To have your clothing thoroughly cleaned or dyed. We Clean, Dye and Care and Make Over Suits and Old Outfits. Feathers, Men's Hats and Panama Hats Cleaned and Blocked. The Cost is Little compared with the results. We do the largest express and mail order business. Write for particulars.

The Embarrassing Truth.
"The vindication of Dr. Harvey W. Wiley is a great triumph," said a Washington diplomat, "for pure food. Dr. Wiley tells the truth, and the truth is painful to certain types of food producers."

The diplomat laughed.
"Dr. Wiley was talking the other day about the painfulness of the truth," he resumed. "He said it reminded him of a morning call that he once made on a young lady in his youth. In answer to his ring a tiny tot of a girl opened the door, and Dr. Wiley said to her, as he walked into the hall:
"Where is your auntie, Mabel?"
"Upstairs in her nightgown," chirped the tot, "a-lookin' 'ver the balustrade."

Well, from \$200 Down.
Wife—I do really need a spring bonnet.
Hubby—How much?
Wife—Well, I could get one for from \$10 up.
Hubby—I'd rather know from how much "down."

No Objection to Telling.
"Do tell me, Pulsatilla," begged the girl under the inverted waste basket, "the secret of that wonderful blonde hair of yours. It defies detection."
"I will," said the girl under the inverted coal scuttle, "if you won't tell anybody else. I selected for my grandmother and mother two women who had hair just like mine."

Sounds Plausible.
"What is your principal object, anyhow," asked the visiting foreigner, "in building that Panama canal?"
"Well," answered the native, "we have an idea it will limit the size of future battleships."—Chicago Tribune.

A cold on the lungs doesn't usually amount to much, but it invariably precedes pneumonia and consumption. Hamlin's Wizard Oil applied to the chest at once will break up a cold in a night.

Glorious Victory.
"You had a political debate in your district school building last Saturday night, Uncle Sime, I understand. How did it go off?"
"We win. Whenever the other fellows tried to talk we turned loose two dozen cowbells, a lot of fishhorns, a bugle, a bass drum, an' a horse fiddle, an' they got it up an' quit. By George, they didn't git to say a blamed word!"

AIRSHIPS FOR ARMY

Leading Officers Convinced by Zeppelin's Achievement.

THREE DEPOTS ON EAST COAST

General Allen, Chief of Signal Corps, to Submit Plans to Congress—Would Patrol Coasts.

Washington, June 3.—Under the instruction of Brigadier-General Allen, chief of the signal corps of the army, plans have been prepared, it was announced tonight, showing what is necessary for the aerial defense of the United States. If congress would appropriate the money he would begin at three points along the Atlantic coast—Washington, New York and Philadelphia—where dirigible balloons and aeroplanes would be stationed. At each point one large balloon and an aeroplane would be placed. This would require more than \$500,000. General Allen had prepared a map showing points along the outer borders of the country and in the interior where he believes there should be aerial defense stations. To carry out the entire scheme would require about \$5,000,000. The war department is convinced, in the light of achievements of the Zeppelin balloon, that aerial navigation has arrived. In anticipation of favorable action by congress, the signal corps has been instructed to prepare the plans referred to.

"It is intended," said an army officer tonight, "that the coast dirigible shall not pass off its own station except in cases of extremity and that the sailing distance shall be 125 miles south and 125 miles north from the depot. In this manner the entire coast from Maine to Florida will be patrolled and in case of war it will be virtually impossible for a hostile fleet to approach the coast of the United States without being discovered long before the sentinels on land could see the vessels. Once discovered, the fleet's movements could be watched with safety and with the use of wireless its maneuvers could be sent the length of the coast."

"The plans will include an elaborate system of vertical searchlights, by which the airships will be guided during the night flights. These lights will mark the various batteries and the balloon depots and they also will be used in signaling the swiftly flying ships overhead. Most of the signaling, however, probably will be done through the medium of the wireless."

STRIKERS GAIN GROUND.

Capture Light Plant and Place City in Darkness.

Sisson, Cal., June 3.—While state troops are on the way to McCleod to suppress lawlessness, the power house and lighting plant at that place were captured by the striking shingle mill hands today, and the town is in darkness tonight. Between three and four hundred armed strikers marched on the plant in a body late tonight, drove off the 25 armed deputy sheriffs on guard, and took possession, compelling the men at work to quit. The deputies received warning of the intention of the strikers to capture the plant, but they deemed it useless to attempt resistance and left when ordered to do so. Not a shot was fired and no one was hurt. Six hundred strikers formed in line and paraded the streets this afternoon. There was no disorder, but, with banners flying, the men trembled by the company's store and offices as though on review.

Sheriff Howard admitted this afternoon that he needed help to handle the situation. In reply to the sharp criticism of Governor Gillett, who declared that the peace officer should have arrested the ringleader, he said that to have done so would have precipitated a riot he could not hope to quell and which must have resulted in the loss of human life.

German Anarchists Meet.

