Citizens Allowed To Extend Mains

Money So Advanced To Stand To Their Credit For Water.

At the regular meeting of the city council, Monday night, October 4, a motion was adopted allowing any citizen who desired to advance money to extend the water system, to do so and the amount so advanced to stand to his credit against water rent. This action was taken as it is understood a few property owners where the mains do not reach, desire to take this method of securing water without delay.

The recorder was instructed to order three pieces of 2-foot hose to connect the new hose recently received with the fire plugs. He is also directed to obtain prices on 3 and 4 inch wood pipe.

EVANGELISTIC CAMPAIGN.

The time for the opening of the meetings is drawing near. October 14 is not far distant. The executive committee is doing business in a manner that shows they mean business.

That is what is needed all along here. Much is yet to be done and every christian should line up for work. We need everybody who can fill a niche of usefulness. This is your meeting and everyone should work just as though its success depended upon you personally.

From North Dakota.

Fargo, N. D., August 10, 1907. For about three years I have known Rev. J. R. Pratt of Albany, N. Y., and have been in close personal touch with much of his evangelistic work. He knows his English bible as well as any man of my acquaintance. He is a devout, earnest, tactful, spirit-filled man of God. He has a winsome personality, and is a most acceptable preacher. He is eminently a teacher of the Word, with a love of souls and a strong evangelistic earnestness. No man has come into our State who has seemed to command the attention and respect of all classes of people as he has. He has had a prominent place on the program of the North Dakota Bible Conference for three successive years, and the ministers of all denominations seem to appreciate him better the more they sit under his teaching.—A. Christy Brown, Synodical Missionary.

PRESS COMMITTEE.

Mr. and Mrs. John Baxter of Grande Ronde are visiting her parents, Mr. and Mrs. W. H. Gibson.

Miss Lida Flowers was brought home from La Grande Friday evening still suffering with appendicitis but so much improved it was thought an operation was unnecessary, but during the night she took worse and today is very low.

There was no school Thursday and Friday, either in the public or high school, that the teachers could have the opportunity of attending the county institute at Lostine. Nearly all the local teachers attended one or more days.

The 1909 pennant in the Northwest baseball league has been won by the Seattle team with Spokane a close second. This is the first time in ten years that Seattle has been at the top of the heap. Last year Vancouver, B. C., won the championship and the year before that it went to Aberdeen. The other teams in the race this year were Aberdeen, Portland, Vancouver and Tacoma, coming after Spokane in the order named. President Taft, one of the most ardent baseball fans in the country, as soon as he struck the Northwest wanted to know if he would have a chance to see Seattle and Spokane play, while here, showing that he was posted even on baseball matters of the Northwest.

A Word About Osteopathy.

Dr. Still called his new system osteopathy, Osteopaths, then being essentially anatomists locate a lesion caused by a bone or ligament or a contracted muscle compressing a nerve, a blood vessel or some organ and cure the trouble by removing the lesion.

Why there should be any opposition to the free practice of osteopathy is not clear except that some people are always too busy to stop the progress of the world. Harvey, the discoverer of the circulation of the blood, suffered ignominy and contempt at the hands of his medical brethren, and his practice dwindled to very small proportions. Galileo was put in prison for saying the earth moves around the sun. But those who trust themselves in the hands of an osteopathic physician can rest assured that he thoroughly understands the anatomy of the human body, and will soon be able to locate in the particular spot the lesion causing the mischief or disease, and that only such manipulations are exerted which will set the bones in their place or remove any obstacle or constriction and thus allow a free flow of blood and nervous energy. In these days of surgery, when it is sought to bring every possible disease in the domain of the surgeon the people should be glad to see simple manipulations triumph over difficult cases which even the surgeon's knife could not remove.

These remarks are offered in a friendly spirit, and not to antagonize any school of medicine; they are prompted by a love of fair play in the land of the free. After many years of medical studies from all possible standpoint, the writer, as a Christianized party not tied to any particular school, neither riding a favored hobby, is forced to recognize the positive fact that osteopathy is merely applied anatomy and physiology; and those who fight it do so either from ignorance or malice.

BAKER COUNTY FARMERS PASS UP GOOD THING

From Baker City Democrat. For 49 hogs yesterday, weighing not over 200 pounds each, the Baker Packing company paid an Eagle Valley farmer \$755.

