ENTERPRISE WILL CELEBRATE JULY 4

SO DECIDED AT ROUSING MASS MEETING—ROUTE OF TODAY'S PARADE.

Enterprise will celebrate the glorious Fourth. It was so decided following the big mass meeting held Wednesday night to nominate a city ticket. Following the adjournment of the large gathering of business men and other citizens, the question of whether to celebrate or not was put in the form of a motion to celebrate and carried unanimously. The motion was made by A. C. Miller who called attention to the fact that this city gave way last year to the celebration at the head of the lake. It is Enterprise's turn and it is determined to make the biggest and best Fourth of July ever in the county.

Joseph, April 16.—Will Thompson of Iowa, a brother of M. P. Thompson of the Innaha, is here looking over the country with a view to locating. He has been on a tour of inspection through Canada and is well pleased with Wallowa county.

The family, a party of 13, arrived here Friday and are living in the house recently vacated by Mr. Graves, who is a brother-in-law of Mr. Marlin. There are several other cases of the disease in the family and they are under strict quarantine.

Plans are progressing finely on the new Methodist Church, the construction work being opened for bids Wednesday morning. The warehouse work is also going along well, about 14 men being employed.

Everybody was surprised at the big turnout to the meeting as there was no issue or special contest on. The court room was filled, over 100 voters being present. Utmost harmony prevailed, two candidates for each office being named simply to add zest to the election.

The meeting was called to order by Mayor Mayfield. H. A. Galloway was elected chairman and W. E. Taggart secretary. The call was read and nominations were in order. A motion by A. C. Miller prevailed to name two candidates for each office. Only the requisite number were named for each office and no ballot was required as all nominations being made by acclamation.

A motion to appoint a committee of five on resolutions and platform carried but was afterwards made nugatory by deferring one year. The candidates are all well known citizens and everyone qualified for the respective offices. Mayor May-

field, Recorder Taggart, Treasurer Lockwood and Attorney Dill are candidates for re-election, as are Councilmen Boyd, Berland and Combes.

Ditcher For Water Pipes Has Arrived

Work Scheduled To Begin As Soon As Pipe Reaches Enterprise.

The big traction ditcher to be used to dig the trenches for the water works pipe arrived Thursday in charge of W. H. Rose. It was shipped over 10 days ago from Douglass, Wyo. It is a huge affair and its unloading from the flat car was quite a sight. Mr. Rose, assisted by one man, runs the ditcher.

W. H. Dryden has been here a week looking over the ground. He is an employee of the contracting company and came here from Oklahoma.

Work will begin as soon as the pipe arrives from Olympia. The pipe gang of 10 or a dozen men will follow the ditcher as close as possible, laying and covering the pipe. Work will begin at the springs and they will reach town in about a month.

Hockett, and her father, Robert Haskins, and sister, Lee, accompanied her. At first it was thought she would recover from the operation, but she took worse and died Thursday night. 1000 MEN AT WORK ON SNAKE RIVER R.R.

MOUNTAIN FULL OF RATTLE-SNAKES UNEARTHED BY CUT—RAILROAD NEWS.

HUNTINGTON, April 15.—The first passenger train to traverse over the Northwestern road (Snake river line) was run today from here to Robbette, at the mouth of Powder River. This inaugurates passenger traffic up the Snake and until the road is extended on toward Lewiston, that town will be the terminal.

Working down the Snake river, from Huntington toward Lewiston, the Northwestern road has a force of 1,000 men, working day and night.

Every energy is being bent to complete the seventy miles of the road under the present contract. As early a date as possible. Crew after crew of laborers has been added within the past few days, and indications that the builders propose to increase the rate of construction on the road which will eventually afford Harriman a water level grade to Portland.

Construction work on a 900-foot cut is being rushed with three shifts of employees.

While undermining the mountains dozens of pockets of rattlesnakes have been unearthed in the den, the number of reptiles vary from 50 or 60 to more than a thousand. In one place, so the story reached Baker City, 1200 rattlers were disclosed by a single blast. They are still in their dormant state and the workmen had practically no little trouble effecting their destruction.

Prairie City Buys Stock.

Prairie City, 20 miles beyond Astoria, the present terminus of the Baker City and Sumpter railroad, held a big mass meeting last week and made a big start toward stock subscriptions for the extension of the road to that point. Those who had no money, pay for their stock in right of way, labor, ties, and other material.

Local Railroad Notes.

Engineer Brandon is doing a good job of fixing up the depot grounds here. A real gravel walk now connects the depot with the sidewalk on Alamo street, and a carriageway for buses, express wagons, etc., will be made parallel to the walk, the old road through the brush being closed up. The brush surrounding the depot is most unsightly and should be pulled. It would only cost the company a comparatively small sum to add that great improvement to the appearance of its property.

D. B. Locke, who has been doing double duty on one of the branch trains as messenger and brakeman, has been promoted to freight conductor on the main line. J. R. Gibson has taken his place on this run.

Ralph Holtenback, formerly of this city but now employed at the O. R. & N. round house in La Grande, was visiting friends here this week.