Leipzig, June 3.—The Anarchists of Germany are at present in conference here and the attendance is large. Today the congress adopted a motion declaring that membership in any church or religious sect was contrary to the principles of anarchy and called on all anarchists to cease their membership in churches. Dr. Friedberg, of Germany, read a paper in which he said the cultural goals of anarchy should be fought for by cultural methods. The discussions were purely academic and the police did not interfere.

Jail for Wife Deserters.

Los Angeles, June 3.—Probably the first prosecution in the state making wife desertion a misdemeanor punishable under maximum sentence by two years' imprisonment in the penitentiary or a fine of \$1,000 was begun in Los Angeles today. The law was passed by the last legislature and became effective May 1. The case is that of Lester L. Adams, of Eagle Rock, who is charged with deserting his wife and their two children.

Empress Honors Women.

Tokio, June 3.—Misses Isabella and Mary Prince, pioneers in education of women in Japan, have received practical recognition of their long and faithful services from the empress. They are now about to return to America after having been here for more than 20 years without a visit home.

FAIR IS OPENED.

First Day's Attendance at A.-Y.-P. Exposition 89,286.

Seattle, June 2.—Seattle came into her own yesterday, and in spite of the threatening skies opened the exhibition that has been the dream of her existence for the past two years. Aside from this, Seattle demonstrated to the world that she had become a full fledged city, capable of caring for exposition crowds as well as any of the more Eastern cities that have wrestled with the problem. In fact Seattle surprised herself, as well as her thousands of visitors today, and acquitted herself well in everything.

The gates at the fair grounds opened at 8 o'clock in the morning and there was a crowd on hand to rush them in, though there was nothing on the day's program until 10 o'clock. But the crowd didn't care; it surged through the gates at a rate that promised well for the attendance figures, and it kept surging in just that way for the rest of the day.

At 10 o'clock the military and naval pageant commenced, soldiers and sailors of the Union as well as the Washington guardsmen acting as escorts to the exposition officers and visiting Japanese officers in a parade about the grounds. The parade pleased all, and passed the reviewing stand in the best of order.

The first days' attendance at the exposition, according to figures given out by the management tonight, was 89,286. The greater part of this was in the daytime, more than 79,000 persons passing through the turnstiles between the opening hour and 6 o'clock tonight. The night attendance was cut down by a severe rainstorm.

SHORTAGE IN LEWISTON BANK.

Discovered by Bank Examiner—Stockholders Make Good.

Lewiston, Idaho, June 2.—Defalcations amounting to \$137,000 have been found on the books of the Lewiston National Bank by National Bank Examiner Claude Gatch.

Clarence Robnett, former teller, and J. E. Chapman, former bookkeeper, are accused of responsibility for the alleged shortage. Robnett was convicted of Idaho land frauds three years ago and is said now to be in St. Paul. Chapman is thought to be in Tacoma.

Pittsburg dispatches about ten days ago accused Robnett of passing worthless checks to cover land deals near Spokane. It is alleged that his shortage in the bank is due to speculations in irrigated lands.

Beyond the statement that the stockholders of the bank have made good the alleged shortage, Bank Examiner Gatch refused tonight to discuss the situation. Examination of the books show the alleged embezzlement has been carried on for the past five years and has been made possible without detection only through the conspiracy of the teller and bookkeeper, and the manipulation of the adding machine used in computing the daily balances.

Zeppelin Airship Wrecked.

Goepplingen, June 2.—After covering a distance of about 850 miles in 37 hours, Count Zeppelin's airship, on its return trip from Bitterfeld to Friedrichshafen, came to grief in an open field near here today. In maneuvering for a landing the airship came into contact with a tree.

The damage to the airship is much more serious than was at first believed. A cursory examination directly after the accident showed that the envelope had been torn and it was thought that the injury could be repaired and that the vessel would proceed tonight. A more careful examination, however, disclosed that the prow was broken and that considerable time must elapse before the journey can be resumed.

Rockefeller Has No Kick.

Tarrytown, N. Y., June 2.—Action of the Tarrytown tax assessors in adding an item of \$150,000 to the assessment of John D. Rockefeller, did not perturb him in the least. This was grievance day for the taxpayers here, but Mr. Rockefeller not only failed to register a protest, but through a representative, announced he was well satisfied with the valuation of \$545,898 on his country place. The new stone mansion just completed is assessed at \$250,000.

Oil Found in Arizona.

Yuma, Ariz., June 4.—Locators of oil lands who have returned to Yuma from the scene of the discoveries near Tacnac report immense excitement in that district. The original find was made by Henry Laudemilk, who, cleaning out the shaft of an abandoned mine a few days ago, found on the 110-foot level a fluid he believed to be oil. His decision was confirmed by others and the news of the find spread rapidly. Every foot of land in the vicinity has been filed upon. An oil expert will visit the district.

Auto Goes Bottom Up.

