendent F. G. Taylor of the La Grande sugar factory and F. S. Bramwell were here Tuesday night and closed contracts for leases of land from J. Haas and A. Wade of Alder Slope, on which to make the test of sugar beet culture. Mr. Taylor stated the test would also be made on Prairie Creek land owned by J. H. Dobbin and they also desired to lease one or two other fields on the slope. In all over 200 acres will be planted to beets.

Lostine's Good Paper.

Lostine has a bright, handsome, newsy local paper of which the town and the publisher can feel justly proud. The second number of the Reporter is even better than the first. The publisher and editor, M. E. FOR DEALING IN PORTLAND REALTY

PRIMARY PURPOSE OF LOCAL COMPANY WITH \$36,000 CAPITAL STOCK.

The Pacific State Investment company, capital stock \$36,000, is a new local organization for which incorporation papers have been asked of the secretary of the state. The incorporators are A. F. Foley, B. B. Boyd, L. W. Riley and C. H. Zurecher. The primary purpose of the company is to deal in a large tract of Portland suburban property, but the scope of the company is broad and includes the right to own land, conduct merchandising, manufacturing, selling power, etc.

Made Big Money Here.

R. D. Sanford has sold his hill land, consisting of 320 acres two miles northwest of town, to H. C. Laird, the well known valley farmer, for a price said to be \$1250 an acre. Mr. Sanford, who recently sold his Alder Slope farm for \$12,000, held a sale this week, and states he is going to look for a location on the lower Grande Ronde river, a melon and tomato raising district. He sold his hill and Slope land for nearly \$5000 more than he gave for it less than three years ago.

Will Move to Enterprise.

C. E. Vest has sold for D. H. Shafer of Elgin, eight lots in the southeast part of town to W. T. Warnock of Imnaha. Mr. Warnock will erect a commodious and comfortable dwelling this summer and move to this city to give his children the advantages of our excellent schools.

MORTGAGE FOR \$400,000 FILED FOR RECORDING

Clerk W. C. Boatman received on April 1 for recording the big deed transferring all of the Crossett timber land in this county to the Palmer Lumber company. The consideration is given as \$1 and other valuable considerations. Accompanying the deed is a mortgage from the Palmer to the Crossett company for \$400,000, covering the land transferred.

The La Grande Star states the receipts of the recorder's office in Union county for March was \$328, the largest in the history of the office. The receipts for recording in this county during March was \$301 and it is not a big month either. If the Crossett-Palmer deed and mortgage had been received a day sooner the receipts here would have exceeded those in Union where the population is twice that of this county.

Hon. J. P. Rusk of Joseph has been appointed attorney for the state land board for Wallowa county, to succeed C. R. Eberhard, who resigned because of his appointment as receiver of the La Grande land office.