There is nothing so remarkable about the fact itself, but it does indicate the high prices obtaining, and the scarcity of Baker county porkers.

Work it out mathematically and it is almost impossible to find a reason for such scarcity, for the Baker valley should be one of the best hog districts in Oregon.

Yet on the other hand the packing company has purchased every available porker in the county for the next month and still has a great scarcity.

Where a year ago the company had 18,000 pounds of lard, yesterday there was only 600 pounds in the shops. They cannot supply Baker county's needs with Baker's porkers—not nearly.

Yet conditions here are almost ideal for hog raising!

By running the shoats on alfalfa until they reach 150 pounds in weight and then turning them into the fattening pens on a ration of wheat, according to the Oregon Agricultural Experiment Station, the farmers can get at the first 150 pounds of weight at 3 1/4 cents per pound, and can add the next 100 so that the wheat fed will pay them in pork weight at the rate of \$1.50 per bushel.

Under such conditions there are scores of ranchers in Baker county most admirably fitted to raise the noblest hog with great profit—far greater than they are getting from their alfalfa and grain under their present system of marketing their crops as crops yet for some reason there are very few who will pay any attention to that phase of their business.

Oct. 6—Gordon Martin, 24, laborer. Enterprise; Mary Wagner, 20, Enterprise.

Football Game Won By La Grande

Wallowa County High Tackles Team of Men And Are Defeated.

The county high school football team was defeated at La Grande, Thursday, by a score of 16 to 0. The team went out expecting to play the La Grande high school team, but was pitted against a team composed principally of men ranging from 18 to 27 years in age.

The local boys put up a nifty, gritty game nevertheless and never stopped fighting until the game was over. They lost because they were greatly overmatched in weight. The La Grande Star said of the Wallowa county boys:

Enterprise gained their yardage but twice in the game—once on a covered punt and once on a forward pass—usually being thrown for losses behind their own scrimmage line, being outweighed and outplayed by the local team all the way, though the visitors are worthy of a great deal of praise for the game fight they made against odds, and they fought just as hard when the score had run up to 16 to 0 as they did when the first few plays were made, and showed notable school and fighting spirit. This is their first year in high school football and another year should see them well up in front in the eastern Oregon lists. They are a very gentlemanly crowd of boys also.

Whirlwind Tablets cure rheumatism in this climate. They have relieved hundreds and cured scores of cases a Union and Wallowa counties, positive proof, names, etc., furnished on application. For sale by Jackson & Weavers, Enterprise. 20bt

Marble Mountain Highest.

A. W. Sampson of the Forest service, who has made careful aneroid measurements, says Marble Mountain in Hurricane canyon is higher than Eagle Cap. The former is 9,665 feet and Eagle Cap is 9,415.

Watch for Next Announcement

waiting for the coming of one whom many prefer to call "The Second Man of the Nation," William Jennings Bryan, who will speak at the A-Y-P exposition October 12.

The Democratic Central committee has the arrangements in hand and are planning to equal if not rival the reception accorded the leader of the Grand Old Party's forces. Mr. Bryan was obtained with no little difficulty, and will not speak at any other place in the Northwest outside of British Columbia.

He will speak at the Natural Amphitheatre at 2:30 in the afternoon, after being introduced by Governor Hay and Mayor Miller. In the evening there will be an old-time democratic rally, replete with red fire, drum corps, flambeau clubs, and brass bands. The marchers will wear the long linen dusters and high white hats first brought out in the Hayes-Rilden campaign.

After the demonstration on the grounds, a public reception will be held in the Washington State building, at which time Mr. Bryan will meet his northwest friends. President and Mrs. Chilberg will be in the receiving line.

New Irrigation Book Free. "Well Irrigation for Small Farms" is a publication just issued by the General Passenger Department of the O. R. & N. company and Southern Pacific Lines in Oregon. This booklet sets forth in a practical, concise way the possibilities for profit of inexpensive irrigation and should be in the hands of every farmer in Oregon. Copies may be obtained free on a application to W. M. McMurray, General Passenger Agent, O. R. & N. and S. P. Lines in Oregon, Portland Oregon.