Walla Walla, June 2.—As the result of an automobile turning topsy turvy yesterday afternoon, Mrs. Henry Heisler, of this city, is seriously injured and is not expected to live, while her husband is also in a critical condition. Mrs. Heisler was attempting to drive the machine and in rounding a curve threw on all the power instead of shutting it off as intended. In her fright she turned the steering wheel in the wrong direction.

Shocks Felt in Panama.

Panama, June 2.—A slight earthquake shock was felt here about 3 o'clock today. At 7 o'clock this evening a much stronger movement occurred. No damage has been reported. The weather is extraordinarily hot.

HONOR TO REGULARS

President Taft Speaks on Noted Field of Gettysburg.

OPPOSED TO REDUCTION IN ARMY

Expects Congress, With Aid of Hot Weather, to Adjourn by June 20—Monument Unveiled.

Gettysburg, Pa., June 1.—Yesterday was the day of tardy honor to the "regular" at Gettysburg. An imposing shaft of granite, erected by congress to the memory of those of the regular army who fell in the three days' battle, was unveiled by the president's daughter, Miss Helen H. Taft, while the president paid tribute to officers and men of the United States army, past and present.

The president puts himself on record as opposed to any reduction in the standing army. He told of the prejudice that often had arisen against the possible aggressions of a regular army and a professional soldiery, and of the corresponding difficulty in arousing that love and pride in the army which expresses itself today and has frequently expressed itself in the past in behalf of the navy. The president asserted that the services of the regulars had never been commemorated adequately by congress or the nation.

"The profession of arms always has been an honorable one," he declared. "All honor to the regular army of the United States. Never in its history has it had a stain upon its escutcheon."

On the way to Gettysburg from Pittsburg, the president's car was sidetracked at York for two hours and during his stay he made a brief address, in which he declared again his hope for the early enactment of a tariff law, adding:

"I have been called an optimist for predicting that congress would adjourn by June 20. Perhaps I am. But if the Lord is good to us and the weather gets hot enough in June, I think our national legislators will be mighty glad to get out of those two close chambers at Washington."

Four regiments of the regular army were here to participate in the exercises. There also was a personal escort to the president composed of veterans of the regular army who fought in the Gettysburg campaign. The president was taken for a drive over the battlefield. At several points he alighted and stood on the promontories overlooking the valley below and the mountains in the far distance.

The ceremonies of the unveiling were simple. Miss Taft pulled the silken cord that released the flags draped about the monument. In falling one of the flags caught on a bronze eagle decorating one of the inscribed tablets. A trooper gave the flag a tug, but it could not be released until a large hole had been torn in the folds of the stripes. After the president's speech, Secretary Dickinson presented the monument to the battlefield commission. After the unveiling the president reviewed the troops. A mounted battery of artillery which recently served in Cuba was a source of much interest. When the review was concluded, the president hurried to his train.

PUT LINCOLN ABOVE ALL.

Hollingsworth Protests Against Honor Paid Jeff Davis.

Washington, June 1.—Memorial Day was generally observed here yesterday. All the government departments and practically all the business houses were closed in order that tribute might be paid the nation's dead. The principal exercises were at Arlington, under the auspices of the G. A. R. Every grave was marked with an American flag, while flowers were strewn everywhere. Appropriate exercises also were conducted at the Soldiers' Home National cemetery and other burial places in the city.

At the Soldiers' Home Representative Hollingsworth, of Ohio, was one of the speakers. He referred to the recent discussion in the house when he protested against placing the head of Jefferson Davis on the silver service of the battleship Mississippi, declaring that "it would be a dark day indeed for the republic when the name of Abraham Lincoln ceases to be revered above all other figures of the civil war period, or when it shall be replaced by that of Jefferson Davis in the hearts and affections of the American people. The thought of it is as shocking as the first thrill of horror that followed the firing on Sumpter."

Wireless Saves Steamer.

Guymas, Mex., June 1.—Through the use of wireless telegraphy, the American steamer Precursor, rendered helpless by a broken propeller, was rescued from a dangerous position and towed into this port yesterday. The Precursor had drifted aimlessly for three days. A tug was sent out and brought the steamer into port. Some of the passengers had become uncontrollable from fear and had to be locked in their staterooms.

Spain to Try Reform.

Madrid, June 1.—A bill providing for the reorganization of the Spanish postal service was adopted by the chamber of deputies today. The bill provides for lower postal rates, a parcels post, a money order system and a postal savings bank system.

DR. W. A. WISE
22 Years a Leader in Painless Dental Work in Portland.

Out-of-Town People

Should remember that our force is so arranged that WE CAN DO THEIR ENTIRE CROWN, BRIDGE AND PLATE WORK IN A DAY if necessary. POSITIVELY PAINLESS EXTRACTING FREE when plates or bridges are ordered. WE REMOVE THE MOST SENSITIVE TEETH AND ROOTS WITHOUT THE LEAST PAIN. NO STUDENTS, no uncertainty.

For the Next Fifteen Days

We will give you a good 22k gold or porcelain crown..... \$3.50
22k bridge teeth..... 3.50
